The second book of its kind, the UFO Sightings Desk Reference: United States of America 2001 - 2020 presents data and analysis for 167,632 sighting reports of unidentified flying objects reported by individuals during the first 20 years of the 21st century. Since 1969, the government has claimed no interest in the subject and the press and media either ignore or ridicule mention of UFOs. Yet citizen scientists and nongovernmental organizations have continued to this day the research into this important subject: this book seeks to make the hardest data accessible to the general public, as well as other UFO researchers. The book is organized into beginning narrative sections including analysis of UFO sighting reports, followed by the data. There are no case studies or stories. Charts, tables, and maps are presented of summary data for the entire United States. An individual chapter for each of the 50 states plus the District of Columbia. Aimed at the serious UFO researcher, this comprehensive volume is also of value to academic and public libraries, news organizations, and anyone who is interested in what is flying in the skies over the heads where they live.

There is a place in the Nevada desert the size of Belgium that doesn't officially exist. It is the airbase where test flights of our top-secret experimental military aircraft are conducted and --not coincidentally--where the conspiracy theorists insist the Pentagon is hiding UFOs and aliens. This is Dreamland--or Area 51. For Phil Patton, the idea of writing a travel account of a place he couldn't actually visit was irresistible. What he found was a world where Chick Yeager and the secret planes of the Cold War converged with the Nevada Test Site and alien landings at Roswell. A think tank for aviation engineering, Dreamland can be seen from a summit outside

the base's perimeter, a hundred miles north of Las Vegas. On Freedom Ridge, groups of airplane buffs gather with their camouflage outfits and binoculars. These are the Stealth chasers, the Skunkers, guys with code names like Agent X and Zero, hoping for a glimpse of the rumored raylike shapes of planes like Black Manta and "the mother ship." The most mysterious craft is Aurora, the successor to the legendary U-2, said to run on methane and fly as fast as Mach 6. Scanning the same horizon, the UFO buffs are looking for the hovering lights and doughnut-shaped contrails of alien aircraft. Are they looking at something sinister and mysterious? Imagined? Or more terrestrial than they think? Dreamland shows how much we need mystery in the information age, and how the cultures of nuclear power and airpower merge with the folklores of extraterrestrials and earthly conspiracies. Patton found people who found themselves in the mysteries of the place. John Lear, the son of aviation pioneer Bill Lear--who gave his name to the jet--served as a pilot for the CIA's Air America, but back home, he became fascinated by UFOs and eventually believed in it all: the underground bases, the alien-human hybrids, the secret treaties. But was he a true believer, or part of a disinformation campaign? Bob Lazar seems to know when the saucers will come, and has made three clear sightings at night along Dreamland's perimeter, but is his story real, or a vision of what's possible? Dreamland is an exploration of America's most secret place: the base for our experimental airplanes, the fount of UFO rumors, an offshoot of the Nevada Test Site. How this "blackspot" came to exist--its history, its creators, its spies and counterspies--is Phil Patton's tale. He tunnels into the subcultures of the conspiracy buffs, the true believers, and the aeronautic geniuses, creating a novelistic tour de force destined to make us all rethink our convictions about American know-how--and

The first-ever manual that shows you how to investigate UFOs, strange creatures, and the paranormal--like a professional. Clear, comprehensive, no-nonsense, Chase Kloetzke and Richard Dolan have set a new standard for investigators of strange phenomena. UFOs, ghosts, and strange creatures like Bigfoot are some of the most interesting subjects in our world, mainly because they challenge the very sense of reality that most of us grew up with. These things aren't supposed to exist. The problem, however, is that reports of them just keep coming, even well into the 21st century. Conducting a good investigation of these elusive subjects is not easy. How do you plan your investigation? What's the best way to interview your witnesses? What kind of equipment should you bring? What kind of clothing? How do you do a proper stake-out of a location? What safety precautions should you take? How do you obtain, handle, and preserve evidence? How do you document your case for posterity, so that others can learn from it? Also, what kind of strangeness should you expect from investigating these very odd encounters? What do you need to know? How can you prepare for something that exists at the edges of our shared reality?The purpose of this book is to teach you these things. Until now, there hasn't been a clearly written general guide for investigators of the weird, whether seasoned or brand-new. This is the first-ever field manual that will show you how to investigate UFOs, strange creatures, and the paranormal, and to do it in a professional manner.

Paul Hill was a well-respected NASA scientist when, in the early 1950s, he had a UFO sighting. Soon after, he built the first flying platform and was able to duplicate the UFO's tilt-to-control maneuvers. Official policy, however, prevented him from proclaiming his findings. "I was destined," says Hill, "to

remain as unidentified as the flying objects." For the next twenty-five years, Hill acted as an unofficial clearinghouse at NASA, collecting and analyzing sightings' reports for physical properties, propulsion possibilities, dynamics, etc. To refute claims that UFOs defy the laws of physics, he had to make "technological sense... of the unconventional object." After his retirement from NASA, Hill finally completed his remarkable analysis. This book, published posthumously, presents his findings that UFOs "obey, not defy, the laws of physics." Vindicating his own sighting and thousands of others, he proves that UFO technology is not only explainable, but attainable.

Asked where he got the ideas for his stories, Stephen King replied, "My mother would read me FATE magazine—which was about the paranormal, flying saucers, and all that stuff. ...and I was fascinated." Now you can read The Best of FATE. UFOs and Close Encounters brings you the story of Unidentified Flying Objects through key reports—from the encounter that started it all in 1948 to 21st century sightings worldwide—selected from the magazine's over 700 issues. In this book, Kenneth Arnold, the pilot whose 1949 account launched the modern fascination with flying saucers, shares his story. James A. Harder, professor of engineering at the UC Berkely's metallurgical analysis of UFO remains, he says proves they are of extraterrestrial origin. Cambridge historian Harold T. Wilkins discusses findings from his survey of 1,000 years of UFO sightings. Utah State University professor Frank B. Salisbury, PhD, meditates on whether science alone is adequate to explain their existence. Renowned UFOlogist Jaques Vallee shares possible extradimensional, psychic or spiritual explanations. Geologist Robert M. Schoch, PhD, considers on a connection between UFOs and Lost Civilizations. Many others share authentic personal reports of UFOs seen around the world—and even beneath the seas!

You will not find any final answers or solutions—they still don't yet exist, contrary to what some people might tell you. But you will find sensible, clear-headed perspectives on the greatest riddle of our time, as seen by those who know the most about it. And it's a good bet that when the solution is found, it will be due in no small part to the efforts of the individuals whose testimonies you'll find in these pages...and those of the most thought-provoking publication of all time—FATE magazine.

Close Encounters of the Fourth Kind: cases in which personal contact between an individual or individuals is initiated by the “occupants” of the spacecraft. Such contact may involve the transportation of the individual from his or her terrestrial surroundings into the spacecraft, where the individual is communicated with and/or subjected to an examination before being returned. One might expect that a “scientific conference” devoted to people who have reported being kidnapped by “little green men” would be dismissed out of hand. But C.D.B. Bryan, the greatly admired journalist and author of *Friendly Fire*, did not dismiss it: the conference was to be held at the Massachusetts Institute of Technology and would have as its chairmen a Pulitzer Prize-winning Harvard psychiatry professor and a professor of physics from M.I.T. Bryan attended the conference throughout its five days. He approached the subject with no prior stand, no agenda, and an open (if slightly skeptical) mind. As the conference progressed, he was astonished by the quality of the stories told by the hundreds of men and women who came forward hesitantly and reluctantly with their utterly amazing—and utterly convincing—accounts of having been abducted and then examined aboard extraterrestrial spacecraft by spindly limbed, telepathic gray creatures with outsized foreheads dominated by huge, compelling, tear-shaped black eyes. What most astonished Bryan were the similarities found again

and again in these accounts and the consistency of their details. It is here that the heart of the mystery lies: as the Harvard professor John E. Mack asked at the conference, “If what the abductees are saying isn’t happening to them, then what is?” This question—and the possible answers—are at the center of this richly explicit, serious, and riveting book. Bryan recreates the conference. He interviews ufology’s most prominent psychiatrists, psychologists, hypnotherapists, researchers, physicists, physicians, and folklorists. He interweaves throughout the testimony of the abductees themselves, who tell us their stories in chilling detail. He presents, in depth, the Close Encounter experiences of two women whose stories he tells on the basis of both their spontaneous recollections of the events and their memories that were retrieved through sessions of hypnosis of which Bryan himself was a witness. Finally, Bryan examines the current theories—psychological, psychiatric, medical, parapsychological—that have been put forward by the unconvinced to explain the abduction phenomenon. Are the abductees suffering from some sort of false memory syndrome? . . . a multiple or dissociative personality disorder? . . . Are they fantasy-prone? *Close Encounters of the Fourth Kind* is a detailed, objective exploration—the most concrete to date—of one of the enduring and amazing mysteries of our time. It is a book that will equally fascinate believers and nonbelievers.

The first, comprehensive military history of armed confrontations between humans and extraterrestrials • Includes documentation of incidents from World War I, World War II, the Korean War, the Vietnam War, the Gulf War, and the ongoing hostilities in the Middle East • Reveals the U.S. Navy's defeat in Antarctica by ETs, the shoot-down of "flying saucers" at Roswell, alien sabotage of nuclear weapons, in-flight abductions of USAF and Soviet officers, and photographic evidence of the Battle of Los Angeles • Explains the link between the development of atomic bombs and ballistic missiles and the increase in extraterrestrial intervention in the 20th century Although close encounters with alien space craft are reported as far back as the reign of Pharaoh Thutmosis III in Egypt, it wasn't until the 20th century that UFO sightings and extraterrestrial encounters were truly documented, due to advances in technology and record-keeping as well as the vast increase in incidents, particularly with military forces. Revealing his extensive research and the verifiable evidence he's discovered, Frank Joseph presents a comprehensive military history of armed confrontations between humans and extraterrestrials in the 20th and 21st centuries. He explains how, with the development of atomic bombs and ballistic missiles, the frequency of extraterrestrial intervention in human affairs increased dramatically. He documents incidents both famous and little known, including the explosive demolition of U.S. munitions factories in 1916 by unearthly aerial vehicles, the Red Baron's dogfight with a UFO during World War I, "foo fighter" sightings and battles with Allied and Axis combatants during World War II, and eye-witness reports from encounters during the Korean War, the Vietnam War, the Gulf War in

Iraq, and the ongoing hostilities in the Middle East. He examines the evidence for the shoot-down of “flying saucers” at Roswell and Aztec, New Mexico, alien sabotage of nuclear weapons systems, and in-flight abductions of USAF and Soviet officers and airplanes. He explores the photo evidence for the Battle of Los Angeles, which occurred three months after Pearl Harbor, and the details of Operation Highjump, the U.S. Navy’s defeat in Antarctica by ET forces 17 months after the atomic bomb was dropped on Nagasaki, while also uncovering evidence of secret Antarctic German bases. The author also examines recent, 21st-century examples of alien interdiction in Earthly affairs, such as the meltdown of the Fukushima Daiichi nuclear plant in Japan and the fiery abort of Elon Musk’s Falcon 9 missile launch, both events accompanied by UFOs. Offering complete disclosure of the multitude of ET events over the past century, Frank Joseph gives us the first true reference book in the field of alien military encounters.

The bestselling author probes the ultimate significance behind today's increasing reports of UFOs, alien abductions, crop circles, and other unexplained phenomena-and what

they mean for humanity's immediate future. In 1987 writer Whitley Strieber exposed the world to the truth about alien abduction in his landmark memoir, *Communion*. For the first time in years, Strieber revisits his encounter with alien intelligences-but now dramatically widens his search to explore how "the visitors" connect with today's persistent and globe-spanning reports of anomalous phenomena, such as crop circles, cattle mutilations, UFO sightings, alien abductions, near-death experiences, close encounters, and unexplained bodily implants. In his magisterial style, Strieber contextualizes these bizarre and unsettling reports with his own childhood memories of strange schools, sinister experiments, and family secrets. In exploring today's most convincing cases of unexplained phenomena, Strieber reasons that they are not unrelated events. Nor are they the result of mass delusion. In some of his most persuasive writing, Strieber argues that the wave of mysterious episodes marks a transition that humanity is undergoing right now. Against all conscious understanding, we are experiencing a broadened awareness of dimensions of reality that exist beyond our current perceptions.

This is the new must-have UFO book. For beginners and experienced researchers alike, historian Richard Dolan covers the full range of this incredibly complex topic in his uniquely engaging style. He offers fresh insights on everything connected to UFOs: ancient aliens, modern encounters, abductions, channelers, the politics and cover-up, the black budget world, the bizarre science, the social dimensions (read YouTube and Facebook), the future, and much more. Toward that end, Dolan gives practical insights on how to distinguish and investigate UFOs in today's world, where we are flooded with claims and videos and data of all types. In addition, as one of ufology's pioneers in the deep analysis of the cover-up, he offers an original perspective on

The wildly entertaining and eye-opening biography of J. Allen Hynek, the astronomer who invented the concept of "Close Encounters" with alien life, inspired Steven Spielberg's blockbuster classic science fiction epic film, and made a nation want to believe in UFOs. In June 1947, private pilot Kenneth Arnold looked out his cockpit window and saw a group of nine silvery crescents weaving between the peaks of the Cascade Mountains at an estimated 1,200 miles an hour. The media, the military, and the scientific community—led by J. Allen Hynek, an astronomer hired by the Air Force—debunked this and many other Unidentified Flying Object sightings reported across the country. But after years of denials, Hynek made a shocking pronouncement: UFOs are real. Thirty years after his death, Hynek's agonizing transformation from skepticism to true believer remains one of the great misunderstood stories of science. In this definitive biography, Mark O'Connell reveals for the first time how Hynek's work both as a celebrated astronomer and as the U. S. Air Force's go-to UFO expert for nearly twenty years stretched the boundaries of modern science, laid the

groundwork for acceptance of the possibility of UFOs, and was the basis of the hit film *Close Encounters of the Third Kind*. With unprecedented access to Hynek's personal and professional files, O'Connell smashes conventional wisdom to reveal the intriguing man and scientist beneath the legend. Tracing Hynek's career, O'Connell examines Hynek's often-ignored work as a professional astronomer to create a complete portrait of a groundbreaking enthusiast who became an American cult icon and transformed the way we see our world and our universe.

How-and why- were UFOs so prevalent in both conspiracy theories and the New Age milieu in the post-Cold War period? In this ground-breaking book, David G. Robertson argues that UFOs symbolized an uncertainty about the boundaries between scientific knowledge and other ways of validating knowledge, and thus became part of a shared vocabulary. Through historical and ethnographic case studies of three prominent figures-novelist and abductee Whitley Strieber; environmentalist and reptilian proponent David Icke; and David Wilcock, alleged reincarnation of Edgar Cayce-the investigation reveals that millennial conspiracism offers an explanation as to why the prophesied New Age failed to arrive-it was prevented from arriving by malevolent, hidden others. Yet millennial conspiracism constructs a counter-elite, a gnostic third party defined by their special knowledge. An overview of the development of UFO subcultures from the perspective of religious studies, UFOs, Conspiracy Theories and the New Age is an innovative application of discourse analysis to the study of present day alternative religion.

ultimate “what if?” scenario in which the calendar is reset and history begins again. This work of speculative non-fiction combines meticulous fact-finding from historian/researcher Richard M. Dolan and forward-leaning scenarios from journalist/screenwriter Bryce Zabel on the world’s most mind-bending subject. The authors predict radical changes after official acknowledgment that at least some UFOs are intelligently controlled craft from somewhere other than Earth. A.D. After Disclosure isn’t afraid to make mind-blowing, specific predictions, such as: Congress will hold Watergate-style hearings and ask secret-keepers, “What did you know and when did you know it?” The first decade A.D. (After Disclosure) will be like a high-tech 1960s, spawning massive cultural and societal change. Abductees will file a class-action suit against the government for withholding critical information. All the textbooks on planet Earth—from history to science—will need an immediate review. Whether disclosure leads to social panic or ushers in a new era of unity and peace, it will undoubtedly be a game-changing event. Impeccably researched, this riveting journalistic investigation separates fact from fiction, and documents the existence of—and government reactions to—actual UFOs.

For as long as people have talked about UFOs, they have wondered about when and how the governments of the world will acknowledge them. Among people following the subject, that's called Disclosure. In this second volume of the Richard Dolan Lecture Series, Historian Richard Dolan tackles an enormous subject. After explaining why UFOs are taken seriously in national security circles around the world, he provides his best analysis to date as to how the secrecy on UFOs has taken form, how it has corroded our society, and how it works internationally. He gives a fresh analysis on the black budget breakaway civilization, on the weaponization of secret technologies, the intelligences behind the UFO phenomenon, and how Russia and China fit into the global UFO cover-up. He drives his analysis home with four distinct disclosure scenarios: Fascist Disclosure, Premature Disclosure, Insider Disclosure, and People-Driven Disclosure. Finally, Dolan offers a unique view on how the UFO cover-up and possible disclosure could transpire during the presidency of Donald Trump. One thing is clear: we live in a world that hangs in the balance.

THE HIDDEN HISTORY OF UFOs People have always been fascinated by lights in the sky. Early astronomers and astrologers, medieval pamphleteers, scientists, navigators, and weather observers, all recorded sightings of strange phenomena. The question is: Were these the same as our modern UFOs? The authors of *Return to Magonia* have taken a serious, critical look at some of those sightings. Using modern resources and tools, they dissect more than 20 fascinating cases from the last 500 years, showing that reality can be more interesting than any popular catch-all theory. They discover that UFOs in history are as intriguing, as entertaining, and often as baffling as they are today. In this

unique and challenging book you will read about: the flat "plate" seen over a 17th-century Swedish city, leaving witnesses stricken with an unknown sickness; a fiery object that landed beside a road in Ohio, piloted by a mysterious man in black; a weird blue ball of fire that devastated a British navy ship; the Minnesota doctor who saw a disk of "electric" light floating across the fields; and a formation of locomotive-sized "eggs" that descended on an Australian town shortly after World War II. Combining science, history, and a broad knowledge of the UFO field, Martin Shough and Chris Aubeck set a new standard for UFO research and shed light on one of the oldest recorded mysteries in human experience.

CHRIS AUBECK is the founder of the historical research group Magonia Exchange, an international archival project, and the co-author (with Jacques Vallee) of *Wonders in the Sky*. MARTIN SHOUGH is a Research Associate for National Aviation Reporting Center on Anomalous Phenomena (NARCAP)."

Of the many books on UFOs and aliens, this one may be unique. Richard Dolan, one of the world's leading historians of the UFO subject, has analyzed the different alien types and agendas based on longstanding patterns observed by witnesses. This is both a careful review of the best evidence we have of human-alien interaction, as well as a bold speculation of just who the aliens are and what they want. Dolan's analysis starts with our ancient pre-history and potential genetic modifications and monitoring by extraterrestrials. He also studies the long history of interaction with perfectly human-looking beings who somehow did not seem as though they were "from here." Such interactions have continued through the present day. Who are these beings? He also analyzes reports of gray aliens and other types, including reptilian types, insectoid types, hybrid beings, and a range of others. With a view toward understanding their

psychology, their technological capabilities, and the nature of their interactions with people, he speculates as to what ultimate plans may be. He argues that the alien presence is especially important now. This is because of the rapid transformation of human civilization into something we have never before experienced. We still don't have a proper name for what we are going through, but it includes a combination of radical new technologies with a new social order that ultimately might make human civilization much more like the societies that these other beings already have. One that combines a tightly centralized and controlled social order with sophisticated science and technology.

Is there a secret space program that is connected in some way to UFOs? In this booklet, historian Richard Dolan delves into this question, one of the most discussed in ufology today. Providing a wealth of data and context for the reader, he offers his own conclusion: yes, there is indeed such a program. But this program is not a simple extension of the normal operations of the U.S. government or military, much less of NASA. Instead, it seems to be the product of what Dolan has previously termed a "breakaway civilization," a radically advanced and increasingly separate structure that has access to classified science and data denied to the rest of us. Adapted from his classic lecture at the Secret Space Program and Breakaway Civilization conference in San Mateo, this is now offered as a volume in the Richard Dolan Lecture Series.

"About what might happen after an announcement is made that UFOs are real, ... [it] is the first work of non-fiction to tackle [the] questions about the new winners and losers in government, science, religion, media, culture, law, education, and politics"--Dust jacket.

of a two-part detailed chronological narrative of the national security dimensions of the UFO phenomenon from 1941 to the present. Working from hundreds of declassified records and other primary and secondary sources, Dolan centers his investigation on the American military and intelligence communities, demonstrating that they take UFOs seriously indeed. Included in this volume are the activities of more than fifty military bases relating to UFOs, innumerable violations of sensitive airspace by unknown craft and analyses of the Roswell controversy, the CIA-sponsored Robertson Panel, and the Condon Committee Report. Dolan highlights the development of civilian anti-secrecy movements, which flourished in the 1950s and 1960s until the adoption of an official government policy and subsequent "closing of the door" during the Nixon administration.

More than half of American adults and more than seventy-five percent of young Americans believe in intelligent extraterrestrial life. This level of belief rivals that of belief in God. American Cosmic examines the mechanisms at work behind the thriving belief system in extraterrestrial life, a system that is changing and even supplanting traditional religions. Over the course of a six-

year ethnographic study, D.W. Pasulka interviewed successful and influential scientists, professionals, and Silicon Valley entrepreneurs who believe in extraterrestrial intelligence, thereby disproving the common misconception that only fringe members of society believe in UFOs. She argues that widespread belief in aliens is due to a number of factors including their ubiquity in modern media like The X-Files, which can influence memory, and the believability lent to that media by the search for planets that might support life. *American Cosmic* explores the intriguing question of how people interpret unexplainable experiences, and argues that the media is replacing religion as a cultural authority that offers believers answers about non-human intelligent life.

'What does all this stuff about flying saucers amount to? What can it mean? What is the truth?' Winston Churchill, prime minister's personal minute, 28th July 1952 *The UFO Files* tells the story of over 100 years of UFO sightings, drawing on formerly secret government documents at the National Archives in London.

Alongside extraordinary reports by ordinary people, it reveals details of official interest and investigations stretching back more than 80 years. In this remarkable

book, fully updated for this second edition, David Clarke reveals an array of startling stories from possible UFO reports hidden among Met Office investigations of aerial phenomena in the 1920s to the conclusions of Project Condign, the secret British Intelligence UFO study completed in 2000. As well as covering Roswell and Britain's own Rendlesham Forest mystery, Clarke raids the records for dramatic stories of abductions and close encounters, ghost aircraft and crop circles, and UFO reports by both civilian aircrew and military personnel. Dramatic witness statements and interviews combine with rarely seen photographs, drawings and newly available documents to offer a unique guide to one of our most intriguing mysteries.

"In December 1980, Larry Warren was a member of the Air Force security police stationed at RAF Bentwaters, a NATO base in Great Britain. On the night of the 28th he was on guard duty when he was taken by truck to join other Air Force personnel to investigate a disturbance in a Rendlesham Forest about five miles away, which turned out to be a landed UFO. This was the third night of UFO activity in the area and by far the most profound. When the men were debriefed the next day, they were warned to tell no one about what they had seen."--Back cover.

This recently revised 388 page book conclusively reports that Washington, D.C., is statistically the UFO sightings capital of the world. The author presents over 200 eye-witness accounts of UFO incursions in DC from 1850 to 2007. For the first time, it is revealed that UFOs were sighted over DC at least 22 times in 1952. This caused

President Truman to issue a "shoot-on-sight" order of all UFOs in American airspace. However, this presidential directive was soon rescinded after military jets fell from the sky while attempting to intercept UFOs over Washington, D.C. Exactly 50 years later, in July of 2002, UFOs were photographed with 35mm film landing on Capitol Hill. Just ten days later, NORAD scrambled military jets to intercept UFOs in the prohibited/restricted airspace around the capital. The author's two-and-a-half-year investigation of the authentic photographs, and the ongoing military intercepts, led him to dig deep and uncover the amazing covert history of UFOs and ETs in Washington, D.C.

Does the U.S. government know more about UFO and alien life than it admits? Are eyewitnesses telling the truth? What does the historical record say? Former intelligence officer and retired U.S. Army lieutenant colonel Kevin Randle takes an objective look at evidence for alien life and UFOs and presents his findings in *The UFO Dossier: 100 Years of Government Secrets, Conspiracies and Cover Ups*. The author reviews the documents, scours government databases, and interviews witnesses, unearthing details on UFOs, mysterious crashes, sightings, encounters, and related phenomena. The *UFO Dossier* presents plots, cover-ups, misleading statements, and documented connections to government intrigue—as well as hoaxes and problematic authentications. Following leads and digging into the files of the CIA, the FBI, the FAA, NASA, the Army, Navy, Air Force, and other U.S. government and international agencies, Randle lets the facts guide

This "compellingly hard-hitting" bestseller from a Pulitzer Prize finalist gives readers the complete untold story of the top-secret military base for the first time (New York Times). It is the most famous military installation in the world. And it doesn't exist. Located a mere seventy-five miles outside of Las Vegas in Nevada's desert, the base has never been acknowledged by the U.S. government — but Area 51 has captivated imaginations for decades. Myths and hypotheses about Area 51 have long abounded, thanks to the intense secrecy enveloping it. Some claim it is home to aliens, underground tunnel systems, and nuclear facilities. Others believe that the lunar landing itself was filmed there. The prevalence of these rumors stems from the fact that no credible insider has ever divulged the truth about his time inside the base. Until now. Annie Jacobsen had exclusive access to nineteen men who served the base proudly and secretly for decades and are now aged 75-92, and unprecedented access to fifty-five additional military and intelligence personnel, scientists, pilots, and engineers linked to the secret base, thirty-two of whom lived and worked there for extended periods. In Area 51, Jacobsen shows us what has really gone on in the Nevada desert, from testing nuclear weapons to building super-secret, supersonic jets to pursuing the War on Terror. This is the

first book based on interviews with eye witnesses to Area 51 history, which makes it the seminal work on the subject. Filled with formerly classified information that has never been accurately decoded for the public, Area 51 weaves the mysterious activities of the top-secret base into a gripping narrative, showing that facts are often more fantastic than fiction, especially when the distinction is almost impossible to make.

Despite a multitude of differing views on UFOs, everyone can feel that big changes are on the horizon. Everyone sees things through their particular lens. In the media, not only in America but worldwide, news reports of extra-terrestrial phenomena are on the increase. Whether you refer to them as unidentified flying objects or unidentified aerial phenomena, it matters not. The fact is stuff is happening worldwide at an increasing speed as if this planet is being prepared for something big. Something that could radically alter the way we live our lives and the way we view existence. Grant Cameron, who has for decades dedicated himself to researching what American presidents have known about the UFO phenomena, has reached the conclusion that presidents' denying knowledge is just a cover, and that they actually have known and do know. To what end? Despite your individual view, the information in this intriguing book will validate the fact that Americans stand on a threshold and must make a choice. The President of the United States is the most powerful person in the world. Thirteen of them have dealt with the modern UFO phenomena. Bill and Hillary Clinton have been the most open about their handling of the mystery. Bill said he was fascinated with

the subject and has talked about it many times. Hillary has said she is very interested in the UFO subject saying she doesn't believe all the witnesses could be making it up. She has gone on the record as the first high-level politician to state that aliens may already be here. She has promised to disclosure as many classified UFO files as she can on the subject if she becomes president. This book provides a historical look the Clinton's UFO story. It starts with the efforts during the Clinton administration by billionaire Laurance Rockefeller to get UFO disclosure, and the story ends talking about the box that was built by Hillary's 2016 presidential campaign chairman John Podesta to try and ensure that UFO disclosure happens. Mention the topic of UFO's and Aliens and not only have most people already formed their opinions about them, but virtually everyone on the planet now believes in them. More people believe in Aliens than in the existence of God and more people believe that Aliens have visited planet earth than that Jesus is the Son of God. Ufology has become a new religion for 21st century where people now believe that Aliens will save them, not God. The problem is hardly anyone recognizes the true identity of UFO's let alone how they are being used to usher in one of the darkest, most deceptive times in the history of mankind. Therefore, this book, UFO's: The Great Last Days Deception seeks to equip you with the truth concerning so-called extraterrestrial visitors and their hidden demonic agenda. One of the biggest lies in the history of mankind is about to be foisted upon the whole world. The Rapture of the Church is going to happen, but it won't be from a liftoff in UFO's like we are

This 820 page book details the academic research findings of the world's first comprehensive multi-language quantitative and qualitative 5 year academic research study on individuals that have had UFO related contact with Non Human Intelligence (NHI)-- The FREE Experiencer Research Study. Over the last 5 years FREE has collected detailed responses to 3 extensive quantitative and qualitative surveys from over 4,200 individuals from over 100 countries. Our survey findings from these thousands of "Experiencers" contradict much of what is circulating in mainstream materialist Ufology. Our academic book will establish a new paradigm for viewing the UAP (UFO) Contact Phenomenon. FREE argues that "Consciousness" and the paranormal and psychic aspects of this phenomenon is the key to understanding this complex phenomenon instead of the traditional materialist perspective of "nuts & bolt's" Ufology.
