

Irving Penn A Career In Photography

In *Photography After Frank*, former New York Times writer and picture editor Philip Geffer presents the tale of contemporary photography, starting with a pivotal moment: Robert Franks seminal work in the 1950s. Along the way, he connects the dots of photography's transformation into what it is today. Geffer begins with Franks' challenge to the notion of photography's objectivity with the grainy, off-handed spontaneity of *The Americans*. Next comes the staged document and postmodernism's further challenge to image fidelity. Other themes are photojournalism, the diversity of portraiture, the influence of private and corporate collections on curatorial decisions, and how the market shapes art making. Throughout the book, Geffer deftly connects Franks' legacy with the work of dozens of important individual artists who followed in his wake, from Lee Friedlander and Nan Goldin to Stephen Shore and Ryan McGinley. The book includes texts written exclusively for this publication as well as essays drawn from Geffer's critical writings, reviews, and even obituaries. *Photography After Frank* offers a page-turning yet journalistic approach bound to appeal to students and artworld aficionados, alike.

A vibrant, unconventional, highly opinionated guide to the triumphs, joys, struggles, and heartbreaks of the modern era of the game, for every obsessive basketball fan who loves to hate hot takes *The Joy of Basketball* celebrates the meteoric rise of basketball over the last quarter century by ignoring the bland, traditionalist binary of wins or losses. Instead, the book's focus is on everything else. Using text, charts, and illustrations that upend conventional jock wisdom, the book details the most incredible players in history, draft flops, long-limbed oddballs, superteams, the international talent wave, brawls, scandals, the rapid evolution of contemporary gameplay, coaching, fashion, crime, positional erosion, tragic tales, memes, and the sacred Kardashian Blessing. Bouncing between witty graphics and keen sociopolitical observations, *The Joy of Basketball* is a subversive sports manifesto camouflaged as a colorful reference book for your coffee table.

Sir Elton John, musician and philanthropist, has built one of the greatest private collections of photography in the world. This book presents an unparalleled selection of modernist images, which introduce a crucial moment in the history of photography when artists were beginning to use the camera and darkroom to redefine and transform visions of the modern world. Technological advancements gave artists the freedom to experiment and test the limits of the medium enabling new imaginings of portraits, nudes and still lifes; and street life and the modern world was captured from a new, uniquely modern perspective. Showcasing only original vintage prints by the artists themselves, the book features key figures from the 1920s to 1950s, such as Brassai, Andre Kertesz, Dorothea Lange, Tina Modotti, Man Ray, Edward Steichen and Alexander Rodchenko. Also includes a newly commissioned interview with Sir Elton John and essays on modernist photography and technology and innovation by Dawn Ades and Shoair Mavlian. "

Introduction to studio portrait photography by John Cornicello

A stirring defense of liberalism against the dogmatism of our time from an award-winning and New York Times bestselling author. Not since the early twentieth century has liberalism, and liberals, been under such relentless attack, from both right and left. The crisis of democracy in our era has produced a crisis of faith in liberal institutions and, even worse, in liberal thought. *A Thousand Small Sanities* is a manifesto rooted in the lives of people who invented and extended the liberal tradition. Taking us from Montaigne to Mill, and from Middlemarch to the civil rights movement, Adam Gopnik argues that liberalism is not a form of centrism, nor simply another word for free markets, nor merely a term denoting a set of rights. It is something far more ambitious: the search for radical change by humane measures. Gopnik shows us why liberalism is one of the great moral adventures in human history -- and why, in an age of autocracy, our lives may depend on its continuation. One of fashion's most iconic redheads pens a moving coming-of-age story chronicling her professional and personal metamorphosis. At age eighteen, she took the fashion world by storm in a captivating *Vogue Italia* cover image by Steven Meisel. She's walked runways for Alexander McQueen, Chanel, Valentino, and Gucci and starred in countless campaigns. She's released two full-length albums. And she's advocated for model rights in the workplace. For sure, Karen Elson has emerged as a tour de force in the worlds of fashion and entertainment over her two decade-long career. For the first time, the British supermodel presents a poignant look into her life and work in book form. Exquisitely written, this tome details her childhood in a gritty industrial town in Northern England and her rise to fame as one of fashion's most unique faces to her evolution as a singer-songwriter and her thoughts on body image and the state of fashion up until the present day.

Accompanied by legendary images by such photographers as Craig McDean, Annie Leibovitz, and Mert and Marcus, Elson's poetic--and at times haunting--prose brims with an intimacy that most fans have never encountered before. With contributions by Edward Enninful, Tim Walker, and Grace Coddington, this beautifully crafted book is a powerful glimpse into the many sides and fiery spirit of one of the greatest muses of our time.

Presents a collection of photographs by the iconic American artist, whose career as a fashion and fine art photographer spanned a period of thirty years until his untimely death from AIDS in 2002.

While working as a graphic artist in New York, Irving Penn made these drawings before ever taking his first photograph. Originally intended to accompany a short fable, this collection, made from 1939 to 1942, lay dormant until they were uncovered in 1996. Shortly later, Penn gave these drawings new life in a tale about distant space travelers planning a journey to Earth. Pencil renderings depict the benevolent astronauts

and their space travel apparatus of cylinders, tubes, funnels, and spouts in this simple yet zen-like tale of exploration. The deluxe production of this book is consistent with Penn's renown for using the finest materials for his photographic work. Handsomely printed on heavy-weight paper, this clothbound, French-fold edition is a unique creation by one of the great artists of our time.

In a collaborative performance between artist and model, internationally renowned photographer Irving Penn has produced a remarkable set of portraits of voluptuous dancer Alexandra Beller. With 27 tritone plates.

Approximately one hundred prints explore cultural attitudes toward female beauty, appearance, and self-expression by such notable photographers as Edward Steichen, Annie Leibovitz, Steven Klein, and Helmut Newton.

A native of Japan, Ishimoto studied photography at the Institute of Design in Chicago from 1948 through 1952, and photographed in Chicago during 1959-61. His distinguished career in Japan would, by itself, make him worthy of American attention, but his work holds the double fascination that, even at its most Japanese, his American influence remains obvious. In *The Grey Ghost: New York City Photographs*, Dan Winters turns his eye to New York City, collecting over 100 black-and-white images he created there in the years after moving to New York from California in 1987 at the age of 25. A highly personal collection, *The Grey Ghost* reveals an artist finding his voice, discovering "that elusive method that informs the manner in which we perceive and interpret our surroundings." In these photographs-- featuring icons of New York City such as the Statue of Liberty and the Empire State Building, as well as everyday moments captured on the street--we find Winters presenting us with the seemingly ordinary and commonplace in a way that captivates us and makes us look much more closely. As Winters writes, New York "has acted as a proving ground and a right of passage for countless photographers," beginning with Alfred Stieglitz and Paul Strand. For those interested in street photography, New York City, black-and-white imagery, or the earlier work of one of today's most compelling photographers, *The Grey Ghost* is a must-have addition to your photobook collection.

One of the most distinguished practitioners of portrait and fashion photography of the mid-twentieth century, Irving Penn's work is identified by its refinement of craft, by the wit and grace of its formal invention, and by its sensitivity to the quality and character of light. Backed by *Vogue* magazine, Penn brought a classic economy and concentration to the overblown world of fashion photography, to portraits of artists, writers, and theater people, and to ethnographic studies of style and ornament in little-known corners of West Africa, Nepal, Peru, and New Guinea. This book, published in conjunction with an exhibition at The Museum of Modern Art, is the first comprehensive retrospective of Penn's work. The essay by John Szarkowski follows a brilliant career, from its art-school beginnings to the provocative still lifes, photographs of cigarette butts and street detritus--works of eloquence and classical rectitude, made from the least consequential of subject matter.--From publisher description.

In this book Yousuf Karsh, whose great photographic portraits have revealed so vividly the outstanding personalities of our time, writes about his own life and work. It is the story of an Armenian immigrant boy who rose to be the world's finest portrait photographer, whose pictures, reproduced in newspapers, magazines, and books, and shown in museums, art galleries and exhibitions, have been admired by hundreds of thousands of people all over the world. Of his early years in Armenia, Karsh gives a brief but compelling account, writing without bitterness but not sparing the reader the impact on his youthful mind of the brutalities, massacres, and atrocities of that time. The dramatic impression made on him by his first experiences as a young citizen of Sherbrooke, Quebec. His several years of study in Boston with the famous photographer, Garo, show the gradual development of his ideas and skills in portraiture. In 1932, Karsh opened his own studio in Ottawa, capital city of Canada, and there he met Solange Gauthier, the volatile, charming, and practical Frenchwoman whom he married. Together they established his world-wide reputation. Karsh takes the reader with him to his sittings, and shows how he seeks to bring out the essence of the personalities he is portraying. The reader accompanies Karsh and Madam Karsh as they travel to Washington, New York, Hollywood, across Canada and to the Arctic, and on their European tours, photographing and interviewing statesmen, tycoons, artists, actors, musicians, popes, presidents, and kings. At Karsh's side, the reader hears Churchill's lion roar, the wit of Bernard Shaw, the bark of John L. Lewis, the profound accents of Einstein. He observes the grave serenity of Sibelius, and hears the noble 'cello of Casals. He shares in the problems and disappointments of securing adequate reproduction of the portraits in book form, and in the artist's gratification when *Portraits of Greatness*, printed by the finest gravure for the University of Toronto Press, appeared in 1959 and the magnificent volume became an immediate best-seller. Yousuf's profession has led him into the high places of the world, and this book is enriched by his twenty years of observation of the celebrities he has encountered. These are the experiences of a distinguished artist, a gifted raconteur, and a delightful human being.

Essays by Melville J. Herskovits, Frances S. Herskovits, and Jacques Maquet. Introduction by Anne Wilkes Tucker.

Little known to followers of his publications and exhibitions, Irving Penn made drawings throughout his illustrious photography career. Many of the drawings collected here have not been shown before, and were done privately and intermittently. Following his studies under Alexey Brodovitch at the Philadelphia Museum School of Industrial Art, Penn continued drawing even after his photography career began. He drew both as a way of exploring ideas for photographs and for making complete drawings on their own. Penn made use of photographic transfer techniques as the base for complex painted images. Using pencil, ink, watercolor, and platinum, the drawings have remarkably rich surfaces and varieties of texture. Elegantly published on fine paper, printed in stochastic color and bound in linen, *Drawings* adds a further dimension to Irving Penn's distinguished body of work.

The definitive retrospective of America's preeminent photographer. This book reveals for the first time Penn's own view of his extraordinary and diverse career. Accompanied by his fascinating and insightful commentaries and examples of his portraits, still lifes, and fashion drawings. Printed in 11 colors with 468 black-and-white and color plates.

The first definitive biography of Richard Avedon, a monumental photographer of the twentieth century, from award-winning photography critic Philip Gefter. In his acclaimed portraits, Richard Avedon captured the iconic figures of the twentieth century in his starkly bold, intimately minimal, and forensic visual style. Concurrently, his work for Harper's Bazaar and Vogue transformed the ideals of women's fashion, femininity, and culture to become the defining look of an era. Yet despite his driving ambition to gain respect in the art world, during his lifetime he was condescendingly dismissed as a "celebrity photographer." *What Becomes a Legend Most* is the first definitive biography of this luminary—an intensely driven man who endured personal and professional prejudice, struggled with deep insecurities, and mounted an existential lifelong battle to be recognized as an artist. Philip Gefter builds on archival research and exclusive interviews with those closest to Avedon to chronicle his story, beginning with Avedon's coming-of-age in New York between the world wars, when cultural prejudices forced him to make decisions that shaped the course of his life. Compounding his private battles, Avedon fought to be taken seriously in a medium that itself struggled to be respected within the art world. Gefter reveals how the 1950s and 1960s informed Avedon's life and work as much as he informed the period. He counted as close friends a profoundly influential group of artists—Leonard Bernstein, Truman Capote, James Baldwin, Harold Brodkey, Renata Adler, Sidney Lumet, and Mike Nichols—who shaped the cultural life of the American twentieth century. It wasn't until Avedon's fashion work was exhibited at the Metropolitan Museum of Art in the late 1970s that he became a household name. Balancing glamour with the gravitas of an artist's genuine reach for worldly achievement—and not a little gossip—plus sixteen pages of photographs, *What Becomes a Legend Most* is an intimate window into Avedon's fascinating world. Dramatic, visionary, and remarkable, it pays tribute to Avedon's role in the history of photography and fashion—and his legacy as one of the most consequential artists of his time.

"As an incredible tenth-anniversary reworking of Douglas Kirkland's original best-selling collection, *Freeze Frame: Second Cut* offers readers a closer look at the award-winning photographer's greatest images. This new edition includes additional photographs, from the year 2000 to the present, along with recollections of individual interactions between photographer and subject -- both on set and in private one-on-one contexts"--Jacket.
