Will Larson's *An Elegant Puzzle* orients around the particular challenges of engineering management--from sizing teams to technical debt to succession planning--and provides a path to the good solutions. Drawing from his experience at Digg, Uber, and Stripe, Will Larson has developed a thoughtful approach to engineering management that leaders of all levels at companies of all sizes can apply. *An Elegant Puzzle* balances structured principles and human-centric thinking to help any leader create more effective and rewarding organizations for engineers to thrive in.

An exploration of the world of magic that teaches the reader many tricks--including how better to understand the real world. Alex Stone--journalist and part-time conjurer--is here to amaze you. But first he had to amaze his fellow magicians. Fooling Houdini is his fascinating, revealing, and nailbiting account of his attempt to win the 23rd World Championships of Magic, the "Magic Olympics," the largest and most prestigious competition of its kind. Alex Stone managed to qualify for entry and began preparing to astonish people who astonish others for a living. It didn't help his nerves that he was placed on the bill straight after Canadian magician Shawn Farquhar, winner of more magic competitions than anyone in history. Stone's preparations and participation provide his readers with in-depth exploration of the world of magic, and magic's meaning. He spills many professional secrets, arguing that what is important is to ask questions about what lies behind the tricks: how the mind perceives the world and parses everyday experience, about how the mind works--and why sometimes it doesn't, about why people need to believe. As we become more attuned to the limits of our own perception, we become better at distinguishing reality from illusion, at reading the angles and decoding the fine print, he says. We gain intuition and understanding into how people behave. We even learn ways to influence this behavior. This makes us less susceptible to all manner of deception. It is to gain and maintain this sixth sense that Alex Stone--a schoolboy prestidigitator--has continued performing magic well into adulthood. In Fooling Houdini he takes us into that other world, populated by truly astounding characters, and leaves us with a heightened sense of awareness about the supposedly real world.

Standing out is no longer optional Too many people believe that if they keep their heads down and work hard, they'll be recognized on the merits of their work. But that's simply not true anymore. "Safe" jobs disappear daily, and the clamor of everyday life drowns out ordinary contributions. To make a name for yourself, to create true job security, and to make a difference in the world, you have to share your unique perspective and inspire others to take action. But in a noisy world where it seems everything's been said—and shouted from the rooftops—how can your ideas stand out? Fortunately, you don't have to be a genius or a worldwide superstar to make an impact. Drawing on interviews with more than fifty thought leaders in fields ranging from business to genomics to urban planning, Dorie Clark shows how these masters achieved success and how anyone—with hard work—can do the same. Whether it's learning to ask the right questions, developing and building on an expert niche, or combining disparate fields to get a new perspective, Clark outlines ways to develop the ideas that set you apart. Of course, having a breakthrough insight is only half the battle. If you really want to share your ideas, you have to find a way to build an audience, communicate your message, and inspire others to embrace your vision. Starting small is fine; Clark provides a step-by-step guide to help you leverage your existing networks, attract new people to your cause, and, ultimately, build a community around your ideas. Featuring vivid examples based

on interviews with influencers such as Seth Godin, David Allen, and Daniel Pink, Clark shows you how to break through and ensure that your ideas get noticed. Becoming a thought leader in your company or in your profession is the ultimate career insurance. But—even more important—it's also a chance to change the world for the better. Whatever your cause, perspective, or point of view, the world can't afford for the best ideas to remain buried inside you. Whether it's how to improve the educational system or how to make your company more efficient, your ideas matter. The world needs your insights, and it's time to be bold.

Are you ready to lead? Will you pass the test? Despite all the effort through the years to understand what it takes to be an effective leader, the challenges of leadership remain enormously difficult and elusive; even today, most CEOs don't last five years in the job. The demands to deliver at a consistently high level can be unforgiving. The loneliness. The weight of responsibility. The relentless second-guessing and criticism. The pressure to build all-star teams. The 24/7 schedule that requires superhuman stamina. The tough decisions that often leave no one happy. The expectation to always have the right answer when it can be hard just to know the right question. These challenges are brought into their highest and sharpest relief in the corner office, but they are hardly unique to chief executives. All leaders face their own version of these tests, and the authors draw on the distilled wisdom, stories, and lessons from hundreds of chief executives to show how every aspiring leader can master these challenges and lead like a CEO. These foundational leadership skills will make all aspiring executives more effective in their roles today and lift the trajectory of their careers. The CEO Test is the authoritative, no-nonsense insider's guide to navigating leadership's toughest challenges, brought to you by authors uniquely qualified to tell the stories. Embrace the Case Interview walks you through each step on the path to your dream consulting job as described by a former management consultant who conducted over 100 interviews for a top-tier firm. First, we cover how to get the interview including how to be memorable when speaking with firms prior to the interview and how to write a killer resume and cover letter.

Second, we cover the behavioral part of the interview. Often overlooked, the behavioral part of the interview covers your personal experiences and is often just as valuable as the case interview. We discuss the traits interviewers are looking for and how to answer their questions in a structured way. Third, we take an in-depth look at the case interview itself. Unlike books that focus on segmenting cases and applying frameworks, you will learn a single, flexible structure that you will apply to any case with deadly effectiveness. In addition to structuring the case, you will learn approaches for the cases' other parts including qualitative questions, quantitative problems, exhibit analysis, and synthesis. Embrace the Case Interview places a strong emphasis on the quality of your learning rather than just doing hundreds of cases. As such, each example case contains an in-depth discussion of the text book answer to help you improve. For more information, please visit embracethecaseinterview.com. Enjoy the book and best of luck in your upcoming interviews!

Government and nonprofit cases span a wide variety of problems, issues, stakeholders, and politics, which makes them trickier than private sector case interviews.
