

Lone Survivor The Incredible True Story Of Navy Seals Under Siege

In late June 2005, media sources recounted the tragic story of nineteen U.S. special operations personnel who died at the hands of insurgent / terrorist leader Ahmad Shah- and the lone survivor of Shah's ambush-deep in the Hindu Kush Mountains of Afghanistan. The harrowing events of Operation Red Wings marked an important-yet widely misreported-chapter in the Global War on Terror, the full details of which the public burned to learn. In Victory Point, globally published author and photographer Ed Darack reveals the complete, as-yet untold, story of Operation Red Wings (often mis-referenced as "Operation Redwing"), and the follow-on mission, Operation Whalers. Together, these two U.S. Marine Corps operations (that in the case of Red Wings utilized Navy SEALs for its opening phase) unfurl not as a mission gone terribly wrong, but of a complex and difficult campaign that ultimately saw the demise of Ahmad Shan and his small army of barbarous fighters. Due to the valor, courage and commitment of the 2nd Battalion of the 3rd Marine Regiment in the summer of 2005, Afghanistan was able to hold free elections that Fall. Here is the inspiring true account of heroism, duty, and brotherhood between Marines fighting the War on Terror. Patrick Robinson, coauthor of the #1 New York Times bestseller Lone Survivor and "preeminent writer of modern naval fiction" (The Florida Times Union) shares the gripping untold story of Mohammed Gulab, the Afghani warrior who defied the Taliban and saved the life of American hero and Navy SEAL Marcus Luttrell. Bestselling author Patrick Robinson helped Marcus Luttrell bring his harrowing story of survival to the page and the big screen with Lone Survivor. But the Afghani man who saved his life was always shrouded in mystery. Now, with The Lion of Sabray, Robinson reveals the amazing backstory of Mohammed Gulab—the brave man who forever changed the course of life for his Afghani family, his village, and himself when he discovered Luttrell badly injured and barely conscious on a mountainside in the Hindu Kush just hours after the firefight that killed the rest of Luttrell's team. Operating under the 2,000-year-old principles of Pashtunwali—the tribal honor code that guided his life—Gulab refused to turn Luttrell over to the Taliban forces that were hunting him, believing it was his obligation to protect and care for the American soldier. Because Gulab was a celebrated Mujahedeen field commander and machine-gunner who beat back the Soviets as a teenager, the Taliban were wary enough that they didn't simply storm the village and take Luttrell, which gave Gulab time to orchestrate his rescue. In addition to Gulab's brave story, The Lion of Sabray cinematically reveals previously unknown details of Luttrell's rescue by American forces—which were only recently declassified—and sheds light on the ramifications for Gulab, his family, and his community. Going beyond both the book and the movie versions of Lone Survivor, The Lion of Sabray is a must-read for anyone who wants to know more about the brave man who helped the Lone Survivor make it home.

Experience a Life-Changing Vision of Heaven

A riveting story of American fighting men, Outlaw Platoon is Lieutenant Sean Parnell's stunning personal account of the legendary U.S. Army's 10th Mountain Division's heroic stand in the mountains of Afghanistan. Acclaimed for its vivid, poignant, and honest recreation of sixteen brutal months of nearly continuous battle in the deadly Hindu Kesh, Outlaw Platoon is a Band of Brothers or We Were Soldiers Once and Young for the early 21st century—an action-packed, highly emotional true story of enormous sacrifice and bravery. A magnificent account of heroes, renegades, infidels, and brothers, it stands with Sebastian Junger's War as one of the most important books to yet emerge from the heat, smoke, and fire of America's War in Afghanistan.

From Beau Wise and Tom Sileo comes Three Wise Men, an incredible memoir of family, service and sacrifice by a Marine who lost both his brothers in combat--becoming the only "Sole Survivor" during the war in Afghanistan. Shortly after the 9/11 attacks, three brothers by blood became brothers in arms when each volunteered to defend their country. No military family has sacrificed more during the ensuing war, which has become the longest ever fought by America's armed forces. While serving in Afghanistan, US Navy SEAL veteran and CIA contractor Jeremy Wise was killed in an al Qaeda suicide bombing that devastated the US intelligence community. Less than three years later, US Army Green Beret sniper Ben Wise was fatally wounded after volunteering for a dangerous assignment during a firefight with the Taliban. Ben was posthumously awarded the Silver Star, while Jeremy received the Intelligence Star—one of the rarest awards bestowed by the U.S. government—and also a star on the CIA's Memorial Wall. United States Marine Corps combat veteran Beau Wise is the only known American service member to be pulled from the battlefield after losing two brothers in Afghanistan. Told in Beau's voice, Three Wise Men is an American family's historic true story of service and sacrifice.

Now with a forward by Sean Hannity, this powerful story of brotherhood, bravery, and patriotism exposes the true stories behind some of the Army's darkest secrets. The Army does not want you to read this book. It does not want to advertise its detention system that coddles enemy fighters while putting American soldiers at risk. It does not want to reveal the new lawyered-up Pentagon war ethic that prosecutes U.S. soldiers and Marines while setting free spies who kill Americans. This very system ambushed Captain Roger Hill and his men. Hill, a West Point grad and decorated combat veteran, was a rising young officer who had always followed the letter of the military law. In 2007, Hill got his dream job: infantry commander in the storied 101st Airborne. His new unit, Dog Company, 1-506th, had just returned stateside from the hell of Ramadi. The men were brilliant in combat but unpolished at home, where paperwork and inspections filled their days. With tough love, Hill and his First Sergeant, an old-school former drill instructor named Tommy Scott, turned the company into the top performers in the battalion. Hill and Scott then led Dog Company into combat in Afghanistan, where a third of their men became battlefield casualties after just six months. Meanwhile, Hill found himself at war with his own battalion commander, a charismatic but difficult man who threatened to relieve Hill at every turn. After two of his men died on a routine patrol, Hill and a counterintelligence team busted a dozen enemy infiltrators on their base in the violent province of Wardak. Abandoned by his high command, Hill suddenly faced an excruciating choice: follow Army rules the way he always had, or damn the rules to his own destruction and protect the men he'd grown to love.

In this riveting account, journalist Stanton recreates the miseries and triumphs of specially trained mounted U.S. soldiers, deployed in the war-ravaged Afghanistan mountains to fight alongside the Northern Alliance against the Taliban. Tall Premium Edition.

On November 23, 1942, German U-Boats torpedoed the British ship Benlomond and it sank in the Atlantic in two minutes. The sole survivor was a second steward named Poon Lim, who, with no knowledge of the sea, managed to stay alive for 133 days on a small wooden raft. Finally rescued at the mouth of the Amazon River, Poon was hailed as the "World's Champion Survivor." He still holds the Guinness World Record for survival at sea.

Armed with M1 rifles, bayonets, and a few hand grenades, young soldiers from different units, operating without command, come together as The Stragglers. Take a journey into the trenches in this fascinating true story of a group of misplaced soldiers fighting courageously as other American troops withdrew from the city of Chinju, South Korea. Charles C. Smith recalls the story of his seventeen-year-old self, the lone survivor from a battle that took place more than fifty years ago. A rag-tag group of soldiers solidifies as The Stragglers. As lives are lost, honor and courage are upheld.

Lone SurvivorThe Incredible True Story of Navy SEALs Under SiegeSphere

Peru, Christmas Eve, 1970. It was supposed to be a routine flight, carrying 86 passengers across the Andes Mountains and home for the holiday. But high above the Amazon rainforest, a roiling storm engulfs the plane. Lightning strikes. A deafening whoosh sweeps through the cabin. And suddenly, 17-year-old Juliane Koepcke is alone. The plane has vanished. She is strapped to her seat and plunging 3,500 feet to the forest floor. On Christmas Day, she wakes. She is injured, covered in mud, but strangely--miraculously--alive. And now, in a remote corner of the largest rainforest on Earth, the real battle for survival begins.

This is the story of fire team leader Marcus Luttrell, the sole survivor of Operation Redwing, and the desperate battle in the Afghanistan mountains in 2005, that led to the largest loss of life in Navy SEAL history.

This instant New York Times bestseller—"a jaw-dropping, fast-paced account" (New York Post) recounts SEAL Team Operator Robert O'Neill's incredible four-hundred-mission career, including the attempts to rescue "Lone Survivor" Marcus Luttrell and abducted-by-Somali-pirates Captain Richard Phillips, and which culminated in the death of the world's most wanted terrorist—Osama bin Laden. In *The Operator*, Robert O'Neill describes his idyllic childhood in Butte, Montana; his impulsive decision to join the SEALs; the arduous evaluation and training process; and the even tougher gauntlet he had to run to join the SEALs' most elite unit. After officially becoming a SEAL, O'Neill would spend more than a decade in the most intense counterterrorism effort in US history. For extended periods, not a night passed without him and his small team recording multiple enemy kills—and though he was lucky enough to survive, several of the SEALs he'd trained with and fought beside never made it home. "Impossible to put down...*The Operator* is unique, surprising, a kind of counternarrative, and certainly the other half of the story of one of the world's most famous military operations...In the larger sense, this book is about...how to be human while in the very same moment dealing with death, destruction, combat" (Doug Stanton, New York Times bestselling author). O'Neill describes the nonstop action of his deployments in Iraq and Afghanistan, evokes the black humor of years-long combat, brings to vivid life the lethal efficiency of the military's most selective units, and reveals details of the most celebrated terrorist takedown in history. This is "a riveting, unvarnished, and wholly unforgettable portrait of America's most storied commandos at war" (Joby Warrick).

Chronicles the life of Navy SEAL Team Six operator Adam Brown, a man whose heroism and devotion still stand as a beacon to his friends and family, even after his death in the Afghan Hindu Kush mountains in 2010.

Marcus Luttrell, author of the #1 bestseller *Lone Survivor*, share war stories about true American heroism from himself and other soldiers who bravely fought alongside him. Navy SEAL Marcus Luttrell returned from his star-crossed mission in Afghanistan with his bones shattered and his heart broken. So many had given their lives to save him -- and he would have readily done the same for them. As he recuperated, he wondered why he and others, from America's founding to today, had been willing to sacrifice everything—including themselves—for the sake of family, nation, and freedom. In *Service*, we follow Marcus Luttrell to Iraq, where he returns to the battlefield as a member of SEAL Team 5 to help take on the most dangerous city in the world: Ramadi, the capital of war-torn Al Anbar Province. There, in six months of high-intensity urban combat, he would be part of what has been called the greatest victory in the history of U.S. Special Operations forces. We also return to Afghanistan and Operation Redwing, where Luttrell offers powerful new details about his miraculous rescue. Throughout, he reflects on what it really means to take on a higher calling, about the men he's seen lose their lives for their country, and the legacy of those who came and bled before. A thrilling war story, *Service* is also a profoundly moving tribute to the warrior brotherhood, to the belief that nobody goes it alone, and no one will be left behind.

A Simon & Schuster eBook. Simon & Schuster has a great book for every reader.

A leading researcher on human evolution proposes a new and controversial theory of how our species came to be In this groundbreaking and engaging work of science, world-renowned paleoanthropologist Chris Stringer sets out a new theory of humanity's origin, challenging both the multiregionalists (who hold that modern humans developed from ancient ancestors in different parts of the world) and his own "out of Africa" theory, which maintains that humans emerged rapidly in one small part of Africa and then spread to replace all other humans within and outside the continent. Stringer's new theory, based on archeological and genetic evidence, holds that distinct humans coexisted and competed across the African continent—exchanging genes, tools, and behavioral strategies. Stringer draws on analyses of old and new fossils from around the world, DNA studies of Neanderthals (using the full genome map) and other species, and recent archeological digs to unveil his new theory. He shows how the most sensational recent fossil findings fit with his model, and he questions previous concepts (including his own) of modernity and how it evolved. *Lone Survivors* will be the definitive account of who and what we were, and will change perceptions about our origins and about what it means to be human.

The true story behind the events that inspired the major motion picture *Only the Brave*. A "unique and bracing" (Booklist) first-person account by the sole survivor of Arizona's disastrous 2013 Yarnell Hill Fire, which took the lives of 19 "hotshots"--firefighters trained specifically to battle wildfires. Brendan McDonough was on the verge of becoming a hopeless, inveterate heroin addict when he, for the sake of his young daughter, decided to turn his life around. He enlisted in the Granite Mountain Hotshots, a team of elite firefighters based in Prescott, Arizona. Their leader, Eric Marsh, was in a desperate crunch after four hotshots left the unit, and perhaps seeing a glimmer of promise in the skinny would-be recruit, he took a chance on the unlikely McDonough, and the chance paid off. Despite the crew's skepticism, and thanks in large part to Marsh's firm but loving encouragement, McDonough unlocked a latent drive and dedication, going on to successfully battle a number of blazes and eventually win the confidence of the men he came to call his brothers. Then, on June 30, 2013, while McDonough--"Donut" as he'd been dubbed by his team--served as lookout, they confronted a freak, 3,000-degree inferno in nearby Yarnell, Arizona. The relentless firestorm ultimately trapped his hotshot brothers, tragically killing all 19 of them within minutes. Nationwide, it was the greatest loss of firefighter lives since the 9/11 attacks. *Granite Mountain* is a gripping memoir that traces McDonough's story of finding his way out of the dead end of drugs, finding his purpose among the Granite Mountain Hotshots, and the minute-by-minute account of the fateful day he lost the very men who had saved him. A harrowing and redemptive tale of resilience in the face of tragedy, *Granite Mountain* is also a powerful reminder of the heroism of the people who put themselves in harm's way to protect us every day.

The unapologetic, laugh-your-ass-off military memoir both vets and civilians have been waiting for, from a five-tour Army Ranger turned YouTube phenomenon and zealous advocate for veterans--this is *Deadpool meets Captain America*, except one went to business school and one went to therapy, and it's anyone's guess which is which.hich.

The New York Times best selling book that takes you inside SEAL Team Six – the covert squad that killed Osama Bin Laden SEAL Team Six is a secret unit tasked with counterterrorism, hostage rescue, and counterinsurgency. In this dramatic, behind-the-scenes chronicle, Howard Wasdin takes readers deep inside the world of Navy SEALs and Special Forces snipers, beginning with the grueling selection process of Basic Underwater Demolition/SEAL (BUD/S)—the toughest and longest military training in the world. After graduating, Wasdin faced new challenges. First there was combat in Operation Desert Storm as a member of SEAL Team Two. Then the Green Course: the selection process to join the legendary SEAL Team Six, with a curriculum that included practiced land warfare to unarmed combat. More than learning how to pick a lock, they learned how to blow the door off its hinges. Finally as a member of SEAL Team Six he graduated from the most storied and challenging sniper program in the country: The Marine's Scout Sniper School. Eventually, of the 18 snipers in SEAL Team Six, Wasdin became the best—which meant one of the best snipers on the planet. Less than half a year after sniper school, he was fighting for his life. The mission: capture or kill Somali warlord Mohamed Farrah Aidid. From rooftops, helicopters and alleys, Wasdin hunted Aidid and killed his men whenever

possible. But everything went quickly to hell when his small band of soldiers found themselves fighting for their lives, cut off from help, and desperately trying to rescue downed comrades during a routine mission. The Battle of Mogadishu, as it became known, left 18 American soldiers dead and 73 wounded. Howard Wasdin had both of his legs nearly blown off while engaging the enemy. His dramatic combat tales combined with inside details of becoming one of the world's deadliest snipers make this one of the most explosive military memoirs in years.

THE NEW YORK TIMES BESTSELLER The only comprehensive, firsthand account of the fourteen-hour firefight at the Battle of Keating in Afghanistan by Medal of Honor recipient Clinton Romesha, for readers of *Black Hawk Down* by Mark Bowden and *Lone Survivor* by Marcus Luttrell. "It doesn't get better." To us, that phrase nailed one of the essential truths, maybe even the essential truth, about being stuck at an outpost whose strategic and tactical vulnerabilities were so glaringly obvious to every soldier who had ever set foot in that place that the name itself—Keating—had become a kind of backhanded joke." In 2009, Clinton Romesha and the rest of the Black Knight Troop were preparing to shut down Command Outpost (COP) Keating, the most remote and inaccessible in a string of bases built by the US military in Nuristan and Kunar in the hope of preventing Taliban insurgents from moving freely back and forth between Afghanistan and Pakistan. Three years after its construction, the army was finally ready to concede what the men on the ground had known immediately: it was simply too isolated and too dangerous to defend. On October 3, 2009, after years of constant smaller attacks, the Taliban finally decided to throw everything they had at Keating. The ensuing fourteen-hour battle—and eventual victory—cost eight men their lives. *Red Platoon* is the riveting firsthand account of the Battle of Keating, told by Romesha, who spearheaded both the defense of the outpost and the counterattack that drove the Taliban back beyond the wire and received the Medal of Honor for his actions.

The #1 New York Times bestselling memoir of U.S. Navy SEAL Chris Kyle, and the source for Clint Eastwood's blockbuster movie which was nominated for six academy awards, including best picture. From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

From the author of *The Ice Master* comes the remarkable true story of a young Inuit woman who survived six months alone on a desolate, uninhabited Arctic island. In September 1921, four young men and Ada Blackjack, a diminutive 25-year-old Eskimo woman, ventured deep into the Arctic in a secret attempt to colonize desolate Wrangel Island for Great Britain. Two years later, Ada Blackjack emerged as the sole survivor of this ambitious polar expedition. This young, unskilled woman—who had headed to the Arctic in search of money and a husband—conquered the seemingly unconquerable north and survived all alone after her male companions had perished. Following her triumphant return to civilization, the international press proclaimed her the female Robinson Crusoe. But whatever stories the press turned out came from the imaginations of reporters: Ada Blackjack refused to speak to anyone about her horrific two years in the Arctic. Only on one occasion—after charges were published falsely accusing her of causing the death of one of her companions—did she speak up for herself. Jennifer Niven has created an absorbing, compelling history of this remarkable woman, taking full advantage of the wealth of first-hand resources about Ada that exist, including her never-before-seen diaries, the unpublished diaries from other primary characters, and interviews with Ada's surviving son. *Ada Blackjack* is more than a rugged tale of a woman battling the elements to survive in the frozen north—it is the story of a hero.

The book that inspired the international film of the same name. "I remember reading *We Die Alone* in 1970 and I could never forget it. Then when we went to Norway to do a docudrama, people told us again and again that certain parts were pure fiction. Since I was a Norwegian that was not good enough; I had to find the truth. I sincerely believe we did," writes author Astrid Karlsen Scott. *The 12th Man* is the true story of Jan Baalsrud, whose struggle to escape the Gestapo and survive in Nazi-occupied Norway has inspired the international film of the same name. In late March 1943, in the midst of WWII, four Norwegian saboteurs arrived in northern Norway on a fishing cutter and set anchor in Toftefjord to establish a base for their operations. However, they were betrayed, and a German boat attacked the cutter, creating a battlefield and spiraling Jan Baalsrud into the adventure of his life. The only survivor and wounded, Baalsrud begins a perilous journey to freedom, swimming icy fjords, climbing snow-covered peaks, enduring snowstorms, and getting caught in a monstrous avalanche. Suffering from snowblindness and frostbite, more than sixty people of the Troms District risk their lives to help Baalsrud to freedom. Meticulously researched for more than five years, Karlsen Scott and Haug bring forth the truth behind this captivating, edge-of-your-seat, real-life survival story.

#1 NATIONAL BESTSELLER • "A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism." —*PEOPLE* A bank of clouds was assembling on the not-so-distant horizon, but journalist-

mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that "suggested that a murderous storm was bearing down." He was wrong. The storm, which claimed five lives and left countless more--including Krakauer's--in guilt-ridden disarray, would also provide the impetus for *Into Thin Air*, Krakauer's epic account of the May 1996 disaster. By writing *Into Thin Air*, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of *Into Thin Air* includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. "I have no doubt that Boukreev's intentions were good on summit day," writes Krakauer in the postscript, dated August 1999. "What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients." As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since *Into Thin Air*'s denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored *The Climb*, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters--a prestigious prize intended "to honor writers of exceptional accomplishment." According to the Academy's citation, "Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind."

With a postscript describing SEAL efforts in Afghanistan, *The Warrior Elite* takes you into the toughest, longest, and most relentless military training in the world. What does it take to become a Navy SEAL? What makes talented, intelligent young men volunteer for physical punishment, cold water, and days without sleep? In *The Warrior Elite*, former Navy SEAL Dick Couch documents the process that transforms young men into warriors. SEAL training is the distillation of the human spirit, a tradition-bound ordeal that seeks to find men with character, courage, and the burning desire to win at all costs, men who would rather die than quit.

A riveting, inspirational true story of an incredibly resilient woman who broke professional barriers as a Dutch banker, was the sole survivor of Vietnam Airlines Flight 474, found love after the loss of her fiancé, and continues to raise her autistic son, never wavering in her optimism. On the morning of November 14, 1992, Annette Herfkens, a top Dutch banker (and one of the few female international bond traders on Wall Street), packed her luggage for a romantic getaway with her longtime fiancé, Willem. At 6:25 that morning, Annette and Willem boarded the plane out of Ho Chi Minh City, with twenty-three other passengers and six crew members, excited to finally have a vacation together. Six minutes before landing, flying at speed of 300 miles per hour, the plane lost altitude and crashed along a mountain ridge in the jungle of Vietnam. At first Annette heard the voices of other passengers, but soon they went quiet. Annette was the only survivor. For eight days she lay injured and alone, with only rainwater to sustain her. Presumed dead, her obituary made it into local newspapers. What followed is an incredible story of survival, mystery, and the endurance of spirit. Even after surviving and learning to cope with her harrowing experience, Annette's biggest life challenge began years later, when her son Maxi was diagnosed with autism. As she weathered the joys and challenges of raising Maxi, Annette often called upon the profound insights she learned during those eight days, viewing every turbulent event in her life with the unflinching optimism of a true survivor. This is an inspiring account of one woman's journey and perseverance, as a plane-crash survivor and even more so as a devoted mother to her autistic son, but also of discovering strength and beauty in unexpected places.

Before *The Perfect Storm*, before *In the Heart of the Sea*, Steven Callahan's dramatic tale of survival at sea was on the New York Times bestseller list for more than thirty-six weeks. In some ways the model for the new wave of adventure books, *Adrift* is an undeniable seafaring classic, a riveting firsthand account by the only man known to have survived more than a month alone at sea, fighting for his life in an inflatable raft after his small sloop capsized only six days out. "Utterly absorbing" (*Newsweek*), *Adrift* is a must-have for any adventure library.

The Inside Story of America's Ultimate Warriors When Osama bin Laden was assassinated, the entire world was fascinated by the men who had completed the seemingly impossible mission that had dogged the U.S. government for over a decade. SEAL Team 6 became synonymous with heroism, duty, and justice. Only a handful of the elite men who make up the SEALs, the US Navy's best and bravest, survive the legendary and grueling selection process that leads to becoming a member of Team 6, a group so classified it technically does not even exist. There are no better warriors on Earth. Don Mann knows what it takes to be a brother in this ultra-selective fraternity. As a member of Seal Team Six for over eight years and a SEAL for over seventeen years, he worked in countless covert operations, operating from land, sea, and air, and facing shootings, decapitations, and stabbings. He was captured by the enemy and lived to tell the tale, and he participated in highly classified missions all over the globe, including Somalia, Panama, El Salvador, Colombia, Afghanistan, and Iraq. As a coordinator for several civilian SEAL training programs, and as a former Training Officer of

SEAL Team Six, he was directly responsible for shaping the bodies and minds of SEALs who carried out the assassination of Osama bin Laden. But to become a SEAL, Mann had to overcome his own troubled childhood and push his body to its breaking point--and beyond. *INSIDE SEAL TEAM 6* is a high octane narrative of physical and mental toughness, giving unprecedented insight to the inner workings of the training and secret missions of the world's most respected and feared combat unit.

Marcus Luttrell's blockbuster bestseller, *Lone Survivor*—soon to be a major motion picture—tells the story of Operation Red Wings, in which four U.S. Navy SEALs were inserted into the mountains of eastern Afghanistan with the task of collecting intelligence and finding—or killing—a top al Qaeda commander. The SEALs were ambushed by over one hundred Taliban fighters and a horrific battle ensued. The rescue helicopter carrying eight SEALs was shot down by a reported Rocket Propelled Grenade (RPG), killing them instantly and erasing any hope for the SEALs already on the ground. Luttrell was the only survivor. *OPERATION RED WINGS* is an in-depth examination of the recovery mission to rescue Luttrell, filled with never-before-told details and shocking new revelations. Author Peter Nealen (former USMC Force Recon) and the team at SOFREP have an expansive network within the Special Operations community, providing them with access to exclusive interviews, after action reports, military intel and previously untold accounts of the rescue mission. Nealen and his team have uncovered eyewitness reports that put the "official" story into question as to how the initial rescue helicopter was shot down. If true, this potential coverup will have had severe consequences on subsequent helicopter insertion operations and put lives at risk. Complete with a foreword by former Navy SEAL Brandon Webb, this is a must-have companion to the blockbuster book and upcoming film. (12,000 words)

The incredible true story of former Navy SEAL Mike Day, who survived being shot twenty-seven times while deployed in Iraq. On the night of April 6, 2007, in Iraq's Anbar Province, Senior Chief Mike Day, his team of Navy SEALs, and a group of Iraqi scouts were on the hunt for a high-level al Qaeda cell. Day was the first to enter a 12x12 room where four terrorist leaders were waiting in ambush. When the gunfight was over, he took out all four terrorists in the room, but not before being shot twenty-seven times and hit with grenade shrapnel. Miraculously, Day cleared the rest of the house and rescued six women and children before walking out on his own to an awaiting helicopter, which flew him to safety. While in the hospital, the Navy SEAL lost fifty-five pounds in two weeks. It took almost two years for Day to physically recover from his injuries, although he still deals with pain. Like so many veterans, doctors diagnosed Day with Post Traumatic Stress Disorder and Traumatic Brain Injury -- the invisible wounds of war. *Perfectly Wounded* is the remarkable story of an American hero whose incredible survival defies explanation, and whose blessed life of service continues in the face of unimaginable odds.

Traces the achievements of the World War II regiments under Felix Sparks, documenting their clashes with Hitler's elite troops in Sicily and Salerno and their heroic liberation of the Dachau concentration camp. By the best-selling author of *The Bedford Boys*. 60,000 first printing.

The inspiration for a major motion picture by Mark Wahlberg: A Navy SEAL's firsthand account of American heroism during a secret military operation in Afghanistan. On a clear night in late June 2005, four U.S. Navy SEALs left their base in northern Afghanistan for the mountainous Pakistani border. Their mission was to capture or kill a notorious al Qaeda leader known to be ensconced in a Taliban stronghold surrounded by a small but heavily armed force. Less than twenty-four hours later, only one of those Navy SEALs remained alive. This is the story of fire team leader Marcus Luttrell, the sole survivor of Operation Redwing, and the desperate battle in the mountains that led, ultimately, to the largest loss of life in Navy SEAL history. But it is also, more than anything, the story of his teammates, who fought ferociously beside him until he was the last one left--blasted unconscious by a rocket grenade, blown over a cliff, but still armed and still breathing. Over the next four days, badly injured and presumed dead, Luttrell fought off six al Qaeda assassins who were sent to finish him, then crawled for seven miles through the mountains before he was taken in by a Pashtun tribe, who risked everything to protect him from the encircling Taliban killers. A six-foot-five-inch Texan, Leading Petty Officer Luttrell takes us, blow by blow, through the brutal training of America's warrior elite and the relentless rites of passage required by the Navy SEALs. He transports us to a monstrous battle fought in the desolate peaks of Afghanistan, where the beleaguered American team plummeted headlong a thousand feet down a mountain as they fought back through flying shale and rocks. In this rich, moving chronicle of courage, honor, and patriotism, Marcus Luttrell delivers one of the most powerful narratives ever written about modern warfare -- and a tribute to his teammates, who made the ultimate sacrifice for their country.

Declared "the best survival book in a decade" by *Outside Magazine*, *438 Days* is the true story of the man who survived fourteen months in a small boat drifting seven thousand miles across the Pacific Ocean. On November 17, 2012, two men left the coast of Mexico for a weekend fishing trip in the open Pacific. That night, a violent storm ambushed them as they were fishing eighty miles offshore. As gale force winds and ten-foot waves pummeled their small, open boat from all sides and nearly capsized them, captain Salvador Alvarenga and his crewmate cut away a two-mile-long fishing line and began a desperate dash through crashing waves as they sought the safety of port. Fourteen months later, on January 30, 2014, Alvarenga, now a hairy, wild-bearded and half-mad castaway, washed ashore on a nearly deserted island on the far side of the Pacific. He could barely speak and was unable to walk. He claimed to have drifted from Mexico, a journey of some seven thousand miles. A "gripping saga," (*Daily Mail*), *438 Days* is the first-ever account of one of the most amazing survival stories in modern times. Based on dozens of hours of exclusive interviews with Alvarenga, his colleagues, search-and-rescue officials, the remote islanders who found him, and the medical team that saved his life, *438 Days* is not only "an intense, immensely absorbing read" (*Booklist*) but an unforgettable study of the resilience, will, ingenuity and determination required for one man to survive more than a year lost and adrift at sea.

"One of the very best books to come out of the war in Iraq," (Lt. Col. Dave Grossman, bestselling author of *On Killing*),

The Last Punisher is a gripping and intimate on-the-ground memoir from a Navy SEAL who was part of SEAL Team THREE with American Sniper Chris Kyle. Experience his deployment, from his first mission to his first kill to his eventual successful return to the United States to play himself in the Oscar-nominated film directed by Clint Eastwood and starring Bradley Cooper. The Last Punisher is a “thoughtful, funny, and raw...always compelling” (Bing West, New York Times bestselling author of No True Glory) first-person account of the Iraq War. With wry humor and moving testimony, Kevin Lacz tells the bold story of his tour in Iraq with SEAL Team THREE, the warrior elite of the Navy. This legendary unit, known as “The Punishers,” included Chris Kyle (American Sniper), Mike Monsoor, Ryan Job, and Marc Lee. These brave men were instrumental in securing the key locations in the pivotal 2006 Battle of Ramadi. Minute by minute, Lacz relays the edge-of-your-seat details of his team’s missions in Ramadi, offering a firsthand glimpse into the heated combat, extreme conditions, and harrowing experiences they faced every day. Through it all, Lacz and his teammates formed unbreakable bonds and never lost sight of the cause: protecting America with their fight. “A rare glimpse into the mind of a Navy SEAL,” (Clint Emerson, New York Times bestselling author of 100 Deadly Skills) Kevin Lacz brings you onto the battlefield and relays the tough realities of war. At the same time, Lacz shares how these experiences made him a better man and how proud he is of his contributions to one of this country’s most difficult military campaigns. The Last Punisher is the story of a SEAL and an “honest-to-God American hero” (Mike Huckabee, #1 bestselling author) who was never afraid to answer the call.

Lt. Michael Patrick Murphy, commander of Navy SEAL Team 10, posthumously received the Congressional Medal of Honor for his heroic actions on 28 June 2005 during a fierce battle with Taliban fighters in the remote mountains of eastern Afghanistan. Michael was the first recipient of the nation’s highest military honor as a result of U.S. involvement in Afghanistan. He was also the first naval officer to earn the medal since the Vietnam War, and the first SEAL to be honored posthumously. A young man of great character, he is the subject of Naval Special Warfare courses on leadership, and an Arleigh Burke-class guided missile destroyer, naval base, school, post office, ball park, and hospital emergency room have all been named in his honor. In his bestselling book, *Marcus Luttrell*, the only survivor of Operation Red Wings, called Michael “the best officer I ever knew, an iron-souled warrior of colossal, almost unbelievable courage in the face of the enemy.” *SEAL of Honor* tells the story of Michael’s life and how he came to be that man of selfless courage and honor. This biography argues that his heroic action during the deadly firefight with the Taliban revealed his true character and attempts to answer why Michael readily sacrificed his life for his comrades. *SEAL of Honor* is the story of a valiant young man who was recognized by his peers for his compassion and leadership, because he was guided by an extraordinary sense of duty and responsibility. Tracing Michael’s journey from a seemingly ordinary life on New York’s Long Island to that remote mountainside in Afghanistan, *SEAL of Honor* portrays how he came to the moment of extraordinary heroism that made him the most celebrated Medal of Honor recipient since WWII. Moreover, the book brings the Afghan war back to the home front, focusing on the tight-knit Murphy family and the devastating effect his death had on them as they watched the story of Operation Red Wings unfold in the news. The book attempts to answer why Michael’s service to his country and his comrades was a calling faithfully answered, a duty justly upheld, and a life, while all too short, well lived.

A decorated member of the Princess of Wales' Royal Regiment recounts his 2004 tour of duty in Iraq, a six-month service of peaceful intentions that were violently altered by hostile attacks by the people of Al Amarah. Reprint. 100,000 first printing.

A daring mission deep into enemy waters... Operating out of the Indian Ocean, a heavily armed and professional team of Somali pirates, known as the ‘Somali Marines’, have been capturing large cargo ships in order to ransom them for huge sums of money. Each time an owner pays for the return of their ship, the pirates move their attentions to another, enraging the Pentagon more each time. Tensions reach boiling point after they seize two United States ships, and demand \$15 million. Against all advice, the ship owners pay up, causing the US military to form an elite hit squad, charged with eliminating the pirates’ operation. Battle-hardened veteran Mack Bedford is deployed to SEAL Team 10 to form The Delta Platoon. His objective: to go the Indian Ocean and obliterate the Somali Marines once and for all, whatever the cost... Mack Bedford returns once more in *The Delta Solution*, his most exciting adventure yet, perfect for fans of James Deegan, Brad Thor and Clive Cussler

A story of courage, perseverance, and patriotism behind the 75th Ranger Regiment's rescue mission following one of the deadliest Special Ops incidents in Afghanistan—a grueling search for twelve Navy SEAL casualties and eight downed Night Stalkers . . . but just one lone survivor On June 28th, 2005, a four-man Navy SEAL reconnaissance team under Operation Red Wings was ambushed in northeastern Afghanistan—as depicted in the book and film *Lone Survivor*. A quick reaction force was dispatched. Turbine 33, carrying eight Navy SEALs and eight members of the 160th Special Operations Aviation Regiment, was struck by a rocket propelled grenade—careening the dual rotor Chinook toward the rugged peak of Sawtalo Sar. The result was the single deadliest incident in Special Operations history at the time. Commanders called on the largest element of US Special Forces, the 75th Ranger Regiment. The rescue mission: Operation Red Wings II. Author Tony Brooks gives a first-hand account of the daring recovery of Turbine 33 and the subsequent search for the remaining compromised Navy SEAL recon team—one of whom was Marcus Luttrell, the lone survivor. The Rangers were up against lack of intel, treacherous terrain, violent weather, and an enemy that was raised to fight. Tony Brooks lived—and many of his fellow Rangers died—by the axiom, “Leave No Man Behind.” He is the first to tell the story other books and films have omitted, one of overcoming overwhelming odds to accomplish a mission: to bring every American soldier home.
