Portland Speedway, also known as Union Avenue Speedway, opened in the summer of 1936 and enjoyed a 66-year run as the leading oval track in Portland. Originally built as a dirt track on a farmer's field in the far north of the city, the track was known for track roadsters based on Ford's Model T, sprint cars, and stock cars. As returning servicemen discovered a love for racing, the track exploded in popularity after World War II. The track was paved in 1946 and flourished as a center for racing; it even included a drive-in movie theater. Many notable racers, such as Len Sutton, Rolla Vollstedt, Greg Biffle, and Mike Bliss, either started their careers at or visited Portland Speedway. But the real story of Portland Speedway is told in the hundreds of people who made a living or simply enjoyed the racing life while competing at the Pacific Northwest's finest track."

The car industry and the way in which cars are created have changed beyond all recognition over the last half-century. Automotive styling

was once the grudging afterthought when the engineers had finished their work. Now, following a short flirtation with exotic Italian design houses, it has evolved into sophisticated design carried out by multitalented in-house teams honing carefully crafted brand identities. One of the visionary designers at the forefront of that revolution has been Patrick le Quément. Most widely acclaimed for his 22 years in charge of Renault Design, resulting in such standout models as the Twingo, Scénic and Avantime, le Quément has enjoyed a 50-year career that has also taken in Simca, Ford and Volkswagen-Audi. In his foreword to the book, Stephen Bayley calls le Quément 'perhaps the very most original designer working in the conservative car business at the turn of the millennium'. Some 60 million cars across the world now bear the unmistakable stamp of le Quément. Design: Between the Lines is not a straightforward autobiography; rather, le Quément charts his journey through five decades of thoughts, actions, failures and successes. He offers fascinating commentaries on design and the creative process, and on some of the extraordinary automotive brands that make up our shared cultural heritage. As Bayley notes, for le Quément, design is 'as much a matter of thinking as a matter of drawing'. On a broader, more philosophical level, le Quément also shares his views about life in general and that remarkable contraption called 'the automobile', which has so influenced the lives of millions of people the world over from the late 1800s to the present day. Presented as a series of 50 brief essays or 'perspectives', le Quément's thoughtful and astute observations from the street, from the design studio and from his seat in the boardroom give the reader a penetrating and often amusing insight into the high-level workings of a global industry, its triumphs and tragedies, and the foibles of the decision-makers responsible for running it. A lively complementary text by the automotive journalist Stéphane Geffray accompanies each of le Quément's perspectives, and illustrations are provided by the automobile designer Gernot Bracht. Design: Between the Lines will appeal to all motoring fans and enthusiasts of good design. As Chris Bangle, the former Director of BMW Design, remarks: 'Few car designers have had a career so filled with innovative successes that they have inspired a whole industry; fewer still have the skills to share it. Engaging and revealing, Patrick relates his personal experience and deep knowledge of car design in a very enjoyable manner.'

The R-Series BMW MINI had a lot to live up to. Launched in 2001, it was riding in the wake of the classic 1959-2000 Mini. At the time, BMW were going to have to create something as special and innovative as its longstanding predecessor in order to silence the naysayers. And they did. Since its launch in 2001, BMW's modern MINI has become the pinnacle of small yet funky family cars in the premium small (and sometimes not so small) car segment. Now in its third generation, having unveiled the new F-Series in 2014, BMW MINI offers 3- and 5-door hatchback models and convertibles, the estate Clubman, the five-door Countryman, the Coupe, the Roadster and the three-door crossover Paceman. MINI enthusiast and motoring journalist Sophie Williamson-Stoother explores the journey from 1959 to the present day, covering design and development of the new MINI, launch and reception by the press, its many model variations and special editions, and an owner's and buyer's guide. Superbly illustrated with 170 colour photographs.

Jeremy Clarkson gets REALLY riled up in Round the Bend What's it like to drive a car that's actively trying to kill you? This and many other burning questions trouble Jeremy Clarkson as he sets out to explore the world from the safety of four wheels. Avoiding the legions of power-crazed traffic wombles attempting to block highway and byway, he he: - Shows how the world of performance cars may be likened to Battersea Dogs Home - Reveals why St Moritz may be the most bonkers town in all of the world - Reminds us that Switzerland is so afraid of snow that any flakes falling on the road are immediately arrested - Argues that washing a car is a waste of time Funny, globe-trotting, irreverent and sometimes downright rude, Round the Bend is packed with curious and fascinating but otherwise hopelessly useless stories and facts about everything under the sun (and just occasionally cars). It's Jeremy Clarkson at his brilliant best. Praise for Jeremy Clarkson 'Brilliant . . . laugh-out-loud' Daily Telegraph 'Outrageously funny . . . will have you in stitches' Time Out 'Very funny . . . Jeremy Clarkson knows there's more to life than cars. There is, after all, a whole world out there just waiting to be discovered. So, before he gets on with the job in hand, he'd like to take some time out to consider the bigger picture.

Don't worry, he'll get on to the car bit eventually, but before we do, there's time to learn about: Why Galapagos tortoises

are all mental France, reduced to the size of a small coconut Why Jeremy Paxman and the bass guitarist of AC/DC aren't so very different The problems of being English and God's most stupid creation And then there's the cars: Whether it's the poxiest little runabout or an exotic, firebreathing supercar, anything on four wheels is approached without fear or favour. What emerges from the ashes is not always pretty. But it is, invariably, very, very funny.

Brace yourself, Clarkson's back. And he'd like to tell you what he thinks about some of the most awe-inspiring, earth-shatteringly fast and jaw-droppingly gorgeous cars in the world (alongside a few irredeemable disasters ...). Or he would, if there weren't so many things competing for his attention first. So much to get off his chest. The world according to Clarkson is a perplexing place, filled with thorny subjects like: * The prospect of having Terry Wogan as president * Why you'll never see a woman driving a Lexus * The unforeseen consequences of inadequate birth control * Why everyone should spend a weekend with a digger Fearless, independent, surprising and laugh-out-loud funny, *Driven to Distraction* is full-throttle Clarkson at his best; a unique look at the joys, absurdities and frustrations of modern life. With wheels. Buckle up, get comfortable, and hold on tight. There's no one who writes about cars like Jeremy ...

Parents will do almost anything to get their kids to eat healthier, but unfortunately, they've found that begging, pleading, threatening, and bribing don't work. With their patience wearing thin, parents will "give in" for the sake of family peace, and reach for "kiddie" favorites-often nutritionally inferior choices such as fried fish sticks, mac n' cheese, Pop-sicles, and cookies. Missy Chase Lapine, former publisher of *Eating Well* magazine, faced the same challenges with her two young daughters, and she sought a solution. Now in *The Sneaky Chef*, Lapine presents over 75 recipes that ingeniously disguise the most important superfoods inside kids' favorite meals. With the addition of a few simple make-ahead purees or clever replacements, (some may surprise you!) parents can pack more fiber, vitamins, and antioxidants in their kids' foods. Examples of "Sneaky" recipes include: No Harm Chicken Parm Power Pizza Incognito Burritos Guerilla Grilled Cheese Brainy Brownies Health-by-Chocolate Cookies Quick fixes for Jell-O(R)

When Bruno Sacco walked through the doors on his first day at Mercedes-Benz on 13 January 1958, it is highly unlikely that his Daimler-Benz colleagues could ever imagine that this nervous young man would not only revolutionize design but would change the way design and innovation connected with brand tradition forever. Bruno Sacco is one of the most

influential automotive designers of the late twentieth century; many models launched during his era now characterize the Mercedes-Benz brand. When Nik Greene asked Bruno Sacco to assist with this book, he replied humbly "No-one designs a car alone, and more to the point, I never, for one minute, wanted to. From the moment I became Head of Design, I put down my pens and became a manager of minds." With over 330 photographs and illustrations, this book includes an overview of the early days of functional vehicle design and the influence of safety on design evolution. The protagonists of Daimler-Benz design from Hermann Ahrens to Paul Bracq are covered. Design philosophy and innovation under Bruno Sacco is discussed along with the Sacco-designed cars and, finally, the Bruno Sacco legacy.

Accompanying the four part BBC television series, the walks featured in this book follow a hidden network of locks, bridges, aqueducts and tunnels, perfect for walkers wanting to explore on foot. Canals had arrived connecting towns and cities with Britain's industrial heartlands and export hubs. Here are four of the best walks, all offering an insight into Britain's industrial heritage. Navigating Highland Glens, rolling countryside, river valleys and our industrial heartland these waterways cut a sedate path through some of the country's finest scenery. Today, over 2,000 miles of restored canals offer a gateway into a different world. This book covers four different walks: 1. Llangollen Canal- 'A Stream Through The Skies' (North Wales) 2. Caledonian Canal- 'From Coast to Coast' (Highlands) 3. Worcester & Birmingham Canal- 'Industrial Revelations' (Birmingham) 4. Kennet & Avon Canal- 'Restoration & Renaissance' (Bath)
