Between the 1960s and the early '80s Italy went crazy for the 'fumetti sexy', a genre of comics with a unique brand of twisted humour, violence, and up-front sensuality. Wilder and weirder than you can imagine, they were some of the most outrageous and shocking comics ever produced. One of the most accomplished and prolific fumetti cover artists was Alessandro Biffignandi, whose artworks featured horror, fantasy and sci-fi elements. This book collects some of the sexiest and most provocative examples of his work, which is highly coveted by collectors today.

The authors explore the convergence of dramatic theory, theatrical practice, and various modes of audience experience that contributed to the emergence of 'public sphere(s)' across early modern Europe -- and in Asia.

"You either love Andrea Camilleri or you haven't read him yet. Each novel in this wholly addictive, entirely magical series, set in Sicily and starring a detective unlike any other in crime fiction, blasts the brain like a shot of pure oxygen. Aglow with local color, packed with flint-dry wit, as fresh and clean as Mediterranean seafood — altogether transporting. Long live Camilleri, and long live Montalbano." A.J. Finn, #1 New York Times bestselling author of *The Woman in the Window* Inspector Salvatore Montalbano wakes from strange dreams to find a gruesomely bludgeoned horse carcass in front of his seaside home. When his men came to investigate, the carcass has disappeared, leaving only a trail in the sand. Then his home is ransacked and the inspector is certain that the crimes are linked. As he negotiates both the glittering underworld of horseracing and the Mafia's connection to it, Montalbano is aided by his illiterate housekeeper, Adelina, and a Proustian memory of linguette fritte. Longtime fans and new readers alike will be charmed by Montalbano's blend of unorthodox methods, melancholy self-reflection, and love of good food. Stylish and dark, the BBC series the 'Peaky Blinders' is set in the backstreets of Birmingham after the First World War and tells of the rise to power of Thomas Shelby and his criminal gang. Yet the real stories behind these fictional characters are just as dramatic, bloody and compelling as the TV series. Thomas Shelby's arch enemy Billy Kimber was in real life a Brummie from Summer Lane. He was a feared fighter with an astute mind and magnetic personality which earned him the leadership of the Birmingham Gang that dominated the highly profitable protection rackets of the racecourses of England. The members of this gang had once been 'sloggers' or 'peaky blinders' and their rise to supremacy was attributable to their viciousness and to Kimber's shrewd alliances with other gangs. But they soon incurred the envy of the Sabini Gang of London who fought violently to oust Kimber and his men and take over their rackets. The Birmingham Gang battled back fiercely in the infamous and blood-stained racecourse wars of the 1920s. This Birmingham Gang led by Billy Kimber were the Real Peaky Blinders and this is their story.

Temples are the most prestigious buildings in the urban landscape of ancient Italy, emerging within a network of centres of the then-known Mediterranean world. Notwithstanding the fragmentary condition of the buildings' remains, these monuments – and especially their richly decorated roofs – are crucial sources of information on the constitution of political, social and craft identities, acting as agents in displaying the meaning of images. The subject of this volume is thematic and includes material from the Eastern Mediterranean (including Greece and Turkey). Contributors discuss the network between patron elites and specialized craft communities that were responsible for the sophisticated terracotta decoration of temples in Italy between 600 and 100 BC, focusing on the mobility of craft people and craft traditions and techniques, asking how images, iconographies, practices and materials can be used to explain the organization of ancient production, distribution and consumption. Special attention has been given to relations with the Eastern Mediterranean (Greece and Anatolia). Investigating craft communities, workshop organizations and networks has never been thoroughly undertaken for this period and region, nor for this exceptionally rich category of materials, or for the craftspeople producing the architectural terracottas. Papers in this volume aim to improve our understanding of roof production and construction in this period, to reveal relationships between main production centres, and to study the possible influences of immigrant craftspeople.

In 1935, as the artists and animators at the Disney Studio toiled on the animated feature film *Snow White and the Seven Dwarfs*, Walt and Roy Disney traveled with their wives to New York and boarded the luxury liner *Normandie* to begin their

"grand tour" of Europe. With the full cooperation of Walt's late daughter Diane Disney Miller, Didier Ghez spent years researching this seminal but little-known event that became so vital to the continued growth of the Disney company right through the creation of Disneyland two decades later. His book, *Disney's Grand Tour*, is the culmination of that research. In addition to the many "small and delightful surprises" that noted animation historian (and author of *The Animated Man: A Life of Walt Disney*) Michael Barrier mentions in his preface to the book, *Disney's Grand Tour* features over 200 notes for those inclined to dig deeper into the story. It also contains a list of the hundreds of books that Walt personally selected in Europe for transfer back to the Disney Studio library. These books inspired Disney artists and animators for decades. So pack your bags. The Normandie whistle blows. Embark with Walt Disney and join him on a grand tour of Europe!

You have to laugh. It is a tragedy in three movements: *The Thighs*, *The Dick*, *The Fame* and a counter-movement: *Italy*. An actress creates a physical and vocal mask challenging a provocative, scandalous and beastly text. Words might be sung, howled and shrieked but a chant never emerges. In her naked physicality she tells a personal story in an unbroken flow of thoughts/words rendered as sounds and movement. The deafening screams being choked. Appeased. Imploded. This female onstage offers herself up in a feast, ready to be torn apart by anyone. A poetic piece born of the flesh that returns to the flesh, captured in a tightly-sealed aesthetic. Applause required. *The Shit* is driven by a desperate attempt to pull ourselves out of the mud, the latest products of the cultural genocide aptly described by Pasolini since the modern consumer society began taking form. A totalitarianism, according to Pasolini, even more repressive than the one of the Fascist era, because it's capable of crushing us softly. *Si deve ridere. E' una tragedia in tre tempi: Le Cosce, Il Cazzo, La Fama e un controtempo: L'Italia.* Nella sua nudità e intimità pubblica, l'attrice costruisce una maschera fisica/vocale sfidando un testo scandaloso, provocatorio e rabbioso. La scrittura è cantabile, ma il canto non emerge mai, ed è invece preponderante la chiave dell'invettiva, del grido, del corpo che sussulta la sua storia personale in un flusso di pensieri/parole raccontati come suoni. Strazianti. Urla assordanti e contratte. Sopite. Implose. La femmina si offre dal vivo come in un banchetto, pronta a venire sbranata da tutti. Una partitura poetica che nasce così dalla carne e alla carne ritorna, pur dentro a una rigidissima confezione estetica. Applausi obbligatori. *La Merda* ha come spinta propulsiva il disperato tentativo di districarsi da un pantano o fango, ultimi prodotti di quel genocidio culturale di cui scrisse e parlò Pier Paolo Pasolini all'affacciarsi della società dei consumi. Quel totalitarismo, secondo Pasolini, ancor più duro di quello fascista poiché capace di annientarci con dolcezza. Since its world premiere in Milan in 2012, *#LaMerda*, written by Cristian Ceresoli and embodied by Silvia Gallerano, has brought its poetic and shocking stream of consciousness on the human condition around the world with sell-out seasons in Edinburgh, London, Berlin, Copenhagen, Adelaide and across Italy (where a subtle censorship is still applied), winning six major international awards including the coveted Scotsman Fringe First Award for Writing Excellence and The Stage Award for Best Performance. The play has already been translated and produced in Italian, English, Brazilian Portuguese, Danish, Spanish and Czech, and will shortly be translated into German and French.

The writings of John Stuart Mill have become the cornerstone of political liberalism. Collected for the first time in this volume are Mill's three seminal and most widely read works: *On Liberty*, *The Subjection of Women*, and *Utilitarianism*. A brilliant defense of individual rights versus the power of the state, *On Liberty* is essential reading for anyone interested in political thought and theory. As Bertrand Russell reflected, "On Liberty remains a classic . . . the present world would be better than it is, if [Mill's] principles were more respected." This Modern Library Paperback Classics edition includes newly commissioned endnotes and commentary by Dale E. Miller, and an index.

The latest installment of the popular mystery series finds the moody Inspector Montalbano with no time to wax philosophical before the gruesome murder of a man shot at pointblank range in the face with his pants down commands his attention.

Attempts to define what comics are and explain how they work have not always been successful because they are premised upon the idea that comic strips, comic books and graphic novels are inherently and almost exclusively visual. This book challenges that premise, and asserts that comics is not just a visual medium. The book outlines the multisensory aspects of comics: the visual, audible, tactile, olfactory and gustatory elements of the medium. It rejects a synaesthetic approach (by which all the senses are

engaged through visual stimuli) and instead argues for a truly multisensory model by which the direct stimulation of the reader's physical senses can be understood. A wide range of examples demonstrates how multisensory communication systems work in both commercial and more experimental contexts. The book concludes with a case study that looks at the works of Alan Moore and indicates areas of interest that multisensory analysis can draw out, but which are overlooked by more conventional approaches.

Technological pedagogical content knowledge (TPCK) reflects a new direction in understanding the complex interactions among content, pedagogy, learners and technology that can result in successful integration of multiple technologies in teaching and learning. The purpose of this edited volume is to introduce TPCK as a conceptual framework for grounding research in the area of teachers' cognitive understanding of the interactions of technology with content, pedagogy and learner conceptions. Accordingly, the contributions will constitute systematic research efforts that use TPCK to develop lines of educational technology research exemplifying current theoretical conceptions of TPCK and methodological and pedagogical approaches of how to develop and assess TPCK.

Great Britain in the 1970s appeared to be in terminal decline—ungovernable, an economic train wreck, and rapidly headed for global irrelevance. Three decades later, it is the richest and most influential country in Europe, and Margaret Thatcher is the reason. The preternaturally determined Thatcher rose from nothing, seized control of Britain's Conservative party, and took a sledgehammer to the nation's postwar socialist consensus. She proved that socialism could be reversed, inspiring a global free-market revolution. Simultaneously exploiting every politically useful aspect of her femininity and defying every conventional expectation of women in power, Thatcher crushed her enemies with a calculated ruthlessness that stunned the British public and without doubt caused immense collateral damage. Ultimately, however, Claire Berlinski agrees with Thatcher: There was no alternative. Berlinski explains what Thatcher did, why it matters, and how she got away with it in this vivid and immensely readable portrait of one of the towering figures of the twentieth century.

The Bloomsbury Handbook of Sound Art explores and delineates what Sound Art is in the 21st century. Sound artworks today embody the contemporary and transcultural trends towards the post-apocalyptic, a wide sensorial spectrum of sonic imaginaries as well as the decolonization and deinstitutionalization around the making of sound. Within the areas of musicology, art history, and, later, sound studies, Sound Art has evolved at least since the 1980s into a turbulent field of academic critique and aesthetic analysis. Summoning artists, researchers, curators, and critics, this volume takes note of and reflects the most recent shifts and drifts in Sound Art--rooted in sonic histories and implying future trajectories.

"Unlike Freud, I do not claim that religion is just an illusion and a source of neurosis. The time has come to recognize, without being afraid of 'frightening' either the faithful or the agnostics, that the history of Christianity prepared the world for humanism." So writes Julia Kristeva in this provocative work, which skillfully upends our entrenched ideas about religion, belief, and the thought and work of a renowned psychoanalyst and critic. With dialogue and essay, Kristeva analyzes our "incredible need to believe"--the inexorable push toward faith that, for Kristeva, lies at the heart of the psyche and the history of society. Examining the lives, theories, and convictions of Saint Teresa of Avila, Sigmund Freud, Donald Winnicott, Hannah Arendt, and other individuals, she investigates the intersection between the desire for God and the shadowy zone in which belief resides. Kristeva suggests that human beings are formed by their need to believe, beginning with our first attempts at speech and following through to our adolescent search for identity and meaning. Kristeva then applies her insight to contemporary religious clashes and the plight of immigrant populations, especially those of Islamic origin. Even if we no longer have faith in God, Kristeva argues, we must believe in human destiny and creative possibility. Reclaiming Christianity's openness to self-questioning and the search for knowledge, Kristeva urges a "new kind of politics," one that restores the integrity of the human community.

This book is the first to establish the relevance of same-sex desires, pleasures and anxieties in the cinema of post-war Italy. It explores cinematic representations of homosexuality and their significance in a wider cultural struggle in Italy involving society, cinema, and sexuality between the 1940s and 1970s. Besides tracing the evolution of representations through both art and popular films, this book also analyses connections with consumer culture, film criticism and politics. Giori uncovers how complicated negotiations between challenges to and valorization of dominant forms of knowledge of homosexuality shaped representations and argues that they were not always the outcome of hatred but also sought to convey unmentionable pleasures and complicities. Through archival research and a survey of more than 600 films, the author enriches our understanding of thirty

years of Italian film and cultural history.

This book sheds new light on the role of the military in Italian society and culture during war and peacetime by bringing together a whole host of contributors across the interdisciplinary spectrum of Italian Studies. Divided into five thematic units, this volume examines the continuous and multifaceted impact of the military on modern and contemporary Italy. The Italian context offers a particularly fertile ground for studying the cultural impact of the military because the institution was used not only for defensive/offensive purposes, but also to unify the country and to spread ideas of socio-cultural and technological development across its diverse population.
