Social intelligence is defined as the ability to be aware of relevant social situational contexts; to deal with the contexts or challenges effectively; to understand others' concerns, feelings, and emotional states; and to interact appropriately in social situations and build and maintain positive relationships with others. Intelligence, Sustainability, and Strategic Issues in Management analytically discusses this concept within administrative and entrepreneurial managerial business environments. The volume opens with a study of academic department chairs' social intelligence and faculty members' satisfaction with annual evaluation of teaching and research at a US university. The seven other articles cover a range of topics, including a neurocognitive model of entrepreneurial opportunity, ownership dilution, sustainability in inventory management, the role of status in imitative behaviour, the negative impacts of embeddedness, product quality failures in international sourcing, and employers' use of social media in employment decisions. In addition to the articles, the volume also features a case study, "From Social Entrepreneur to Social Enterprise," a research note, "Reducing Job Burnout through Effective Conflict Management Strategy," five book reviews, and a list of books received.

The fields of Economic Geography and International Business share an interest in the same phenomena, whilst each provides both a differing perspective and different research methods in attempting to understand those phenomena. The Routledge Companion to the Geography of International Business explores the nature and scope of inter-disciplinary work between Economic Geography and International Business in explaining the central issues in the international economy. Contributions written by leading specialists in each field (including some chapters written by inter-disciplinary teams) focus on the nature of multinational firms and their strategies, where they choose to locate their activities, how they create and manage international networks and the key relationships between multinationals and the places where they place their operations. Topics covered include the internationalisation of service industries, the influence of location on the competitiveness of firms and the economic dynamism of regions and where economic activity takes place and how knowledge, goods and services flow between locations. The book examines the areas for fruitful inter-disciplinary work between International Business and Economic Geography and sets out a road map for future joint research, and is an essential resource for students and practitioners of International Business and Economic Development.

4LTR Press solutions give students the option to choose the format that best suits their learning preferences. This option is perfect for those

Remarkable change is the new reality of International Business. The accelerating cross-border flow of products, services, capital, ideas, technology and people are driving businesses--large and small--to internationalise. International Business 1st Australasian edition: the New Realities is a rigorous resource which motivates and prepares future managers to operate in multi-national settings, by delivering a teaching system that works. Based on the authors' collective teaching and working experience—as well as discussions with practitioners, students, and faculty staff—this is a complete teaching and learning system where cases, exercises and management skill builders are seamlessly integrated and matched to the topics in each chapter. Case studies from a wide variety of markets relevant to Australasian businesses, including ASEAN countries (e.g. Singapore, Malaysia, Indonesia) as well as China, India, Japan, South Korea, Pakistan, Europe and the Middle East, provide a real-world perspective to theories and examine the latest trends in international business. For undergraduate students majoring in international business or post-graduate courses in international business.

Discover both sides of international business and how to prepare for the future. GLOBAL STRATEGIC MANAGEMENT, 2e International Edition, doesn't just show you what it's like for foreign businesses entering a new market; it reveals what domestic companies must do to survive foreign competition. Easy to read and full of study tools, GLOBAL STRATEGIC MANAGEMENT, helps you prepare for your exams and for your next job.

This comprehensive overview of international business is divided into various business functions, making it clear and easy to understand. In every chapter "Culture Quest Insights" into culture, geography, and business lead readers to a multi-media experience of a certain country or region that provides useful information on the impact of culture on business. Cases specific to each region or country add to the total reading experience. Topics covered include: the world's marketplaces, the international environment, managing international business and business operations. For CEOs, managers, and other executives who need to understand the cultural mores of the global societies with which they do business.

For the past two decades, Michael Porter's work has towered over the field of competitive strategy. On Competition, Updated and Expanded Edition brings together more than a dozen of Porter's landmark articles from the Harvard Business Review. Five are new to this edition, including the 2008 update to his classic "The Five Competitive Forces That Shape Strategy," as well as new work on health care, philanthropy, corporate social responsibility, and CEO leadership. This collection captures Porter's unique ability to bridge theory and practice. Each of the articles has not only shaped thinking, but also redefined the work of practitioners in its respective field. In an insightful new introduction, Porter relates each article to the whole of his thinking about competition and value creation, and traces how that thinking has deepened over time. This collection is organized by topic, allowing the reader easy access to the wide range of Porter's work. Parts I and II present the frameworks for which Porter is best known--frameworks that address how companies, as well as nations and regions, gain and sustain competitive advantage. Part III shows how strategic thinking can address society's most pressing challenges, from environmental sustainability to improving health-care delivery. Part IV explores how both nonprofits and corporations can create value for society more effectively by applying strategy principles to philanthropy. Part V explores the link between strategy and leadership.

A concise but thorough review of essential concepts and techniques. The Cavusgil/Knight/Riesenberger author team's new textbook A Framework of International Business concentrates on new realities in international business, emerging markets, and small and medium-sized

enterprises.

This book probes into the workings of business strategies in former socialist countries in East Asia, Central and Eastern Europe and the newly independent states of the former Soviet Union, which are collectively called 'transition economies'. It provides a rich and in-depth understanding of fundamental, strategic issues confronted by domestic and foreign firms competing in these newly developed markets. The world's best-selling global business strategy text, Peng's GLOBAL STRATEGY, 5E uses a reader-friendly approach to help you master principles of strategic management from a truly global perspective. This edition emphasizes strategy around the globe using evidence-driven explanations with the latest research. A conversational style emphasizes the story behind the stories, while encouraging discussion. Timely debates address strategic issues, such as globalization versus de-globalization, offshoring versus non-offshoring and social media freedom of speech versus censorship. You also examine building an antitrust case against Big Tech and reducing income inequality via corporate social responsibility (CSR). Lively strategy-in-action boxes and numerous cases -- including brief, to-the-point integrative cases written with today's time-starved students in mind -- present current topics in every chapter.

Perfect for instructors who take a practical, skill-building approach to teaching leadership, the seventh edition of LEADERSHIP provides an ideal balance of essential theory and real-world applications. Andrew DuBrin, a highly respected author and consultant, incorporates the latest research on leadership and current business practices from academic journals and popular periodicals. The text provides students with a strong practical foundation by introducing leaders they can relate to and reinforcing their knowledge with frequent skill-building activities. Key updates include new opening vignettes and end-of-chapter cases, numerous additional skill-building exercises, and video discussion questions at the end of each chapter. An all-new CourseMate interactive study tool site features additional video content, premium quizzing, and links to both the Career Transitions job search tool and Cengage's KnowNOW blog, which is constantly updated and provides an intuitive view of current events. This book examines emerging theories, frameworks, and applications of global marketing for the 21st century. It highlights how global marketing is changing in a globalized and digital economy that is fast increasing in complexity and uncertainty. The traditional approach to global marketing is no longer sufficient to address the emerging issues in global markets. Global companies need to challenge traditional assumptions in global marketing in an era of shifting political, cultural, economic, and technological changes. They need to take a fresh look at the contemporary threats and opportunities in markets, institutions, and technology and how they affect entry and expansion strategies through careful re-calibration of the marketing-mix. This book offers new insights for global marketing that addresses these issues. This book should be an ideal resource to both academic scholars and reflective practitioners globally such as CEOs and chief marketing officers as well as government officials and policy makers interested in formulating strategies/policies for global marketing activities in the face of a globalized and digitized economy. This well-crafted research volume is an excellent addition to the growing literature on new trends in international marketing. The authors present the latest insight on the impact of phenomena such as cross-border e-commerce and digital markets, and they discuss new tools for political risk assessment, international branding and more broadly the reconfiguring of marketing-mix strategies – A powerful reminder that the new global market remains a rugged landscape. - Alain Verbeke, McCaig Research Chair in Management and Editor-in-Chief Journal of International Business Studies, University of Calgary, Canada. Emerging trends in institutions, markets, and

societies, along with new technological advances, are redefining the scope and strategy in global marketing. Professors Agarwal and Wu have assembled a remarkable collection of cutting-edge topics and issues that capture the shifting paradigm and contemporary developments in the global marketing field. This is an informative and timely resource that makes a valuable contribution, useful for both scholars and business practitioners of global marketing. - Constantine S. Katsikeas, Arnold Ziff Endowed Research Chair in Marketing & International Management, Editor-in-Chief Journal of International Marketing, University of Leeds, UK. This book presents new and cutting-edge thinking at a time when the traditional views of international marketing need to be scrapped. Convergence forces are creating new opportunities as well as threats on a daily basis, and marketing practitioners as well as scholars must be forewarned as well as forearmed on how to deal with these changes. The real growth is coming from the emerging nations, and the theories that provided sufficient insights ten years ago have been completely outmoded by the ever-accelerating rate of innovation and technological change as well as the pressures to address the needs of all of the firm's relevant stakeholders. The strategic insights provided here are absolutely invaluable. Don't miss an opportunity to read this book!! - John B. Ford, Professor of Marketing & International Business, Eminent Scholar & Haislip-Rohrer Fellow, Editor-in-Chief, Journal of Advertising Research, Old Dominion University, USA.

From Heidi Neck, one of the most influential thinkers in entrepreneurship education today, Chris Neck, an award-winning professor, and Emma Murray, business consultant and author, comes this ground-breaking new text. Entrepreneurship: The Practice and Mindset catapults students beyond the classroom by helping them develop an entrepreneurial mindset so they can create opportunities and take action in uncertain environments. Based on the world-renowned Babson Entrepreneurship program, this new text emphasizes practice and learning through action. Students learn entrepreneurship by taking small actions and interacting with stakeholders in order to get feedback, experiment, and move ideas forward. Students walk away from this text with the entrepreneurial mindset, skillset, and toolset that can be applied to startups as well as organizations of all kinds. Whether your students have backgrounds in business, liberal arts, engineering, or the sciences, this text will take them on a transformative journey.

This volume is excellent. Students who are interested in Asian business should read it and will find the comprehensive bibliography offered by the different contributors very helpful. In light of the recent global financial crises, it is time to re-examine the Asian miracles, as well as the Western models of business organizations and regulations. This volume offers great insights not just on Asian business but also on Western economies and business. It is also time to adopt an integrative approach recommended by Yeung through comparative research of businesses and economies in different institutions and cultures. Yifei Sun, Economic Geography An absolute must-have for college library reference shelves, filled cover-to-cover with keen analyses that any businessperson seeking to make inroads in an Asian market needs to study at length! Midwest Book Review This book serves as an important guide to the many fascinating research questions about Asian business waiting to be addressed. The study of Asian business has reached equality in importance to the study of business in Europe and North America. Researchers who study any of these regions have an incentive to follow the study of business in the other regions, if for no other reason than that many global firms from each region operate in all regions now. Nonetheless, the more important reason for knowledge transfer

among researchers of each region is that these exchanges can only advance everyone's research. Henry Yeung and the contributors are to be thanked for setting out a rich agenda for research on Asian business that will elevate this study to equality with research elsewhere in the world. Eurasian Geography and Economics This book is extremely comprehensive and well researched. It will be of particular interest to scholars in the fields of international business, development studies, economic geography, regional studies as well as international and national policymakers. Science Technology & Society The rise of Asia as an important region for global business has been widely recognized as one of the most significant economic phenomena in the new millennium. This accessible and comprehensive Handbook brings together state-of-the-art reviews of Asian business in an expansive range of areas including: business organizations strategic management marketing state business relations business and development business policy issues. It is argued that whilst academic studies on Asian business have been in existence for over two decades, there is relatively little systematic integration of our knowledge and research on Asian business. The contributors, drawn from a variety of disciplines within the social sciences, aim to redress the balance with their lively, cutting-edge discussion. Serving as a timely overview of more than two decades of scholarly research, this Handbook will be an essential resource for academics, students and researchers interested in Asian business.

Mike Peng and Klaus Meyer have direct, first-hand, experience of researching and teaching in Europe, Asia and North America. This combined experience makes them uniquely qualified to write this textbook, which offers a comprehensive and accessible introduction to international business that starts from Europe but ultimately encompasses the globe. The text's comprehensive coverage is accessibly arranged around one central question and two core perspectives. The central question is a what determines the success and failure of firms around the globe? Institutional and resource-based perspectives are utilised to answer this question. Throughout the text the very latest scholarly research is used to facilitate successful learning of the key concepts, in order to engage students with the historical context and recent global developments. International Business has been shortlisted for the 2011/12 CMI Management Book of the Year award in the ebook category. More information about the CMI and the competition can be found here <http://yearbook.managers.org.uk/index5.htm>.

The limited number of global or international strategy textbooks almost exclusively focuses on how to manage larger, multinational enterprises (MNEs), which primarily come from and compete in developed economies. While MNEs are important, such a focus ignores the fact (1) that many smaller, entrepreneurial firms have also aggressively internationalized recently and (2) that MNEs often have to compete in emerging economies, which increasingly nurture strong local competitors. Most mainstream strategic management textbooks, while seeming to address the hot theme of globalization, contain only one chapter on international strategy. Finally, most international business textbooks do have a section (containing several chapters) on international strategy. However, they always carry a wider coverage of major business functions such as marketing, operations, finance, and accounting, making them unwieldy. GLOBAL STRATEGY is written to offer a number of new perspectives. These include (1) a broadened definition of global strategy, (2) a comprehensive and innovative coverage, (3) an in-depth and consistent explanation of cutting-edge research, and (4) an interesting and accessible way to engage students. In this book, global strategy is defined not as MNE strategy only, but as strategy around the globe. Most global strategy and international business textbooks take the perspective of the foreign entrant, typically the MNE, often dealing with issues such as how to enter foreign markets. Important as these issues are, they only cover one side of international business, namely, the foreign side. The other side, naturally, is how domestic firms compete against each other and against foreign entrants. Failing to understand the other side, at best, captures only one side of the coin.

What determines the success or failure of U.S. export intermediary firms, and how well (or badly) have they been doing? Have they really lowered the transaction costs for their clients, minimized agency costs, and acquired competitive capabilities in world trade? These questions, until now unasked and unanswered, are the critical ones studied by Mike Peng, based on his unique set of empirical research findings. Employing a combination of qualitative and quantitative methods, Peng provides definitive answers to these and other questions. His book will be an important resource for entrepreneurs and manufacturing executives seeking export intermediary services, government officials in charge of export promotion, and scholars and researchers throughout the field of international business and trade.

Verbeke provides a new perspective on international business strategy by combining analytical rigour and true managerial insight on the functioning of large multinational enterprises (MNEs). With unique commentary on 48 seminal articles published in the Harvard Business Review, the Sloan Management Review and the California Management Review over the past three decades, Verbeke shows how these can be applied to real businesses engaged in international expansion programmes, especially as they venture into high-distance markets. The second edition has been thoroughly updated and features greater coverage of emerging markets with a new chapter and seven new cases. Suited for advanced undergraduates and graduate courses, students will benefit from updated case studies and improved learning features, including 'management takeaways', key lessons that can be applied to MNEs and a wide range of online resources.
