Federico Maria Sardelli writes from the perspective of a professional baroque flautist and recorder-player, as well as from that of an experienced and committed scholar, in order to shed light on the bewildering array of sizes and tunings of the recorder and transverse flute families as they relate to Antonio Vivaldi's compositions. Sardelli draws copiously on primary documents to analyse and place in context the capable and surprisingly progressive instrumental technique displayed in Vivaldi's music. The book includes a discussion of the much-disputed chronology of Vivaldi's works, drawing on both internal and external evidence. Each known piece by him in which the flute or the recorder appears is evaluated fully from historical, biographical, technical and aesthetic standpoints. This book is designed to appeal not only to Vivaldi scholars and lovers of the composer's music, but also to players of the two instruments, students of organology and those with an interest in late baroque music in general. Vivaldi is a composer who constantly springs surprises as, even today, new pieces are discovered or old ones reinterpreted. Much has happened since

Sardelli's book was first published in Italian, and this new English version takes full account of all these new discoveries and developments. The reader will be left with a much fuller picture of the composer and his times, and the knowledge and insights gained from minutely examining his music for these two wind instruments will be found to have a wider relevance for his work as a whole. Generous music examples and illustrations bring the book's arguments to life. *Beginner Jazz Soloing For Flute* teaches a creative method for improvisation that's been road-tested at hundreds of workshops.

Georges Barrère (1876-1944) holds a preeminent place in the history of American flute playing. Best known for two of the landmark works that were written for him--the *Poem* of Charles Tomlinson Griffes and *Density 21.5* by Edgard Varèse--he was the most prominent early exemplar of the Paris Conservatoire tradition in the United States and set a new standard for American woodwind performance. Barrère's story is a musical tale of two cities, and this book uses his life as a window onto musical life in Belle Epoque Paris and twentieth-century New York. Recurrent themes are the interactions of composers and performers; the promotion of new music; the management, personnel, and repertoire of symphony orchestras; the economic and social status of

the orchestral and solo musician, including the increasing power of musicians' unions; the role of patronage, particularly women patrons; and the growth of chamber music as a professional performance medium. A student of Paul Taffanel at the Paris Conservatoire, by age eighteen Barrère played in the premiere of Debussy's Prelude to the Afternoon of a Faun. He went on to become solo flutist of the Concerts Colonne and to found the Société Moderne d'Instruments à Vent, a pioneering woodwind ensemble that premiered sixty-one works by forty composers in its first ten years. Invited by Walter Damrosch to become principal flute of the New York Symphony in 1905, he founded the woodwind department at the Institute of Musical Art (later Juilliard). His many ensembles toured the United States, building new audiences for chamber music and promoting French repertoire as well as new American music. Toff narrates Barrère's relationships with the finest musicians and artists of his day, among them Isadora Duncan, Yvette Guilbert, André Caplet, Paul Hindemith, Albert Roussel, Wallingford Riegger, and Henry Brant. The appendices of the book, which list Barrère's 170 premieres and the 50 works dedicated to him, are a resource for a new generation of performers. Based on extensive archival research and oral histories in both France and the United States, this is the first biography of Barrère.

Teachers and flutists at all levels have praised Nancy Toff's *The Flute Book*, a unique one-stop guide to the flute and its music. Organized into four main parts--The Instrument, Performance, The Music, and Repertoire Catalog--the book begins with a description of the instrument and its making, offers information on choosing and caring for a flute, sketches a history of the flute, and discusses differences between members of the flute family. In the Performance section, readers learn about breathing, tone,

vibrato, articulation, technique, style, performing, and recording. In the extensive analysis of flute literature that follows, Toff places individual pieces in historical context. The book ends with a comprehensive catalog of solo and chamber repertoire, and includes appendices with fingering charts as well as lists of current flute manufacturers, repair shops, sources for flute music and books, and flute clubs and related organizations worldwide. In this Third Edition, Toff has updated the book to reflect technology's advancements--like new digital recording technology and recordings' more prevalent online availability--over the last decade. She has also accounted for new scholarship on baroque literature; recent developments such as the contrabass flute, quarter-tone flute, and various manufacturing refinements and experiments; consumers' purchase prices for flutes; and a thoroughly updated repertoire catalog and appendices. Mantra or breath meditation, Yoga, Tai Chi, biking, Pilates, and any other fitness discipline you might practice can be a meditative experience. These disciplines are so powerful that the longer you practice, the more likely you will want to take on other healthy disciplines to complement your practice. It was in this spirit that the book, "Meditative Flute", by Dick Claassen, came to be. The Native American flute has a beautiful tone, and in the right hands it can be a very meditative instrument. With this book, along with the included simplified tablature that requires no music background, you can learn to play the Native American flute in a meditative way and in just a few minutes, even if you have never played the Native American flute before. Easy chants, more challenging chants, daily chants, traditional music of the early Native Americans—there is all this and more. Claassen even includes a few familiar tunes like "Amazing Grace" and "Wayfarin' Stranger"—tunes that will take you to a level that makes your daily discipline truly enjoyable. Playing the flute before you begin your regular discipline will calm you, still your heart and take you to a peaceful place within you so the discipline you practice will be that much more beneficial. Even if you practice no regular discipline, the Native American flute will still be your spiritual friend. All you have to do is play it! This book does what no other book has done. Not only does it shepherd you through tunes that have a steady beat—a music structure we are already familiar with—it also takes you into the world of EXTEMPORANEOUS FREE-STYLE PLAYING. This style will give you even more freedom with the flute, open up even more meditative possibilities within you, and to the author's knowledge, no other Native American flute method book has gone into this style to any depth. Along with this book is an INSTRUCTIONAL VIDEO that's playable on any Mac or PC, the iPad/iPod/iPhone, any Android tablet, any smartphone, the Kindle Fire, and the B&N Color Nook. Also included are 85 MP3 AUDIO FILES of each tune in the book, all playable on any computer or mobile device. Inside the book is the URL and password where you can download all the files. You can learn even more about meditation in Dick Claassen's book, "Meditation: A Personal Journey". It's the perfect companion book for "Meditative Flute".
