"In February 1965, novelist and 'poet of the Black Freedom Struggle' James Baldwin and political commentator and father of the modern American conservative movement William F. Buckley met in Cambridge Union to face-off in a televised debate. The topic was 'The American Dream is at the expense of the American Negro.' Buccola uses this momentous encounter as a lens through which to deepen our understanding of two of the most important public intellectuals in twentieth century American thought. The book begins by providing intellectual biographies of each debater. As Buckley reflected on the civil rights movement, he did so from the perspective of someone who thought the dominant norms and institutions in the United States were working quite well for most people and that they would eventually work well for African-Americans. From such a perspective, any ideology, personality, or movement that seems to threaten those dominant norms and institutions must be deemed a threat. Baldwin could not bring himself to adopt such a bird's eye point of view. Instead, he focused on the 'inner lives' of those involved on all sides of the struggle. Imagine what it must be like, he told the audience at Cambridge, to have the sense that your country has not 'pledged its allegiance to you?' Buccola weaves the intellectual biographies of these two larger-than-life personalities and their fabled debate with the dramatic history of the civil rights movement that includes

a supporting cast of such figures as Robert Kennedy, Martin Luther King Jr., Malcolm X, Lorraine Hansberry, and George Wallace. Buccola shows that the subject of their debate continues to have resonance in our own time as the social mobility of blacks remains limited and racial inequality persists"--

Dale Carnegie, author of the legendary How to Win Friends and Influence People, began his career as the premier "life coach" of the twentieth century by teaching the art of public speaking. Public speaking, as Carnegie saw it, is a vital skill that can be attained through basic and repeated steps. His classic volume on the subject appeared in 1926 and was revised twice—in shortened versions—in 1956 and 1962. This 2006 revision—edited by a longtime consultant to Dale Carnegie & Associates, Inc., and the editor in charge of updating How to Win Friends and Influence People—is the definitive one for our era. While up-to-date in its language and points of reference, Public Speaking for Success preserves the full range of ideas and methods that appeared in the original: including Carnegie's complete speech and diction exercises, which follow each chapter, as the author originally designated them. This edition restores Carnegie's original appendix of the three complete self-help classics: Acres of Diamonds by Russell H. Conwell, As a Man Thinketh by James Allen, and A Message to Garcia by Elbert Hubbard. Carnegie included these essays in his original edition because, although they do not directly relate to public speaking, he felt they would be of great value to the readers. Here is the definitive update of the best-loved public-speaking book of all time.

Since its initial publication, How to Win Friends and Influence People has sold a total of 15 million copies. The book continues to sell briskly today, but Carnegie never anticipated the ways in which the digital age would provide new tools and challenges for winning friends and influencing people. The advent of social networking sites, the dominance of email, and the ways in which the Internet has supplanted face-to-face interactions have made Carnegie's precepts all the more immediate and vital. Brent

Cole, working in tandem with Dale Carnegie & Associates, Inc., has reimagined the original book for the digital age, updating and reframing Carnegie's insights about communication, self expression, and leadership.
