

Brilliant Bugs First Explorers

Young readers learn all about insects in this new Pre-reader from National Geographic Kids. Through text features such as a vocabulary tree and wrap-up activity, kids will be introduced to vocabulary in concept groups, helping them make connections between words and expand their understanding of the world. Along with brilliant photos and a fun approach to reading, National Geographic Readers are a winning formula with kids, parents, and educators.

Get curious about creepy, crawly, and cool bugs Crawl inside the weird world of bugs and discover the fascinating lives of arthropods, insects, and arachnids. This book for kids ages 5 to 7 explains what makes a bug a bug--from their jointed legs to their strange eyes and awkward antennas. Learn how they see, breathe, and fly, and which bugs don't fly at all. Meet amazing bugs--from magnificent moths to peculiar pill bugs--and discover where they live, what they eat, and how they change and grow. Beautiful, colorful photos bring these incredible creatures up close with plenty of fun facts and fascinating details about what makes each bug so special. Budding backyard bug-catchers will have their hands full with this informative book. The *Weird and Wonderful World of Bugs* includes: *Wild*--From elusive earwigs to glorious glowworms, explore the lives of popular backyard bugs and those that live in far-away places. *Weird*--Did you know that a baby spider is called a spiderling? You'll discover even more fun facts about each cool bug. *Wonderful*--Explore how bees make honey, why stink bugs smell, and the amazing insects that help pollinate our planet. Take a microscopic look into the super cool and curious world of bugs with this fun guide.

Get the buzz on bugs in this Classic Board Book edition of *Some Bugs* by bestselling author Angela DiTerlizzi! Grab your magnifying glass! Find your field guide! And come hop, hide, swim, and glide through this buggy backyard world! Featuring butterflies and moths, crickets and cicadas, bumblebees and beetles, this zippy rhyming exploration of backyard-bug behavior is sure to have young insect enthusiasts bugging out with excitement!

A group of beetles discover that a whole world lies outside of their own small civilization.

Meet famous explorers and adventurers in this exciting non-fiction storybook for children. Venture into steaming jungles in search of lost temples, fight off frostbite in the Arctic, and blast off into space! Great explorers have one thing in common - a desire to leap into the unknown, no matter how dangerous that might be. From Ferdinand Magellan's first circumnavigation of the world 500 years ago to Barbara Hillary's treks to the North and South poles while in her seventies, *Explorers* documents the trials and hardships of the men and women who rewrote our understanding of the world, and showed us what humans are capable of. *Explorers* looks at the towering achievements of more than 50 explorers in great detail, with incredible cross-sections revealing the amazing detail inside Spanish galleons, lost cities, and spaceships. Hand-drawn maps reveal their intrepid journeys in great detail, and photographs highlight the artefacts and relics they found along the way. The explorers come from all walks of life and parts of the world. Packed with jaw-dropping facts and written in language that will get the heart racing, *Explorers* is the perfect book for any budding young adventurer, combining both beautiful illustrations by Jessamy Hawke and fantastic photography.

Explore prehistoric forests, swamps and woodland in *First Explorers: Dinosaur World*. Meet Velociraptors, Triceratops and the fierce Tyrannosaurus rex, as well as lots of other amazing creatures who lived in the ancient world. Three kids have everything they need to solve the decades-old mystery of Idlewood Manor, in this middle grade novel full of real ciphers, puzzles, riddles, and codes that Kirkus Reviews calls "a worthy call to unravel a mystery." Idlewood Manor has been uninhabited for decades, until now . . . Math whiz Charlie won admission in a puzzle contest—and he's intrigued by the strange numbers he finds on Idlewood's walls. His restless sister Anna had to be dragged to the house—but then she discovers its hidden floor. Emily's parents brought her to the mansion on a secret mission—and she's determined to prove herself to them. All three kids soon unlock clues to Idlewood's mysterious past and the famous female explorer who's connected to it—and the secret treasure she left behind. But the adults around them are also hunting for the treasure. Charlie, Anna, and Emily will have to overcome their differences and work as a team to solve Idlewood's puzzles before it's too late, in Allison K. Hymas's *The Explorer's Code*. An Imprint Book

Each scene has chunky push, pull and slide mechanisms, animals to spot and fun facts about jungle animals. Beautifully illustrated by Jenny Wren, this title has gentle learning and is a magical introduction to the natural world. Also available: *Night Animals*, *Sea Creatures*, *Dinosaur World*

The #1 New York Times bestseller from the author of *Killers of the Flower Moon* In 1925, the legendary British explorer Percy Fawcett ventured into the Amazon jungle, in search of a fabled civilization. He never returned. Over the years countless perished trying to find evidence of his party and the place he called "The Lost City of Z." In this masterpiece of narrative nonfiction, journalist David Grann interweaves the spellbinding stories of Fawcett's quest for "Z" and his own journey into the deadly jungle, as he unravels the greatest exploration mystery of the twentieth century.

From Boston Globe–Horn Book Award winner Katherine Rundell comes an exciting new novel about a group of kids who must survive in the Amazon after their plane crashes. Fred, Con, Lila, and Max are on their way back to England from Manaus when the plane they're on crashes and the pilot dies upon landing. For days they survive alone, until Fred finds a map that leads them to a ruined city, and to a secret.

Enter the kingdom of bugs and their close relatives for a magical journey through the forest floor, down into the deepest caves, and even across the open ocean... Insects, arachnids, worms, and mollusks are crawling across the pages of this colorful bug book, which combines gorgeous illustrations and photos to help young animal enthusiasts spot and learn all the main bug groups. From dancing bees to cartwheeling spiders, from butterfly athletes to the beetles that eat poo, they'll learn all about the incredible secret world of creepy-crawlies. And they'll find out how bugs help to look after our planet too. *The Book of Brilliant Bugs*, written by insect expert Jess French and illustrated by Claire McElfrick, takes children on a fascinating journey of exploration, showing them just how amazing creepy-crawlies are, what they do for our planet, and how we can help them. It includes bug relatives such as slimy slugs, web-spinning spiders, and scuttling

centipedes, plus amazing facts on how bugs pass on messages, compete for food, seek true love, and fill the air with buzzing wings.
