“Wonderfully, in Akashic’s Oakland Noir, the stereotypes about the city suffer the fate of your average noir character—they die brutally.” —San Francisco Chronicle In the wake of San Francisco Noir, Los Angeles Noir, and Orange County Noir—all popular volumes in the Akashic Noir Series—comes the latest California installment, Oakland Noir. Masterfully curated by Jerry Thompson and Eddie Muller (the “Czar of Noir”), this volume will shock, titillate, provoke, and entertain. The diverse cast of talented contributors will not disappoint. Oakland Noir offers stories by Nick Petrulakis, Kim Addonizio, Keenan Norris, Keri Miki-Lani Schroeder, Katie Gilmartin, Dorothy Lazard, Harry Louis Williams II, Carolyn Alexander, Phil Canalin, Judy Juanita, Jamie DeWolf, Nayomi Munaweera, Mahmud Rahman, Tom McElravey, Joe Loya, and Eddie Muller. “From the Oakland hills to the heart of downtown, each story brings Oakland to life.” —San Jose Mercury News “Oakland is a natural for the series, with its shadowy crimes and disgruntled cops.” —Zoom Street Magazine “San Francisco’s grittier next-door neighbor gets her day in the sun in 16 new stories in this tightly curated entry in Akashic’s Noir series. The hardscrabble streets of Oakland offer crime aplenty . . . Thompson and Muller have taken such pains to choose stories highlighting Oakland’s diversity and history that the result is a volume rich in local culture as well as crime.” —Kirkus Reviews

These chapters on ‘Responsible Leadership’ represent the latest thinking on a topic of increasing relevance in a connected world. There are many challenges that still remain when it comes to establishing responsible leadership both in theory and practice. Whilst offering conceptualisations for the improvement of leadership is a first and perhaps easier response, what is more difficult is to facilitate the actual change to happen. These chapters will not only generate interest in the emerging domain of studies on responsible leadership, but also will pave the way for future research in this area in the years to come. A fleeing impala leaps through an open car window. A lion charges around inside a busy rest camp. A hyaena snatches a baby from a tent. A tourist takes a bath in a croc-infested dam...These are just a few of the 101 jaw-dropping sightings, scrapes and encounters in this collection of extraordinary true stories from the roads, camps, picnic sites and walking trails of South Africa's Kruger National Park, as told by the very people who experienced them. Presenting more than two hundred of the greatest haiku ever written about the game. There are moments in every baseball game that make fans catch their breath: the pause while a pitcher looks in for the sign, the moment a cocksure rookie gets picked off first, or the instant a batter lashes a game-winning homer into the night sky, just before the sell-out crowd explodes onto its feet. Haiku captures these moments like no other poetic form, and *Baseball Haiku* captures the sights, the sounds, the smells, and the emotions of the game like no previous collection. Some of the most important haiku poets of both America and Japan are featured in this anthology; including Jack Kerouac, a longtime baseball fan who pioneered English-language haiku; Alan Pizzarelli, one of the top American haiku and senryu poets of the last thirty years; and Masaoka Shiki, one of the four great pillars of Japanese haiku—a towering figure—who was instrumental in popularizing baseball in Japan during the 1890s. With over two hundred poems spanning more than a century of ball playing, *Baseball Haiku* reveals the intricate ways in which this enduring and indelible sport—which is played on a field, under an open sky—has always been linked to nature and the seasons. And just as a haiku happens in a timeless now, so too does *Baseball Haiku* evoke those unforgettable images that capture the actions and atmospheres of the national pastime: each poem resonates like the lonely sound of cleats echoing in the tunnel as a grizzled veteran leaves his final game. The largest collection of haiku and senryu on baseball ever assembled, *Baseball Haiku* is an extraordinary treasure for any true baseball fan.

Swans, Swine, and Swindlers addresses a core, contemporary question: What steps can we take to better anticipate and manage mega-crises, such as Haiti, Katrina, and 9/11? This book explores the concept of "messes." A mess is a web of complex and dynamically interacting, ill-defined, and/or wicked problems; their solutions; and our conscious and unconscious assumptions, beliefs, emotions, and values. The roots of messes can be classified as Swans (the inability to surface and test false assumptions and mistaken beliefs), Swine (the inability to confront and manage greed, hubris, arrogance, and narcissism), and Swindlers (the inability to confront, detect, and stop unethical and corrupt behavior). Working systematically with this concept and these classifications, authors Can M. Alpaslan and Ian I. Mitroff reveal that all crises are messes; one must learn to understand and manage them as such. They then provide tools and frameworks that readers can use to more effectively deal with the crises of today and tomorrow. Drawing on ideas from research areas as diverse as human development, philosophy, rhetoric, psychology, and high reliability organizations, this book aims to be the definitive guide for a new era in crisis management. Therefore, it is a must-have for practitioners, scholars, and students who study and deal in real-life crises.

Up-to-date research and business practices are the hallmarks of this market leading text. In-depth applications (cases and exercises) at the end of chapters provide students with skill-building and practice in key staffing activities and decision-making. A comprehensive running case involving a fictitious retailing organization provides even greater opportunity for in-depth analysis and skill building. Students also have the opportunity to address ethical issues at the end of each chapter. Heaven lays down the law, and Hell gets more hellish as the greatest shared universe of all time makes its malevolent return.

Of the many Bible translations available today, are some better than others? If so, what criteria can we use to determine what makes a good translation? Leland Ryken introduces readers to the central issues in this debate and presents several reasons why essentially literal-word-for-word-translations are superior to dynamic equivalent-thought-for-thought-translations. You don't have to be a Bible scholar to recognize the need for a quality Bible translation. We all want to know that the Bible we read, study, and memorize is faithful to the original. Dr. Ryken tackles this issue and breaks it down in this concise, logical, and straightforward book, giving readers a valuable tool for selecting a Bible translation.
