

## Kreutzer Galamian

The volume includes a general introduction, instruction for the individual exercises, a general index and an index of musical examples. In this long-awaited publication, Professor Mark Bjork draws upon his distinguished 40+-year career with the Suzuki Method to offer insights into the unique strengths and needs of the Suzuki-trained student. Directed towards parents and advanced students as well as teachers, this book discusses not only technical development (scales, etudes, exercises) but also the process of working independently and the preparation for life beyond Book 8 (including orchestra, chamber music, competitions and college auditions). Special bonus: an annotated list of repertoire explores in depth the spectrum well beyond that of the beginner, culled from the experience of a teacher who has successfully taught students from the age of 2 1/2 years to the university graduate level.

"In a brief moment in time, Michael Rabin left an indelible impression on the world of classical music. His few recordings survive on the Columbia, EMI, and Angel labels, and he holds the distinction of recording, at age twenty-two, all the Paganini caprices, in the process setting the standard by which subsequent violinists would be judged."--BOOK JACKET.

This DMA document presents ten new études based on the 42 Études by Rodolphe Kreutzer. Kreutzer's Études are extremely useful to violin teachers globally, as evidenced by the fact that they have been used in many parts of the world since Kreutzer first composed them in 1796. Some modern violinists and pedagogues, such as Ivan Galamian and Max Rostal, have modified them for their own teaching purposes. In the same manner, I have expanded and modified ten of the 42 Études to enhance their pedagogical value. I accomplished this by increasing the number of technical problems addressed in each étude. This approach was taken as it is easier to learn new aspects of technique through a piece that is already familiar to the player. This document demonstrates the practical applications of these études in teaching by linking them to specific examples from the violin repertoire. Jan H\_mal\_ (1844-1915) was an influential Czech violinist and teacher, associated with Moscow Conservatory for 46 years.

These are his progressive scale studies in 10 sections.
