

## Harrison Internal Medicine 19th Edition

This highly readable and thoroughly researched volume offers an excellent account of the development of seven Balkan peoples during the nineteenth and the first part of the twentieth centuries. Professors Charles and Barbara Jelavich have brought their rich knowledge of the Albanians, Bulgarians, Croatians, Greeks, Romanians, Serbians, and Slovenes to bear on every aspect of the area's history--political, diplomatic, economic, social and cultural. It took more than a century after the first Balkan uprising, that of the Serbians in 1804, for the Balkan people to free themselves from Ottoman and Habsburg rule. The Serbians and the Greeks were the first to do so; the Albanians, the Croatians, and the Slovenes the last. For each people the national revival took its own form and independence was achieved in its own way. The authors explore the contrasts and similarities among the peoples, within the context of the Ottoman Empire and Europe.

Harrison's Principles of Internal Medicine 19/E (Vol.1 & Vol.2) (ebook)McGraw Hill Professional

Harrison's Principles of Internal Medicine, 15/e: Self-Assessment and Board Review is a very successful Q&A review book, developed for self-assessment and examination preparation. This edition has been reorganized to mimic the exact organization of Harrison's Principles of Internal Medicine, 15/e eg the part names. The number of questions has increased from 822 to 900. In addition, all except type questions have been eliminated since these are no longer found on the boards' recertification exams. Critical Care Pharmacotherapeutics presents information on the fundamentals of critical care practice from a pharmacist's point of view. This accessible text is an excellent introduction to critical care pharmacy. Pharmacy students, residents, and new pharmacists will learn about the medications used and approaches to pharmaceutical care for the critically ill patient. This text is also a helpful reference for students during an ICU advanced practice experience or for a pharmacy resident during an ICU rotation.
