Protégé of design legend Massimo Vignelli and partner in the New York office of the international design firm Pentagram, Michael Bierut has had one of the most varied careers of any living graphic designer. The projects he presents in this book illustrate the breadth of activity that graphic design encompasses today, his goal being to demonstrate not a single ideology, but the enthusiastically eclectic approach that has been a hallmark of his career. Each project is told in Bierut's own entertaining voice and shown through historic images, preliminary drawings (including full-size reproductions of the notebooks he has maintained for over thirty-five years), working models and rejected alternatives, as well as the finished work. Along the way, he provides insights into the creative process, his working life, his relationship with clients, and the struggles that any design professional faces in bringing innovative ideas to the world today. This revised and expanded edition of Bierut's bestselling monograph features new projects for major clients, such as Mastercard and The Poetry Foundation. Inspiring, informative and authoritative, *How to...* is a bible of graphic design ideas.

A behind-the-scenes look at the extraordinary and meticulous design of graphic objects for film sets. Although graphic props such as invitations, letters, tickets, and packaging are rarely seen close-up by a cinema audience, they are designed in painstaking detail. Dublin-based designer Annie Atkins invites readers into the creative process behind her intricately designed, rigorously researched, and visually stunning graphic props. These objects may be given just a fleeting moment of screen time, but their authenticity is vital and their role is crucial: to nudge both the actors on set and the audience just that much further into the fictional world of the film. The ultimate source for beginning professionals, working professionals looking to make a change, and entrepreneurs wanting to go out on their own, this friendly guide details every business aspect of commercial graphic design, including how to:

- Create a portfolio
- Make initial contacts
- Develop a financial plan
- Set up an office
- Acquire supplies and equipment
- Price your own work
- Market on the Web
- Nurture a growing freelance business

Stan Carlisle is working as a carny, and he wonders how a man could fall so low. There's no way in hell, he vows, that anything like that will ever happen to him. And since Stan is clever and ambitious and not without a useful streak of ruthlessness, soon enough he's going places. Onstage he plays the mentalist with a cute assistant (before long his harried wife), then he graduates to full-blown spiritualist, catering to the needs of the rich and gullible in their well-upholstered homes. It looks like the world is Stan's for the taking. At least for now.

Helping graphic designers find professional and spiritual support in the ever-demanding struggle to stay creative and profitable, this book reveals how some of today's most successful and intriguing designers keep growing as artists and as people with the power to affect public attitudes. Topics addressed include how to keep track of one's vision, the meaning of success, what sustains designers spiritually, and how to embrace change and stay fluid. Also provided is priceless peer advice on strategic issues such setting a goal for one's company, growing or shrinking a business, and promoting one's uniqueness.

What graphic design is, what designers need to know, and who becomes a designer have all evolved as the computer went from being a tool to also becoming our primary medium for communication. How jobs are advertised and how prospective

candidates communicate with prospective employers have changed as well, as has the culture and context for many workplaces, requiring new approaches for how to find your first (and last) position. Through clear prose, a broad survey of contexts where designers find themselves in the present day, and interviews with designers, *The AIGA Guide to Careers in Graphic and Communication Design* is an invaluable resource for finding your place in this quickly changing and growing field. The book includes interviews with over 40 designers at all levels working in-house and out-of-house in studios, consultancies, or alone, including: Nicholas Blechman, *The New Yorker*; Rob Giampietro, Google; Njoki Gitahi, IDEO; Hilary Greenbaum, Whitney Museum; Holly Gressley, Vox Media; Cemre Güngör, Facebook; Natasha Jen, Pentagram; Renda Morton, *The New York Times*; and Alisa Wolfson, Leo Burnett Worldwide.

A Toolkit for Visual Literacy in the 21st Century *A New Program for Graphic Design* is the first communication-design textbook expressly of and for the 21st century. Three courses--Typography, Gestalt and Interface--provide the foundation of this book. Through a series of in-depth historical case studies (from Benjamin Franklin to the Macintosh computer) and assignments that progressively build in complexity, *A New Program for Graphic Design* serves as a practical guide both for designers and for undergraduate students coming from a

range of other disciplines. Synthesizing the pragmatic with the experimental, and drawing on the work of Max Bill, György Kepes, Bruno Munari and Stewart Brand (among many others), it builds upon mid- to late-20th-century pedagogical models to convey contemporary design principles in an understandable form for students of all levels--treating graphic design as a liberal art that informs the dissemination of knowledge across all disciplines. For those seeking to understand and shape our increasingly networked world of information, this guide to visual literacy is an indispensable tool. David Reinfurt (born 1971), a graphic designer, writer and educator, reestablished the Typography Studio at Princeton University and introduced the study of graphic design. Previously, he held positions at Columbia University Graduate School of Architecture, Planning and Preservation, Rhode Island School of Design and Yale University School of Art. As a cofounder of O-R-G inc. (2000), Dexter Sinister (2006) and the Serving Library (2012), Reinfurt has been involved in several studios that have reimagined graphic design, publishing and archiving in the 21st century. He was the lead designer for the New York City MTA Metrocard vending machine interface, still in use today. His work is included in the collections of the Walker Art Center, Whitney Museum of American Art, Cooper Hewitt National Design Museum and the Museum of Modern Art. He is the co-author of Muriel Cooper (MIT Press, 2017), a book about the pioneering designer.

Typography The best-selling *Thinking with Type* in a revised and expanded second edition: *Thinking with Type* is the definitive guide to using typography in visual communication. Ellen Lupton provides clear and focused guidance on how letters, words, and paragraphs should be aligned, spaced, ordered, and shaped. The book covers all typography essentials, from typefaces and type families, to kerning and tracking, to using a grid. Visual examples show how to be inventive within systems of typographic form, including what the rules are, and how to break them. This revised edition includes forty-eight pages of new content with the latest information on:

- style sheets for print and the web
- the use of ornaments and captions
- lining and non-lining numerals
- the use of small caps and enlarged capitals
- mixing typefaces
- font formats and font licensing

Plus, new eye-opening demonstrations of basic typography design with letters, helpful exercises, and dozens of additional illustrations. *Thinking with Type* is the typography book for everyone: designers, writers, editors, students, and anyone else who works with words. If you love font and lettering books, Ellen Lupton's guide reveals the way typefaces are constructed and how to use them most effectively. Fans of *Thinking with Type* will love Ellen Lupton's new book *Extra Bold: A Feminist, Inclusive, Anti-racist, Nonbinary Field Guide for Graphic Designers*.

This guidebook addresses the concerns of young designers who want to earn a living by doing expressive and meaningful work, but want to avoid becoming a hired drone working on soulless projects. It offers straight-talking advice on how to establish your design career and practical suggestions for running a successful business.

This book offers a rare chance to read what graphic designers feel about their education and profession. Fifty influential designers give the low-down about their student days and their professional lives. A piece of their college work is shown alongside an example of current work. Each designer also offers a key piece of advice and a warning, making this a must-read for anyone embarking on a career in design. The book looks at the process a designer goes through in finding their 'voice'. Topics addressed include how ideas are researched and developed; design and other cultural influences, then and now; positive and negative aspects of working as a designer; motivations for becoming a designer; and whether it's really possible to teach design. Contributors include Stefan Sagmeister, James Goggin, Karlssonwilker, Studio Dumbar, Cornel Windlin, Daniel Eatock, Spin, Hyperkit and Christian Küsters.

Presents a comprehensive history of graphic design and printing, from 1700 to 1914.

visual challenges to demonstrate how typography, signage, posters, and branding work. Through a series of games and activities, including spot the difference, matching games, drawing, and dot-to-dot, readers are introduced to concepts and techniques in an engaging and interactive way. Further explanation and information is provided by solution pages and a glossary, and a loose-leaf section contains stickers, die-cut templates, and colored paper to help readers complete the activities. Illustrated with typefaces, posters, and pictograms by distinguished designers including Otl Aicher, Pierre Di Sciullo, Otto Neurath and Gerd Arntz, the book will be enjoyed both by graphic designers, and anyone interested in finding out more about visual communication.

Graphic Design School allows students to develop core competencies while understanding how these fundamentals translate into new and evolving media. A company's visual identity - as it appears in everything from business stationery and brochures, to product packaging and websites - is central to a company's impact on the market. It's the first impression a prospective customer gets: but for many businesses, design is seen as a 'necessary evil', best avoided, but if that's not possible, then best done cheaply. This down-to-earth, succinct handbook will show you why you should choose your designer as carefully as you would choose a new, senior member of staff; why good design need not cost any more than bad design; what the difference is between a 'brief' and a 'briefing'; how to stop design budgets spiralling out of control; how to conduct tenders; how

to get the best from your designers; how to handle approvals; and how to judge design concepts. It is packed with practical advice and guidance that is just as applicable to a new-business start-up as it is to a multinational organisation. A special fiftieth anniversary edition of Kurt Vonnegut's masterpiece, "a desperate, painfully honest attempt to confront the monstrous crimes of the twentieth century" (Time), featuring a new introduction by Kevin Powers, author of the National Book Award finalist *The Yellow Birds* Selected by the Modern Library as one of the 100 best novels of all time *Slaughterhouse-Five*, an American classic, is one of the world's great antiwar books. Centering on the infamous World War II firebombing of Dresden, the novel is the result of what Kurt Vonnegut described as a twenty-three-year struggle to write a book about what he had witnessed as an American prisoner of war. It combines historical fiction, science fiction, autobiography, and satire in an account of the life of Billy Pilgrim, a barber's son turned draftee turned optometrist turned alien abductee. As Vonnegut had, Billy experiences the destruction of Dresden as a POW. Unlike Vonnegut, he experiences time travel, or coming "unstuck in time." An instant bestseller, *Slaughterhouse-Five* made Kurt Vonnegut a cult hero in American literature, a reputation that only strengthened over time, despite his being banned and censored by some libraries and schools for content and language. But it was precisely those elements of Vonnegut's writing—the political edginess, the genre-bending inventiveness, the frank violence, the transgressive wit—that have inspired generations of readers not just to look differently at the world around them but to find the confidence to say something about it. Authors as wide-ranging as Norman Mailer, John Irving, Michael Crichton, Tim O'Brien, Margaret Atwood, Elizabeth Strout, David Sedaris, Jennifer Egan, and J. K. Rowling have all found inspiration in

Vonnegut's words. Jonathan Safran Foer has described Vonnegut as "the kind of writer who made people—young people especially—want to write." George Saunders has declared Vonnegut to be "the great, urgent, passionate American writer of our century, who offers us . . . a model of the kind of compassionate thinking that might yet save us from ourselves." Fifty years after its initial publication at the height of the Vietnam War, Vonnegut's portrayal of political disillusionment, PTSD, and postwar anxiety feels as relevant, darkly humorous, and profoundly affecting as ever, an enduring beacon through our own era's uncertainties. "Poignant and hilarious, threaded with compassion and, behind everything, the cataract of a thundering moral statement."—The Boston Globe

Revised and updated, this compelling collection of essays, interviews, and course syllabi is the ideal tool to help teachers and students keep up in the rapidly changing field of graphic design. Top designers and educators talk theory, offer proposals, discuss a wide range of educational concerns—such as theory versus practice, art versus commerce, and classicism versus postmodernism—and consider topics such as emerging markets, shifts in conventions, global impact, and social innovation. Building on the foundation of the original book, the new essays address how graphic design has changed into an information-presenting, data-visualization, and storytelling field rooted in art and technology. The forward-thinking course syllabi are designed for the increasingly specialized needs of undergraduate and graduate students. Personal anecdotes from these designers about their own educations, their mentors, and their students make this an entertaining and illuminating idea book. The book features writing from: Lama Ajeenah, Roy R. Behrens, Andrew Blauvelt, Max Bruinsma, Chuck Byrne, Moira Cullen, Paula J.
