

## Big Retirement Risk Running Out Of Money Before You Run Out Of Time

If you are looking for a way to retire early and live the big life, then keep reading. Investing may not be the first thing that pops into your head when thinking of retiring early, but it is one of the best options. If you have looked into investing, you have probably heard things like stocks, bonds, day trading, and so on, but what you may not have heard of is ETFs. They aren't the biggest player in the investing world, but people are discovering their possibilities. And ETFs come with a lot of choices as well, so that you can keep your risk right where you want it to be. While investing in ETFs aren't the only thing you should do to retire early, they are a great place to start. I understand, though, if you're still skeptical about the whole retiring early thing. That's a touchy subject because there is mixed information out there. Some people say it isn't possible to retire early, some don't even think people can retire on time, but then you have the small group of people that tell you that, yes, you can retire early. That's what this book is here to teach you. You will learn: The best income streams to start The top ETFs to invest in to get the most return Dividends or selling, which is better? How to figure out how much money you need to have to retire What risk is, and how to figure our yours ... And much more. Now, I understand that people are little leery of investing, and especially the thoughts of living off of investments in their golden years. There are a lot of unknowns in the world of investing, but with the right knowledge and planning, you can avoid a lot of the problems people face with investing. Also, you may worry that you could run out of money, but that's where the planning comes into play. We'll discuss everything you need to know to make sure that doesn't happen. While it may not sound pretty or fun, planning is the key to make sure you can retire when you want and live the rest of your life doing whatever you want. It is possible to retire early, and if you trust me, I will teach you exactly how it can be done. All you have to is take a chance and buy this book. If the larger view of things, purchasing this book is just a drop in the ocean of the things you have bought to help your future. Take that chance right now and scroll back up and click "buy now." Advice and guidance on planning for retirement Retirement Planning For Dummies is a one-stop resource to get up to speed on the critical steps needed to ensure you spend your golden years living in the lap of luxury—or at least in the comfort of your own home. When attempting to plan for retirement, web searching alone can cause you more headaches than answers, leaving many to feel overwhelmed and defeated. This book takes the guesswork out of the subject and guides readers while they plan the largest financial obligation of their life. Take stock of your finances Proactively plan for your financial future Seek the help of professionals or go it alone Use online tools to make retirement planning easier Whether you're just starting out with a 401(k) or you're a seasoned vet with retirement in your near future, this book helps younger and older generations alike how to plan their retirement.

The definitive guide to financial independence at any age! Retiring early is not limited to lottery winners or the super rich. In fact, with proper planning, we can all retire at a younger age than we ever dreamed—but only with the right plan. Personal finance expert Deacon Hayes explains the practical, concrete steps you can take to start your retirement when you're young enough to thoroughly enjoy it, including: \*Developing a personalized retirement plan \*Maximizing income \*Understanding opportunity cost \*Assessing and reducing debt \*Selecting the right investment vehicles \*Sticking to the plan With Hayes's guidance, you can achieve financial independence and enjoy an active, happy, and long retirement.

Not sure what retirement actually includes or how to prepare for it? Whether it is a relaxing, action-packed or financially rewarding retirement you want, this is the book for you. In retirement, personal ambitions can be realized and new experiences enjoyed, yet with so much to consider, people are often unsure how best to plan for their future. The Good Retirement Guide 2021 is an indispensable book that you will refer to again and again, offering clear and concise suggestions on a broad range of subjects for pre-retirement planning in the UK. Updated for the new financial year, The Good Retirement Guide 2021 is packed with hundreds of useful hints, tips and insights into your retirement preparation. Including information on: finance (investments, pensions, annuities and drawdown, benefits and tax), housing, health, holidays, starting a business and looking after elderly parents, this book will help you to save more, live better and be happier.

A practical action guide for financial independence and early retirement from the popular "Our Next Life" blogger. In today's work culture, we're expected to hustle around the clock. But what if you could escape the traditional path and get on one that doesn't require working full-time until age 65? What if you could wake up every day without an alarm clock and do the things you love most? Tanja Hester and her husband Mark left their crazed careerist lifestyle to live their dream life in Lake Tahoe, retiring early from high-stress careers. Now Tanja will help you map out a customized plan for freedom and make it easy to succeed, whether you're good at math and budgeting-or not! Work Optional is more than just a financial plan: it's a plan for your whole life—designed by you, not by an employer or clients. Tanja walks you through envisioning your dream life, accounting for variables such as health care and children, protecting yourself from recessions and future unknowns, and achieving a purpose-filled early retirement, semi-retirement, or career intermission with completely doable, non-penny-pinching steps. You can live a happier, more meaningful life, free from the daily grind. Regardless of where you are in your career, Work Optional will get you there.

Passive Income Ideas Requiring an Upfront Monetary Investment These types of passive income require you to invest money upfront to generate the passive income later. Don't be alarmed though - you can start with as little as \$5 with some of these ideas, so it's achievable for everyone. 1. Dividend Stocks Dividend stocks are tried and true way to earn passive income. You will have to do plenty of research to find good stocks and invest a significant amount of money to receive large dividend checks. However, if you consistently invest money into dividend stocks you can amass a nice residual income over time. For any of these investment opportunities, make sure you open an account at the best online brokerage and get rewards while doing it. This is amazing for investing in dividend stocks because you can build your portfolio of, say, 30 stocks. Then, your investments will be auto-allocated to your entire portfolio every deposit - for FREE! You can even auto-rebalance. Then, your dividends can also be reinvested. It's a fantastic platform, and it was made for this. 2. Rental Properties A cash-flowing rental property is a fantastic way to bring in a monthly income. To make this truly passive you can outsource the running of the properties to a management company. However, the internet has made investing in rental properties easier than ever before. There are a lot of ways you can invest in rental properties depending on what your goals and interests are. You can be a limited partner in large residential or commercial properties, or you can buy homes and be a landlord - all online!

Clients nearing retirement have some significant challenges to face. And so do their advisers. They can expect to live far longer after they retire. And the problems they expect their advisers to solve are far more complex. The traditional sources of retirement income may be shriveling, but boomers don't intend to downsize their plans. Instead, they're redefining what it means to be retired—as well as what they require of financial advisers. Planners who aren't prepared will be left behind. Those who are will step up to some lucrative and challenging work. To help get the work done, Harold Evensky and Deena Katz—both veteran problem solvers—have tapped the talents of a range of experts whose breakthrough thinking offers solutions to even the thorniest issues in retirement-income planning: Sustainable withdrawals Longevity risk Eliminating luck as a factor in planning Immediate annuities, reverse mortgages, and viatical and life settlements Strategies for increasing retirement cash flow In Retirement Income Redesigned, the most-respected names in the industry discuss these issues and a range of others.

When it comes to retirement investing, too much emphasis today is on investment returns, which often come at the expense of income dependability and peace of mind. Slash Your Retirement Risk redefines

how to invest for retirement to maximize your reliable income and stabilize your financial future. Rather than the typical approach to portfolio management—focusing on returns and ignoring dramatic market downswings that can decimate portfolios—author Chris Cook shows investors how to create income reliability without sacrificing reasonable growth. Instead of chasing uncertain returns, *Slash Your Retirement Risk*'s strategy will help ensure your retirement portfolio will capitalize on opportunities for growth while weathering the inevitable economic ups and downs. You will achieve reliable returns and suffer fewer sleepless nights worrying about whether your money will last as long as you do. *Slash Your Retirement Risk* is your step-by-step guide to create a retirement portfolio that will provide true financial peace of mind, one that features: The broad diversification essential in today's globally interconnected marketplace. A built-in ability to capitalize on market upswings to generate growth. Automatic protections against inevitable market downswings. An investing strategy that minimizes fees and costs to maximize portfolio gains.

Rick Bueter leads you through the politics, greed and control that Wall Street firms have over American workers retirement savings. Once you understand the critical questions he brings up in his book, everything about how Wall Street is scamming American retirement savers becomes clear.

Packed with the best strategies to manage wealth in retirement, this book helps readers live the life they have always envisioned - without risk of running out of money. It shows readers how to become informed, wise investors - avoiding common pitfalls, challenging the status quo, and refusing to take advice blindly.

The Big Retirement RiskRunning Out of Money Before You Run Out of TimeGreenleaf Book Group

Two of the world's leading experts explain the vital link between health and wealth that could add years to your life and dollars to your retirement savings. All the money in the world doesn't mean a thing if we can't get out of bed. And the healthiest body in the world won't stay that way if we're frazzled about five figures worth of debt. Today Show financial expert Jean Chatzky and the Cleveland Clinic's chief wellness officer Dr. Michael Roizen explain the vital connection between health and wealth--giving readers all the tactics, strategies, and know-how to live longer, healthier, more lucrative lives. The same principles that allow us to achieve a better body will allow us to do the same for our investment portfolio. For instance, physical and financial stability comes down to the same equation: Inflow versus outflow. Do we burn more calories than we ingest? Likewise, are we making more money than we spend? The authors detail scientific ways to improve our behavior so that the answers tilt in the readers' favor. They also offer ways to beat the system by automating how we do things and limiting our decisions in the face of too much food or too much debt. Chatzky and Roizen provide a plan for both financial independence and biological strength with action steps to get you there.

"With *How to Make Your Money Last*, you will learn how to turn your retirement savings into a steady paycheck that will last for life. Today, people worry that they're going to run out of money in their older age. That won't happen if you use a few tricks for squeezing higher payments from your assets--from your Social Security account (find the hidden values there), pension (monthly income or lump sum?), home equity (sell and invest the proceeds or take a reverse mortgage?), savings (should you buy a lifetime annuity?), and retirement accounts (how to invest and--critically--how much to withdraw from your savings each year?). The right moves will not only raise the amount you have to spend, they'll stretch out your money over many more years. You will also learn to look at your savings and investments in a new way. If you stick with super-safe choices the money might not last. You need safe money to help pay the bills in your early retirement years. But to ensure that you'll still have spending money 10 and 20 years from now, you have to invest for growth, today. Quinn shows you how. At a time when people are living longer, yet retiring with a smaller pot of savings than they'd hoped for, this book will become the essential guide"--

No matter how knowledgeable and financially savvy we are, there are times we all lie in bed at night and wonder if we really know what we're doing with our money. In *It's Not So Funny When It's Your Money*, financial advisor Stuart Horowitz draws on a career's worth of anecdotes about real people in real-life situations (many of them all-too-familiar) and offers the perspective and advice we wished we had at the time -and are glad to have now. Whether you're at the beginning of the financial road and just starting a family, winding down your career, or well into retirement, you'll find something to recognize in the situations these characters find themselves in. So be prepared to laugh at yourself a little while you read about sensible ways to make decisions about your investments, retirement, income taxes, estate planning, and assets that are even harder to quantify: balance and peace of mind.

*Investing for a Lifetime* is designed to make saving and investing understandable to the investor. Wharton Professor Richard C. Marston, 2014 recipient of the Investment Management Consultants Association's prestigious Matthew R. McArthur Award, guides an investor through the main investment decisions throughout a lifetime. *Investing for a Lifetime* shows: how younger investors can set savings goals how both younger and older investors can choose investment portfolios to achieve these goals how investors can sustain spending once reaching retirement. Younger and older investors alike should understand savings goals that will provide enough income to sustain spending in retirement. They should devise rates of saving that allow them to reach their goals by the time of retirement. Though retirement is often the main goal of investing, it's not the only one. Marston discusses how funding a child's education or saving for a down payment for a home affects overall saving. Sensible investing is also necessary for savings goals to be realized. Investing need not be complicated, but Marston explains that a diversified portfolio should include a mix of different types of U.S. stocks, foreign stocks, real estate as well as bonds. He describes each of these asset classes and shows how they fit in an investor's portfolio. He shows how investors can monitor the performance of their portfolios by establishing benchmarks for each asset class to judge how well their investments are doing. He focuses particular attention on those investors nearing retirement. In today's low interest rate environment, he discusses whether it is possible to fund retirement from interest and dividends alone. He shows how savings combined with Social Security can fund retirement spending. And he asks how the "New Normal" of lower returns might force investors to save more than in past decades, and to spend less in retirement than in the past. *Investing for a Lifetime* is for investors who want to understand more about the savings and investment process, particularly those who worry about whether their retirement savings will last a lifetime.

The most trustworthy source of information available today on savings and investments, taxes, money management, home ownership and many other personal finance topics.

*It's a Whole New Game* We've all experienced life's "game changers" that alter our course. We graduate, we marry, we have children, we get that big promotion. And we retire. Happy times - or they should be. But what do you do when those paychecks stop? Suddenly, the rules have changed. Retirement is a whole new game - and not the kind you find in casinos, though far too many treat it that way. Don't let Wall Street and Uncle Sam steal your joy. Taylor and his team of professionals - experts in elder law, estate planning, insurance and investment - know how to play it both safe and profitable. Taylor can help you turn your nest egg into a guaranteed stream of lifelong income, and much more. He knows how to grow it to beat inflation with a healthy return, free of risk and secure from the stockbroker's grips. He knows ways to assure you'll get the kind of long-term care you want, if you need it - and if you don't, the money can go to your heirs, tax-free. It takes a good game plan, custom designed for your unique needs, and it takes a dedicated team to lead you to victory. You have the ability to win, no matter what - and Greg Taylor is the coach who makes it happen.

Let Go of the Past--Embrace Your Second Chance You have a destiny. You may have lost sight of it, opened a wrong door, taken a misleading path, but it's there--you haven't missed your chance! Yet it can be hard to see, hard to find, when the only things in front of you are challenging circumstances, lost opportunities, or overwhelming obstacles. But there is hope! With warmth and insight, Pat Smith shares the truths she and other women have learned on their own journeys from heartache to hope. She encourages and empowers you to recommit to the destiny God has for you in life, love, work, and faith. She also shows how to let go of what's holding you back, reinvent yourself, and rediscover your purpose and joy. There is a second chance waiting for you--it's time to celebrate your new life!

The first wave of the 78 million member baby boom generation is now reaching retirement age. The number of people age 62, the earliest age of eligibility for Social Security retired worker benefits, is expected to be 21 percent higher in 2009 than in 2008. In addition, by 2030, the number of workers supporting each retiree is projected to be 2.2, down from 3.3 in 2006. This demographic shift poses challenges to the economy, federal tax revenues, the nation's old-age programs, and individuals' financial security in retirement. For those who are able to work longer, later retirement can strengthen the economy and also retiree incomes by postponing the time at which people will start drawing retirement benefits rather than working. A wide range of factors including the features of employers' benefit plans, personal finances, social norms, health, and individual attitudes influence workers' decisions about when to retire. Federal policies may also play a role: these include Social Security, Medicare, and tax policies related to certain private retiree health and defined benefit (DB) and defined contribution (DC) pension plans.<sup>1</sup> Identifying both the incentives posed by these policies and the extent to which workers respond to them can help to inform policy makers as they consider ways to address the demographic challenges facing the nation. To determine the extent to which federal policies directly and indirectly pose incentives and are influencing individuals' decisions about the age at which they retire, the authors have pursued the following questions: (1) What incentives do federal policies provide about when to retire? (2) What are the recent retirement patterns, and is there evidence that recent changes in Social Security requirements have resulted in later retirements? (3) Is there evidence that tax-favored private retiree health insurance and pension benefits have influenced when people retire? This is a revised and excerpted version.

This is a survival manual for the difficult but exciting road to retirement security.

Are You Prepared For The Coming Market Crash? Learn To Secure Your Retirement For The Looming Economic Collapse 70% of Americans are running out of money in retirement but you don't have to! Financial Expert David Abreu reveals proven strategies you can easily implement that can protect your nest egg and ensure yourself a guaranteed income stream regardless of how long your retirement lasts . GROW your money safely, and learn to get guaranteed lifetime INCOME then SCROLL UP AND CLICK "Buy Now"

Protect Your Nest Egg & Retire in Comfort According to the actuaries, many of us will live into our late 90s and early 100s. That's a LONG retirement! In fact, many of us will be in retirement for more years than we worked. The big concern for many is the worrisome possibility of running out of money before running out of time. In Solving the Retirement Puzzle, Peter Wechsler and his son Jeremy, lead you through the potential minefields of both retirement and estate planning. Having focused exclusively on retiree issues for the past 10 years, Peter knows the importance of income and tax planning along with assessing your risk comfort level, after 11 years of a down or sideways market. As "Your Retirement Quarterback®," Peter explains how he helps folks navigate the many challenges involved in "retirement planning." Using their "Four Step Discovery Review Process," Peter takes you through the first three steps while Jeremy tackles the fourth step, Estate and Elder Planning. You've worked hard to build your nest egg. You saved, you scrimped and you were determined to retire comfortably. Now, you must strive to protect and preserve that nest egg while also leveraging it for your future and for the future of your kids and grandkids, nieces and nephews. Peter and Jeremy share with you valuable insights, tools and techniques that will help you sleep well at night while enjoying your retirement years.

People entering, nearing, or in retirement are all wondering how they are going to make their retirement nest eggs last as long as they do. Studies show that the main fear that people have in retirement is running out of money. Add to that the reality that the rules for retirement have changed; government regulations have both helped and hindered those who are retiring. For many in the Boomer generation, it will be a challenge to make the money last without having to adhere to an unpleasant budget. To survive and thrive in retirement in the coming years requires new thinking and a clear understanding of the options open to retirees. One of these options is the Home Equity Conversion Mortgage, or what most people know as "reverse mortgages." This advancement was signed into law by President Reagan in 1988 as a way to provide homeowners the opportunity to raise funds from their home equity while continuing to enjoy living in their homes. The concept of reverse mortgages has been misunderstood and misapplied by many since that time and finally a book has arrived that thoroughly explores this concept in a detailed, yet readable manner. In What's the Deal with Reverse Mortgages?, Shelley Giordano, an expert of reverse mortgages and member of the Longevity Task Force, a group of thought leaders in retirement portfolio theory, has written a book that discusses the significant improvements made by HUD/FHA to the Home Equity Conversion Mortgage (HECM.) Over the years, and most notably in 2015, HUD has improved consumer safeguards, and reduced acquisition costs for those wishing to use their housing wealth in a controlled and strategic pattern. Shelley has brought together thought leaders and experts to write a book that applies sound analysis to demonstrate that the prudent and conservative use of housing wealth, accessed via the modern

HECM, can have a profound positive effect on our other assets and our ability to generate income for retirement. This book debunks the hoary old myths attached to reverse mortgages. It explains how the HECM has evolved to meet the needs of the Boomer generation. And most importantly, it explains how to evaluate your housing wealth in the early years of retirement, and why you should never wait and pray by deferring a reverse mortgage as a last resort. Reading this book will provide you with a full understanding of reverse mortgages to see beyond the current sales and advertising tactics related to the product allowing you to discuss the best options with your adviser, banker and family. It's the definitive book on reverse mortgages!

More information to be announced soon on this forthcoming title from Penguin USA

A gem from one of the most brilliant minds in personal finance. "Ben Stein, author, actor, TV personality, and New York Times columnist Investing, as it is said, is simple but it is not easy. Jonathan Clements's fine new Little Book underscores the priceless (and price-less) value of simplicity. And his sage advice on living the good life and on spending well and saving wisely will surely make it, if not easy, at least easier for us to achieve financial peace of mind." John C. Bogle, founder of Vanguard and author of Enough Nobody, and I mean nobody, can make the world of investing as easy to understand as Jonathan Clements can. In this wonderful book, he teaches Main Street how to beat Wall Street at its own game-and how to have fun along the way. This book does not stop at merely making you richer and smarter; it will even help you lead a better life." - Jason Zweig, author of Your Money and Your Brain and editor of Benjamin Graham's The Intelligent Investor Jonathan Clements is one of our wisest and finest writers in the field of personal finance. This Little Book contains gems of wisdom not only about investing, but also about living a full and satisfying life. " - Burton G. Malkiel, author of A Random Walk Down Wall Street Easy to read, easy to understand-and easy to put to work-this Little Book is a winner. I'm getting copies for our children-and their children, too." - Charles D. Ellis, author of Winning the Loser's Game.

Soon to be retirees are facing a big problem: Their lifestyles will need to be dramatically scaled back if their retirement nest egg is not sufficient (which most aren't). Going from earning \$100K a year down to \$40K from a pension & limited Super will be a big adjustment. This book is all about how to take control of your retirement, set yourself up for financial success & be able to retire in comfort. The rules and world have changed. This book shows you why the current Superannuation approach isn't sufficient and how you can take more active control over your destiny. After all... No one cares more about your retirement wellbeing than you. Looking after your retirement nest egg doesn't need to be complex or difficult. Like most things in life, success is built on following a set of core principles. This book lays the groundwork for the set of principles the authors personally use to manage their own retirement funds. Allowing them to take control of their lifestyle in the later years. Join us as we explain in simple language the landscape of how to invest for maximum potential gains whilst taking care of the risks and not being reckless. It's ironic, the biggest risks are often the ones people never consider. Most people worry about "what if the share market crashes?" Yet they don't think about the far bigger risk of, "What happens if I run out of money when I'm retired?" This is the far bigger concern, one that we focus in on.

As you near retirement, you might look back and think that saving for this next stage of life was the easy part. Running out of money is one of the biggest fears people have after they retire. But there are lots of ways to prevent outliving your savings and put your mind at ease in the process. During your working years, the big decisions were how much to save and where to invest. But now it's time to switch gears. Instead of accumulating assets, you must figure out how to turn your nest egg into an income stream to last a lifetime. This book reveals proven strategies you can easily implement that can protect your nest egg and ensure yourself a guaranteed income stream regardless of how long your retirement lasts. In this book, you'll discover: ? The one financial vehicle for a guaranteed lifetime income. ? The 3 most important keys to eliminating risk and fees from your retirement. ? The #1 mistake retirees make and how to avoid this. ? What your advisor is afraid you'll find out! ? How money depleting factors erode your wealth. ? The easiest way to protect your savings from inflation. ? How to reduce your financial stress and live your retirement dreams.

Wouldn't you like to sit in a room and ask the following people for their investment advice? -John C. Bogle (Founder, Vanguard Group) -Warren Buffett (CEO of Berkshire Hathaway) -Bill Gross (Founder and CIO, PIMCO) -Susan Ivey (CEO, ReynoldsAmerican Inc.) -A.G. Lafley (Chairman, Procter & Gamble) -Georgette Mosbacher (CEO, Borghese Cosmetics) -John Myers (CEO, GE Asset Management) -Suze Orman (bestselling author) -Steve Forbes (President, Forbes magazine) These and dozens of other investment professionals offer their personal secrets of success when it comes to making money. And along the way, they provide their own insights on whether you should diversify your portfolio (or put your cash somewhere else), whether you should pick your own stocks (or let a pro do it for you), if investing in real estate is really the answer to great wealth, if saving a few pennies here and there really do add up, and much, much more. The book is edited by Claman to be extremely accessible to all investors, regardless of their financial background.

Leaving full-time employment to enter retirement often requires a 180-degree change—in mindset and behavior—from the way you managed your time and money previously. This is especially true for Baby Boomers who may have never experienced adult life without a full-time job and have been practicing the same habits since their 20s. These life transitions can be looked at as if they require “flipping a switch.” Some changes happen suddenly like an on/off switch, while others happen over time like a “dimmer switch”. Some “switches” are voluntary like spending accumulated savings, while some are mandatory like taking required minimum distributions starting at age 72. And to make matters more confusing, there are also lifestyle and social changes to consider as well. Flipping a Switch discusses 35 financial, lifestyle, and social transitions you’ll encounter upon entering retirement, including: • Full-time work to new pastimes • Saving money to spending money • Receiving a paycheck to creating a “paycheck” • Funding retirement savings plans to taking required minimum distribution withdrawals • Accumulating possessions to downsizing Everyone has unique “switches” to flip. Flipping a Switch: Your Guide to Happiness and Financial Security in Later Life offers important information and guidance new retirees need before undertaking their new life. Each chapter includes a “How to Flip This Switch” section with suggested action steps. Nationally known speaker, author, and Certified Financial Planner® Dr. Barbara O’Neill will help you develop a plan to become your best future self.

The complete body of knowledge for CIMA candidates and professionals The 2015 Certified Investment Management Analyst Body of Knowledge + Test Bank will help any financial advisor prepare for and pass the CIMA exam, and includes key information and preparation for those preparing to take the test. CIMA professionals integrate a complex body of investment knowledge, ethically contributing to prudent investment decisions by providing objective advice and guidance to individual and institutional investors. The CIMA certification program is the only

credential designed specifically for financial professionals who want to attain a level of competency as an advanced investment consultant. Having the CIMA designation has led to more satisfied careers, better compensation, and management of more assets for higher-net-worth clients than other advisors. The book is laid out based on the six domains covered on the exam: I. Governance II. Fundamentals (statistics, finance, economics) III. Portfolio Performance and Risk Measurements IV. Traditional and Alternative Investments V. Portfolio Theory and Behavioral Finance VI. Investment Consulting Process

The follow-up to the bestselling *The Power of Zero*, providing a blueprint to build a guaranteed, tax-free income stream that lasts for the long run. American retirees face a looming crisis. We are living longer than ever before, and most experts predict a dramatic rise in tax rates within the next ten years. The hard truth is that no matter how much you save, you are likely to outlive your money or watch it be taxed into oblivion. But when traditional retirement distribution strategies won't provide sufficient income in the face of higher taxes, what can you do? *Tax-Free Income for Life* lays out a comprehensive, step-by-step roadmap for a secure retirement. McKnight shows how the combination of guaranteed, inflation-adjusted lifetime income and a proactive asset-shifting strategy can shield you from longevity risk and the cascade of unintended consequences that result from higher taxes. It's an innovative and proven strategy that maximizes return while effectively neutralizing the two biggest risks to retirement savings. If ever there were a solution for the American retiree, it's guaranteed tax-free income for life.

A proven way to financially prepare for retirement Are you wondering if you can make your retirement savings last? Concerned about inflation reducing your purchasing power? Worried about the stock market's violent swings? In *Buckets of Money: How to Retire in Comfort and Safety*, nationally recognized Certified Financial Planner™ and radio personality Ray Lucia offers you a smart and conservative way to protect and grow your nest egg-so you can enjoy a comfortable retirement without worrying about your money running out. Developed by Lucia over his thirty-year career as a financial planner, the "Buckets of Money" technique is a proven way to achieve both income and growth, while guarding against the ravages of inflation. *Buckets of Money* is filled with in-depth insights and practical advice that will help you assess your retirement situation, save the money you need to last your entire lifetime, and adjust your plan to good times and bad. Regardless of your age, income, net worth, or investment experience, you need to have a solid plan for your retirement years. *Buckets of Money* provides you with such a plan, and shows you the best way to implement it.

For those nearing retirement, making the right investment decisions can mean the difference between "living well" and merely "getting by". This book shows you how to get the most from your savings, select the right mix of investments, and increase your investment income without undue risk.

In *Mortgage Power - An Asset in the Making*, I show you how to convert your mortgage-often your biggest liability-into what can become your biggest asset, and why you must do it for your financial future. I not only present the underlying theory behind the premise of modifying a mortgage to create wealth, but I also give you real-world examples, with numbers that add up to prove the astounding benefits. I show you how to manage and modify your mortgage, and in so doing how to create tremendous wealth and prosperity from something as basic as a mortgage. By making simple changes to your mortgage, you can ultimately create an asset that will provide you benefits long into your retirement-benefits that would otherwise be unavailable to you. *Mortgage Power* reveals how to buy a home with a limited down payment, how to build your mortgage team, how to navigate the mortgage process, why you should own and not rent, and why you should avoid a 30-year fixed rate mortgage like the plague.

Passionate, authentic, faithful women in the workplace, you are not alone. Women make up 47 percent of the workforce with over 50 percent of advanced degrees going to women (up from 6 percent thirty years ago). Despite these advances, women in the workplace often feel like they're on their own. They battle gender and pay gaps, work-life balance, and guilt—longing for connection and belonging in their churches and community. *Be Refreshed* contains encouraging devotional readings for Monday through Friday, along with questions and a prayer for reflection and refreshment each weekend. Take a year to read words and wisdom from women, just like you, who want to be bold in every aspect of life and seek to make a difference on a daily basis. Begin each day with the strength that only comes from being in God's Word and walking with other women like you.
