Fueled by media reports of gender bias in the schools, the debate over single sex education has been recently renewed. "Voices of Hope" asks for a reconsideration of the framing of that debate. For whom is single sex education better? For the attainment of which goals? What do girls gain by being schooled with male peers? What is lost? In this longitudinal study of more than fifty high school girls at four New England independent schools, Carole B. Shmurak follows their development from ninth grade through the first year of college. Case studies capture the girls' own voices as they describe their hopes for their futures and the events that subsequently affect those futures.

The teaching of culture and interculturality is today viewed as an integral part of foreign language education. This book presents insights from recent research on the role of culture in second/foreign and heritage language education. It contains 14 chapters including an introductory chapter that discusses diachronically the evolving notion of culture and how the sociocultural view of culture as a complex and dynamic concept informs language teaching and language learning research. The chapters following the introduction are organized in four parts focusing on: 1) the teacher's role in integrated language and culture learning; 2) the interrelationship between culture, identity, and language learning and use; 3) the effect of culture on learner characteristics which impact language learning processes and outcomes; and 4) curriculum development aimed at fostering language and culture learning. The chapters in Parts 1 to 3 present contributions from current research - either in the form of the authors' original studies or comprehensive reviews of relevant essential research - which bears important implications for curricular practice in foreign language and language teacher education. This close link between research, theory and practice is also maintained in the two chapters in Part 4, which present developmental projects based on well-grounded theoretical frameworks.

OUR HEARTS WERE YOUNG AND GAY by CORNELIA OTIS SKINNER and EMILY KIMBROUGH. CHAPTER 1: WE had been planning the trip for over a year. Pinching, scraping and going without sodas, we had salvaged from our allowances and the small time jobs we each had found the preceding vacation the sum of 80.00, which was the cost of a minimum passage on a Canadian Pacific liner of the cabin class. Our respective families had augmented our finances by letters of credit generous enough to permit us to live for three months abroad if not in the lap of luxury, at least on the knees of comfort. For months we had been exchanging letters brimming over with rapturous plans and lyric anticipation and now June had really rolled around and the happy expectancy of the brides-to-be of that year had nothing on us. It was settled we could meet in Montreal at whatever hotel it is that isn't the Ritz. I, clutching and occasionally kissing our steamship passage, was arriving from New York, Emily from Buffalo. That is, I hoped Emily was arriving. Emilys notions concerning geography, like some of her other notions, were enthusiastic but lacking in accuracy. Some weeks previous she had sent me a rhapsodic letter which ended with the alarming words, I live for the moment when our boat pushes out from that dock in Winipeg. I had written back in a panic and block letters stating, somewhat crushingly I thought, that the CJP. O. seldom sent its ships overland, that we were sailing from Montreal, Province of Quebec, that the name of our vessel was the Montcalm and the date June 10th, the year of our Lord I shant say which, because Emily and I have now reached the time in life when not only do we lie about our ages, we forget what weve said they are. Emily wrote back not to worry, darling, she had it all straight now. Moreover she was being motored up from Buffalo by friends who had been abroad often and who wouldnt dream of driving her to the wrong place. They would arrive sometime the afternoon of the 14th. No such traveled and plutocratic friends offered to motor me to Canada, so I purchased an upper on the Montreal sleeper ... a bit of misguided economy because once aboard the train I had to pay for another upper in order to accommodate my collection of luggage. The Skinners have ever, I believe, been respectable, God-fearing folk, but in those days my family made up for the lack of a skeleton in the closet by having extremely disreputable-looking luggage. Mother, the most exquisite of women, was fastidious to a degree when it came to the care of her clothes and mine, but she didnt care what she packed them in as long as the receptacle was clean. Consequently on this, the occasion of my first long trip on my own, she had, with loving care and acres of tissue-paper, stowed my effects in an assortment of containers that ranged from a canvas trunk Father had used when he played at Dalys, to a patent leather thing for hats that looked like a cover for a bass drum. There was a strap bound straw affair known for some reason as a telescope, and various other oddments. I was made to carry my good coat the one in which I traveled was my every day on a stout hanger in a voluminous green dress-bag which had a hole at the top and through that emerged the hook for hanging it up. It was a formidable looking contrivance and I used to glance nervously at that hook, half anticipating the sight of a human eye impaled upon it...

Excerpt from Dry Stories When Anne Winter looked down at the face of her first-born, she felt that motherhood was the supreme event of a woman's existence. She had been a clever artist in her time; had painted some pictures that people talked of noisily, had decorated the ceiling of a big church in a big town, and done a portrait in oil of one of the ladies of the cabinet. But on a certain January morning all this seemed mere nothingness to the light touch of tiny pink fingers like a drift of rose leaves on her breast. The babe had wailed because it had come into this big, brutal world, and when she had hushed its wailing, it seemed to her that she, Anne Winter, for the first time counted for something in this world. For the first time, she was. a real factor in the history of humanity. Her psychic senses seemed so quickened that the simplest things had a new significance, and everything in earth or heaven circled about that infant's head. Koine Greek Grammar and its accompanying Workbook and Answer Key & Guide have been in the making for decades. It was first a small manual Kairos Greek Grammar; then it grew into a fully integrated and hyperlinked CD that has been published by Logos Bible Software (2005). Now, this current handbook--KOINE GREEK GRAMMAR: A BEGINNING-INTERMEDIATE EXEGETICAL AND PRAGMATIC HANDBOOK--has been thoroughly expanded to include my more explicit description of marked, emphatic, prominent, and pragmatic features of Greek, ideas that were nascent in KAIROS, but now grounded in a communication theory informed by Relevance Theory (Dan Sperber and Deirdre Wilson), Prominence Theory with reference to translation (Kathleen Callow), and Discourse Grammar and Pragmatics (Stephen Levinsohn, Stanley Porter, and Steven Runge). Exegetically significant aspects of Greek syntax and the use of the Greek language (i.e., pragmatics) occur strategically throughout KOINE GREEK GRAMMAR and include the following: - conjunctions and their constraints- point/counterpoint sets- polysyndeton, asyndeton, correlative emphasis, and lists- fronted modifiers for emphasis (genitive, demonstrative, quantitative)- vocatives as thematic address- appositional statements- the historic present and the verb tense options in narrative- metacomments as orienting statements- interjections as attention getting devices- quantitative, qualitative, interrogative, negative, and comparative types of emphasis- special uses of the noun cases- participle uses, including periphrastic and genitive absolutes- special uses of the Moods- left-(dis)locations- discourse pragmatic uses of the article- conditional and exception clauses. Some of these discussions will have extended Intermediate-level treatments that are placed within greyed boxes. Other significant enhancements are the inclusion of CHECK POINTS that give students a chance to practice what is being learned in each chapter along with (SUGGESTED) ANSWERS that immediately follow. Scattered throughout KOINE GREEK GRAMMAR are images of ancient realia, i.e., remnants of Mediterranean material culture including biblical and non-biblical papyri fragments, vase paintings, coins, bas-reliefs, imperial artifacts, inscriptions, funerary stele, statues, gems, temples, maps, and reconstructed scenes of life in the polis. The language and syntax of the Greek NT is contextually located in these worlds. Still present (but improved) are the CASE IN POINTS at the end of each chapter that briefly describe how particular points of Greek grammar just presented helps us when interpreting the Greek NT. In other words, the CASE IN POINT illustrates how Greek grammar is valuable as a tool for the study of the NT. In addition to having a full APPENDIX, VOCABULARY OF WORDS OCCURRING 20 TIMES OR MORE, and INDICES, KOINE GREEK GRAMMAR has a separate extensive WORKBOOK AND ANSWER KEY & GUIDE. that has been carefully crafted with many exercises drawn directly from biblical expressions and actual verses.

A New York Review Books Original Hav is like no place on earth. Rumored to be the site of Troy, captured during the crusades and recaptured by Saladin, visited by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the corridors and quarters of Hav, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and meet the denizens of its casinos and cafés. When Morris published Last Letters from Hav in 1985, it was short-listed for the Booker Prize. Here it is joined by Hav of the Myrmidons, a sequel that brings the story up-to-date. Twenty-first-century Hav is nearly unrecognizable. Sanitized and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. Morris's only novel is

A unique tribute to art films as seen through the eyes of master cinematographer Vittorio Storaro, the winner of three Academy Awards. The volume is a compendium of Storaro's extraordinary fifty-year career and a tribute to the creative sources of his work, as celebrated through more than 500 illustrations that reflect his singular style. In cinematography, there is not just one kind of light, but an infinite range of variants: not only the day and night specified in the screenplays, but also the daylight and artificial light, the darkness and the twilight, the sunrise and the sunset, the sun and the moon. And each one tells a story, expresses an idea or an emotion, and digs down into the subconscious. "The Muses" are the female figures of Greek mythology who have inspired the cinematography of Storaro in terms of aesthetics, light, color, and value.
