The ultimate log book for RVers who want to keep great records of where they've been! Record campground information like: Hookups available Bathhouse conditions Amenities Road Conditions Campsite conditions Management/Staff Info Booking/Cancellation Notes Local Area Notes Sightseeing Notes and A LOT more! There's even extra space to add your own notes for each site! Great for RVing in: Class A Motorhomes Class C Motorhomes Travel Trailer RV 5th Wheel RV Class B Motorhome Custom Vans This book is an amazing tool for your travel adventures. We, as full-time RVers ourselves, wanted to produce something that would actually be useful for other RV travelers. Our goal was to create a place where you can record all of the great (and sometimes not so great) notes & impressions of your camping spots as you wander about in your RV. We made this book a place to store information but also easily find those notes again later, so we incorporated an easy-to-use referencing system, organized by U.S. state (or you can fill in your own regions). This way, when you need to look back on your notes from two, three, or even 20 years later, you will be able to quickly find them. Here's how to use this book: Log Your Stays: Turn to the first log and start writing! Use our prompted notes and checkoffs to record basic information and then also add your own notes as a refresher for your memory later. We didn't make space for every possible scenario (there are

so many!) So, use the extra space to write down anything you think you might want to know later. For instance, you may note more things like low/high water pressure, road noise, or management/staff names & notes. Did you spend way too much on laundry here? Make a note of it! Did you see a sasquatch walk casually through your campground on Friday night? Make a note of it! And share the picture! You did get one, right? Our Referencing System: It's so simple! Let's begin with the Site Logs. Each Site Log has a number in the corner. When you log a campsite, take a second to record that site's Log Number in the back of the book in its reference section. Most reference sections are simply a state. However, some states are larger (and more popular) than others, so we broke them down into smaller regions for even quicker reference. For instance, we've broken Texas down to 5 regions: North, West, Central, Gulf Coast & Panhandle. Maintenance Logs: In the back of the book, there are pages dedicated for recording RV maintenance. Just record the date, service performed, mileage, and any other notes there so you have that information later. Praise for The Ultimate RV Logbook: "In the past, I tried to keep track of campground details using our Google Calendar....but, we've gotten really bad about recording the details. What I really needed was this." ">Let's Travel Family RV Travel Blog "We were keeping similar notes in a blank notebook, but our entries were always inconsistent and we always forgot to note something. With "The Ultimate RV Logbook" we will be able to keep consistent records in neat and organized fashion." - Exploring The Local Life, RV Travel Blog

And in case you haven't pulled the trigger on that trailer you're eying on Craigslist just yet, Camper Rehab also walks you through the process of evaluating a potential purchase, identifying which issues are fixable and which are dealbreakers, as well as how to spot hidden problems.
