A special fiftieth anniversary edition of Kurt Vonnegut's masterpiece, "a desperate, painfully honest attempt to confront the monstrous crimes of the twentieth century" (Time), featuring a new introduction by Kevin Powers, author of the National Book Award finalist *The Yellow Birds* Selected by the Modern Library as one of the 100 best novels of all time *Slaughterhouse-Five*, an American classic, is one of the world's great antiwar books. Centering on the infamous World War II firebombing of Dresden, the novel is the result of what Kurt Vonnegut described as a twenty-three-year struggle to write a book about what he had witnessed as an American prisoner of war. It combines historical fiction, science fiction, autobiography, and satire in an account of the life of Billy Pilgrim, a barber's son turned draftee turned optometrist turned alien abductee. As Vonnegut had, Billy experiences the destruction of Dresden as a POW. Unlike Vonnegut, he experiences time travel, or coming "unstuck in time." An instant bestseller, *Slaughterhouse-Five* made Kurt Vonnegut a cult hero in American literature, a reputation that only strengthened over time, despite his being banned and censored by some libraries and schools for content and language. But it was precisely those elements of Vonnegut's writing—the political edginess, the genre-bending inventiveness, the frank violence, the transgressive wit—that have inspired generations of readers not just to look differently at the world around them but to find the confidence to say something about it. Authors as wide-ranging as Norman Mailer, John Irving, Michael Crichton, Tim O'Brien, Margaret Atwood, Elizabeth Strout, David Sedaris, Jennifer Egan, and J. K. Rowling have all found inspiration in Vonnegut's words. Jonathan Safran Foer has described Vonnegut as "the kind of writer who made people—young people especially—want to write." George Saunders has declared Vonnegut to be "the great, urgent, passionate American writer of our century, who offers us . . . a model of the kind of compassionate thinking that might yet save us from ourselves." Fifty years after its initial publication at the height of the Vietnam War, Vonnegut's portrayal of political disillusionment, PTSD, and postwar anxiety feels as relevant, darkly humorous, and profoundly affecting as ever, an enduring beacon through our own era's uncertainties. "Poignant and hilarious, threaded with compassion and, behind everything, the cataract of a thundering moral statement."—The Boston Globe

This open access handbook, the first of its kind, provides a comprehensive and carefully curated multidisciplinary and genre-spanning view of the state of the field of Critical Menstruation Studies, opening up new directions in research and advocacy. It is animated by the central question: "what new lines of inquiry are possible when we center our attention on menstrual health and politics across the life course?" The chapters—diverse in content, form and perspective—establish Critical Menstruation Studies as a potent lens that reveals, complicates and unpacks inequalities across biological, social, cultural and historical dimensions. This handbook is an unmatched resource for researchers, policy makers, practitioners, and activists new to and already familiar with the field as it rapidly develops and expands.

This is a story about what can happen to a girl when she starts her period. People do not need to be able to read in order to understand the story. Susan does not understand what is happening to her when she finds blood on her sheets and clothes. She does not tell her mother, but goes straight to school. In the playground, other girls giggle and point at the blood stains. Susan doesn't know why they are laughing at her. A teacher notices what is happening and calls Susan aside to explain what menstruation is, and how she should look after herself. Susan's mother provides further reassurance on her return home from school. She shows Susan how to keep herself clean and comfortable. Susan has become a woman, and her mother takes her shopping to celebrate.

A guide for pre-adolescent girls to the changes that puberty brings to their bodies, including information about menstruation.

"Explores the subject of menstruation, from toxic historic and religious roots to how young activists are challenging the silence and shame that can erode self-esteem and even threaten lives ..."--Page [4] of cover.

Celebrating over twenty years in print, this best-selling, essential illustrated guidebook for adolescent girls is now available as a refreshed edition, with new and updated content. With over 400,000 copies sold, this appealingly illustrated guidebook to puberty--now updated with new content relevant to today's kids--is the perfect companion for girls and parents preparing for this important milestone. Written in consultation with preteen girls, this guide offers a supportive, practical approach, providing clear and sensitive answers to common questions on periods, as well as advice dealing with pimples and mood swings. This revised edition features new sections on: - getting braces - bra sizing - shaving - relatable anecdotes from real girls - changing friendships - romantic feelings - dealing with sexual harassment both on social media and in real life Complete with charming and informative interior illustrations, *The Period Book* is a trusty friend that can help girls feel confident about this new phase of their lives.

Ruby Luna starts her period at 10 years old and keeps a diary for the next two years all about the menstrual products she tries and the things that happen to her and her friends. It is aimed at 10-12 year olds, but would be suitable for any girl starting her period earlier than that. It also covers the transition from primary to secondary school. It is written with humour to keep the topic light and entertaining, but includes lots of information from the impact of diet on periods to when girls historically started menarche (first period) in an accessible way. (/br) (/br)Ruby Luna's *Moontime* is a follow-on book from Ruby Luna's *Curious Journey* for 5-9 year olds on female anatomy, but it can be read independently. "It's great! I think it will really appeal to teens too! I think it covers a lot of things that girls want to know about. This diary is funny, packed full of useful information and will help girls feel confident about periods and body changes. Great job!" Anna (13) "I had fun reading this book with my mum. There was great practical advice on periods, and I enjoyed reading a story that reflected my own experience of starting my period and transitioning from primary to secondary school." Rosie Davis (12) "My daughter found the prospect of reading a book about puberty and periods less than inspiring but she has always loved being read to so Tessa's book was just the ticket. At 12 having started her period at 10 she felt super knowledgeable when we began to read together. We enjoyed chatting about the story and how it related to her own experience of ending primary and entering secondary school. We also chatted about all the period related issues brought up so cleverly in the book. If you are looking for a novel to share with your pre-teen that is fun, informative and that will bring you closer to your daughter look no further. Although my daughter is 12 we both felt that this would still be a great book for a 9-10 year old, especially if she is an early bloomer. This is a much-needed book - fiction is the best way to teach pre-teen girls about the changes taking place in their bodies and the practical issues that can impact them. Well done Tessa on writing this much needed book." Julie Davis (mum) "In my capacity of talking to secondary school children about puberty, there is a vast difference in what kids know or believe, so a resource like this will help put the record straight in an enjoyable and educational way." Sharon Sneddon, Lecturer in Reproductive

Medicine "I like the way the diary pointed out that most teachers are approachable and supportive in regard to children who have started their periods, regardless of how young they may be when this happens, and raised common issues such as going swimming at school and when the children are taught about periods at primary school." Mrs Mirbel, Deputy Head of Micklands Primary About the Author TESSA VENUTI SANDERSON teaches menstrual cycle awareness to girls and women and facilitates Celebration Day for Girls gatherings where menarche (first period) is seen as a rite of passage and an opportunity to enhance body image and self-esteem. She has a PhD in Medical Sociology and is also a women's yoga teacher. Learn more at www.cyclicalwisdom.com and www.tessayoga.co.uk.

Written by autistic author Robyn Steward, this is a detailed guide for young people aged 9 to 16 on the basics of menstruation. Created in consultation with young people, an online survey and a group of medical professionals, this is a book that teaches all people about periods, which can be a scary and overwhelming issue. Promoting the fact that everyone either has periods or knows someone who does, the book reduces the anxiety girls face in asking for help. It offers direct advice on what periods look and feel like and how to manage hygiene and pain. It also breaks up information using flaps and step-by-step photos of how to change pads and tampons, it discusses alternatives to tampons and pads, and gives information about possible sensory issues for people with autism.

The book was supposed to help my daughter, but I read it as well and I am just blown away. I have learnt some things and it sure makes explaining periods to my girl so easy. Thank you. Mrs O (UK)

The Managed Body productively complicates 'menstrual hygiene management' (MHM)—a growing social movement to support menstruating girls in the Global South. Bobel offers an invested critique of the complicated discourses of MHM including its conceptual and practical links with the Water, Sanitation and Hygiene (WASH) development sector, human rights and 'the girling of development.' Drawing on analysis of in-depth interviews, participant observations and the digital materials of NGOs and social businesses, Bobel shows how MHM frames problems and solutions to capture attention and direct resources to this highly-tabooed topic. She asserts that MHM organizations often inadvertently rely upon weak evidence and spectacularized representations to make the claim of a 'hygienic crisis' that authorizes rescue. And, she argues, the largely product-based solutions that follow fail to challenge the social construction of the menstrual body as dirty and in need of concealment. While cast as fundamental to preserving girls' dignity, MHM prioritizes 'technological fixes' that teach girls to discipline their developing bodies vis a vis consumer culture, a move that actually accommodates more than it resists the core problem of menstrual stigma.

Modelland - the FIERCE NEW NOVEL BY TYRA BANKS—IS OUT! No one gets in without being asked. And with her untamable hair, large forehead, and gawky body, Tookie De La Crème isn't expecting an invitation. Modelland—the exclusive, mysterious place on top of the mountain—never dares to make an appearance in her dreams. But someone has plans for Tookie. Before she can blink her mismatched eyes, Tookie finds herself in the very place every girl in the world obsesses about. And three unlikely girls have joined her. Only seven extraordinary young women become Intoxibellas each year. Famous. Worshipped. Magical. What happens to those who don't make it? Well, no one really speaks of that. Some things are better left unsaid. Thrown into a world where she doesn't seem to belong, Tookie glimpses a future that could be hers—if she survives the beastly Catwalk Corridor and terrifying Thigh-High Boot Camp. A generation ago, fewer than 5 percent of girls started puberty before the age of 8; today, that percentage has more than doubled. Early puberty is not just a matter of physical transformation—it's also deeply psychological, with a myriad of effects that can put a girl at higher risk for behavioral problems and long-term health challenges. In this reassuring and empowering guide, Louise Greenspan, MD, and Julianna Dearnorff, PhD—two leading experts on the root causes and potential consequences of early puberty in girls—deliver vital advice on how to prevent and manage early puberty. They explain surprising triggers—from excess body fat to hormone-mimicking chemicals to emotional stressors in a girl's home and family life—and offer highly practical strategies, including how to limit exposure to certain ingredients in personal care and household products, which foods to eat and which to avoid, ways to improve a child's sleep routine to promote healthy biology, and more. The New Puberty is an engaging, urgently needed road map to helping young girls move forward with confidence, ensuring their future well-being.

This book examines the social and technological history of sanitary napkins and tampons through the lens of passing, and the effects of technology upon women's experiences of menstruation. These ubiquitous yet invisible technologies provide women with the means to hide their periods, but the history of embedded politics in menstrual technologies reveals that they can be used both as artifacts of control and empowering tools of change.

PERIOD founder and Harvard College student Nadya Okamoto offers a manifesto on menstruation and why we can no longer silence those who bleed—and how to engage in youth activism. Throughout

history, periods have been hidden from the public. They're taboo. They're embarrassing. They're gross. And due to a crumbling or nonexistent national sex ed program, they are misunderstood. Because of these stigmas, a status quo has been established to exclude people who menstruate from the seat at the decision-making table, creating discriminations like the tampon tax, medicines that favor male biology, and more. Period Power aims to explain what menstruation is, shed light on the stigmas and resulting biases, and create a strategy to end the silence and prompt conversation about periods.

This frank, funny guide to getting your period gives preteens all they need to master—and even celebrate!—menstruation. Getting your period for the first time can be mortifying, weird, and messy—and asking questions about it can feel even worse. But it doesn't have to be that way. This taboo-free guide is packed with honest advice and big-sisterly wisdom on all the things girls need to know: from what cramps feel like to whether you can feel blood coming out, to what you should do if your pad leaks onto your clothes. Welcome to Your Period includes case studies, first-person accounts, questions from real teens, and answers from health journalist Yumi Stynes and adolescent health specialist Melissa Kang, MD. Cheerful illustrations keep the tone fun, and help with how-tos on different period supplies. There are even suggestions for throwing a first-period party. With its inclusive, body-positive message, pocket size, and reassuring vibe, this must-have menstruation manual will make girls feel not only normal but proud.

A provocative look at the way our culture deals with menstruation. The Curse examines the culture of concealment that surrounds menstruation and the devastating impact such secrecy has on women's physical and psychological health. Karen Houppert combines reporting on the potential safety problems of sanitary products--such as dioxin-laced tampons--with an analysis of the way ads, movies, young-adult novels, and women's magazines foster a "menstrual etiquette" that leaves women more likely to tell their male colleagues about an affair than brazenly carry an unopened tampon down the hall to the bathroom. From the very beginning, industry-generated instructional films sketch out the parameters of acceptable behavior and teach young girls that bleeding is naughty, irrepressible evidence of sexuality. In the process, confident girls learn to be self-conscious teens. And the secrecy has even broader implications. Houppert argues that industry ad campaigns have effectively stymied consumer debate, research, and safety monitoring of the sanitary-protection industry. By telling girls and women how to think and talk about menstruation, the mostly male-dominated media have set a tone that shapes women's experiences for them, defining what they are allowed to feel about their periods, their bodies, and their sexuality.

The first book to explore menstruation in the current cultural and political landscape and to investigate the new wave of period activism taking the world by storm. After centuries of being shrouded in taboo and superstition, periods have gone mainstream. Seemingly overnight, a new, high-profile movement has emerged—one dedicated to bold activism, creative product innovation, and smart policy advocacy—to address the centrality of menstruation in relation to core issues of gender equality and equity. In *Periods Gone Public*, Jennifer Weiss-Wolf—the woman *Bustle* dubbed one of the nation's “badass menstrual activists”—explores why periods have become a prominent political cause. From eliminating the tampon tax, to enacting new laws ensuring access to affordable, safe products, menstruation is no longer something to whisper about. Weiss-Wolf shares her firsthand account in the fight for “period equity” and introduces readers to the leaders, pioneers, and everyday people who are making change happen. From societal attitudes of periods throughout history—in the United States and around the world—to grassroots activism and product innovation, Weiss-Wolf challenges readers to face stigma head-on and elevate an agenda that recognizes both the power—and the absolute normalcy—of menstruation.

The kimono is an iconic garment with a history as rich and colourful as the textiles from which it is crafted. Deeply associated with Japanese culture both past and present, it has

often been thought of as a highly gendered, rigidly traditional and unchanging national costume. This book challenges that perception, revealing the nuanced meanings and messages behind the kimono from the point of view of its wearers and producers, many of whom – both men and women – see the garment as a vehicle for self-expression. Taking a material culture approach, *The Social Life of Kimono* is the first study to combine the history of the kimono as a fashionable garment with an in-depth exploration of its multifaceted role today on both the street and the catwalk. Through case studies covering historical advertising campaigns, fashion magazines, interviews with contemporary kimono designers, large scale and small craft producers, and consumers who choose to wear them, *The Social Life of Kimono* gives a unique insight into making and meaning of this complex garment.

Everything you need to know to live in sync with your menstrual cycle. We're taught not to discuss periods in public. Society doesn't celebrate the menstrual cycle. Instead we say it's 'that time of the month' when 'Aunt Flo is visiting' and we've 'got the painters in'. But the truth is that it can be bloody hard living in a body that bleeds once a month. Have you ever stuffed a tampon up your sleeve on your way to the office bathroom? Avoided eye contact with the cashier as you paid for your sanitary pads? Felt overwhelmed, exhausted and annoyed by your hormones? Well, you are not alone. It's time we started speaking up about our menstrual cycles, and now everyone's friendly neighbourhood period coach, Claire Baker, is here to start the conversation!

"Chris Bobel is a careful ethnographer, respectful of research participants, and while she clearly takes a stand on menstrual activism, she handily defends her proposition that feminism is 'finding its balance between reliving its past and creating its future.' Bobel's work, which includes incisive analysis of how third-wave, activists incorporate and update tactics and strategies of the second wave, will be a welcome addition to the scholarship of feminism." Elizabeth Kissling, author of *Capitalizing on the Curse: The Business of Menstruation* *New Blood* offers a fresh interdisciplinary look at feminism-in-flux. For over three decades, menstrual activists have questioned the safety and necessity of feminine care products while contesting menstruation as a deeply entrenched taboo. Chris Bobel shows how a little-known yet enduring force in the feminist health, environmental, and consumer rights movements lays bare tensions between second and third-wave feminisms and reveals a complicated story of continuity and change within the women's movement. Bobel focuses on debates central to feminist thought (including the utility of the category "gender") and the challenges to building an inclusive feminist movement. Filled with personal narratives, playful visuals, and original humor, *New Blood* reveals middle-aged progressives communing in Red Tents, urban punks and artists "culture jamming" commercial menstrual products in their zines and sketch comedy, queer anarchists practicing DIY health care, African American health educators espousing "holistic womb health," and hopeful mothers refusing to pass on the shame to their pubescent daughters. With verve and conviction, Bobel illuminates today's feminism-on-the-ground---indisputably vibrant, contentious, and ever-dynamic.

View our feature on Sharon Maxwell's *The Talk*. A groundbreaking resource to help jump start an ongoing discussion between parents and teens about sex and sexuality Internet chat rooms, boy/girl sleepovers, reality TV . . . there's more to "the talk" than ever before. Faced with a culture that pushes our kids to be "sexy" before puberty begins, how do we explain the power of sexuality in a way that promotes healthy, age-appropriate behavior? *The Talk* is a breakthrough resource for parents and educators that prepares kids for a hypersexualized world and lays the foundation for ethical sexual behavior that can guide our children from elementary school through college. Using real-life situations, Dr. Sharon Maxwell demonstrates how dramatically the world of preteen and teen sexual exploration has changed. She helps parents think through the message they want to give to their kids about sexual behavior, and how that message must evolve as their kids get older. Focusing on the importance of love and intimacy, Dr. Maxwell helps parents define their values about sex and gives concrete ways to share those values with teens. *The Talk* shows parents how to: *Set family guidelines for safe Internet use *Address the social power that comes from looking sexy, and the personal responsibility each of us has to use that power appropriately *Discuss the moral aspects of sexuality in ways teens will understand *Help children recognize the difference between feelings of sexual desire and love *Develop principles with our teens that will help them figure out when it's okay to be sexual with someone and when it's not Dr. Maxwell connects the dots between reproduction, the potent power of sexiness, sexual desire, emotional intimacy, and the spiritual dimension of sexuality. Offering an innovative framework for looking at human sexuality, this book has the potential to change the national conversation on sex education.
