A GOOD MORNING AMERICA BOOK CLUB PICK Shortlisted for the 2020 Women's Prize for Fiction “Through a novel with so much depth, beauty, and grace, we, like Ana, are forever changed.” —Jacqueline Woodson, Vanity Fair “Gorgeous writing, gorgeous story.” —Sandra Cisneros Fifteen-year-old Ana Cancion never dreamed of moving to America, the way the girls she grew up with in the Dominican countryside did. But when Juan Ruiz proposes and promises to take her to New York City, she has to say yes. It doesn't matter that he is twice her age, that there is no love between them. Their marriage is an opportunity for her entire close-knit family to eventually immigrate. So on New Year's Day, 1965, Ana leaves behind everything she knows and becomes Ana Ruiz, a wife confined to a cold six-floor walk-up in Washington Heights. Lonely and miserable, Ana hatches a reckless plan to escape. But at the bus terminal, she is stopped by Cesar, Juan's free-spirited younger brother, who convinces her to stay. As the Dominican Republic slides into political turmoil, Juan returns to protect his family's assets, leaving Cesar to take care of Ana. Suddenly, Ana is free to take English lessons at a local church, lie on the beach at Coney Island, see a movie at Radio City Music Hall, go dancing with Cesar, and imagine the possibility of a different kind of life in America. When Juan returns, Ana must decide once again between her heart and her duty to her family. In bright, musical prose that reflects the energy of New York City, Angie Cruz's *Dominicana* is a vital portrait of the immigrant experience and the timeless coming-of-age story of a young woman finding her voice in the world.

to Put the Damn Guns Down, this is New York Times bestselling author Jason Reynolds's electrifying novel that takes place in sixty potent seconds—the time it takes a kid to decide whether or not he's going to murder the guy who killed his brother. A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That's what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That's where Will's now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother's gun. He gets on the elevator, seventh floor, stoked. He knows who he's after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that's when Will sees that one bullet is missing. And the only one who could have fired Shawn's gun was Shawn. Huh. Will didn't know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck's in the elevator? Just as Will's trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

But when Robbie's father loses all their money and disappears, Robbie is left to look after himself and his sister in the Edinburgh slums. Convincing himself that Knox is having people killed for him to experiment on, Robbie eventually confronts him. But Robbie comes to realise that for all his hard-heartedness and corrupt methods, Knox's motives are ultimately for the good: to improve surgical conditions, and operate on patients with the greatest speed and therefore minimum risk. Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Lloyd Jones' new novel is set mainly in a small village on Bougainville, a country torn apart by civil war. Matilda attends the school set up by Mr Watts, the only white man on the island. By his own admission he's not much of a teacher and proceeds to educate the children by reading them Great Expectations. Matilda falls in love with the novel, strongly identifying with Pip. The promise of the next chapter is what keeps her going; Pip's story protects her from the horror of what is happening around her - helicopters menacing the skies above the village and rebel raids on the ground. When the rebels visit the village searching for any remaining men to join their cause, they discover the name Pip written in the sand and instigate a search for him. When Pip can't be found the soldiers destroy the book. Mr Watts then encourages the children to retell the story from their memories. Then when the rebels invade the village, the teacher tells them a story which lasts seven nights, about a boy named Pip, and a convict . . .

Depicting with humor and insight the pressure to be outwardly perfect, this novel for ages 10-13 shows how one girl develops compassion for her own and others' imperfections. For 13-year-old Isabelle Lee, whose father has recently died, everything's normal on the outside. Isabelle describes the scene at school with bemused accuracy--the self-important (but really not bad) English teacher, the boy that is constantly fixated on Ashley Barnum, the prettiest girl in class, and the dynamics of the lunchroom, where tables are turf in a all-eyes-open awareness of

everybody's relative social position. But everything is not normal, really. Since the death of her father, Isabelle's family has only functioned on the surface. Her mother, who used to take care of herself, now wears only lumpy, ill-fitting clothes, cries all night, and has taken every picture of her dead husband and put them under her bed. Isabelle tries to make light of this, but the underlying tension is expressed in overeating and then binging. As the novel opens, Isabelle's little sister, April, has told their mother about Isabelle's problem. Isabelle is enrolled in group therapy. Who should show up there, too, but Ashley Barnum, the prettiest, most together girl in class.

**NATIONAL BESTSELLER** • In this extraordinary book, the world's most extraordinary distance swimmer writes about her emotional and spiritual need to swim and about the almost mystical act of swimming itself. Lynne Cox trained hard from age nine, working with an Olympic coach, swimming five to twelve miles each day in the Pacific. At age eleven, she swam even when hail made the water "like cold tapioca pudding" and was told she would one day swim the English Channel. Four years later—not yet out of high school—she broke the men's and women's world records for the Channel swim. In 1987, she swam the Bering Strait from America to the Soviet Union—a feat that, according to Gorbachev, helped diminish tensions between Russia and the United States. Lynne Cox's relationship with the water is almost mystical: she describes swimming as flying, and remembers swimming at night through flocks of flying fish the size of mockingbirds, remembers being escorted by a pod of dolphins that came to her off New Zealand. She has a photographic memory of her swims. She tells us how she conceived of, planned, and trained for each, and re-creates for us the experience of swimming (almost) unswimmable bodies of water, including her most recent astonishing one-mile swim to Antarctica in thirty-two-degree water without a wet suit. She tells us how, through training and by taking advantage of her naturally plump physique, she is able to create more heat in the water than she loses. Lynne Cox has swum the Mediterranean, the three-mile Strait of Messina, under the ancient bridges of Kunning Lake, below the old summer palace of the emperor of China in Beijing. Breaking records no longer interests her. She writes about the ways in which these swims instead became vehicles for personal goals, how she sees herself as the lone swimmer among the waves, pitting her courage against the odds, drawn to dangerous places and treacherous waters that, since ancient times, have challenged sailors

in ships.

A seemingly simple tale of schoolboys marooned on an island, *Lord of the Flies* has proven to be one of the most enigmatic and provocative pieces of literature ever published. This casebook probes the many layers of meaning in the novel, examining its literary, philosophical, historical, scientific, and religious significance. Beginning with a literary analysis that explores the universality of the novel's characters, the story is considered as subversion of the adventure tale, comparing it to such classics as *Treasure Island* and *Robinson Crusoe*. From these literary depictions of savagery, this study delves deeper, confronting the long-running philosophical and biological debates about human nature that have absorbed such influential thinkers as Rousseau and Darwin. The full meaning of *Lord of the Flies* is further contextualized by tracing historical views on civilization, from the Victorian perspective, to the very real horrors of World War II. This casebook integrates analysis and primary documents, with excerpts from materials as diverse as the Bible, the writings of Darwin, and war crimes interviews, to explore the very nature of human aggression and evil. This book will spark students to consider intriguing connections between Golding's masterpiece and broader concepts of civilization, altruism, political leadership responsibilities, and the history of western imperialism. The interdisciplinary approach of this casebook helps students situate the lessons of *Lord of the Flies* in the context of Education, War and Postwar, the Adventure Story, Religion, and Biology and Evolution. The six topic sections integrate original illustrations and photos, literary excerpts, and primary documents and historic writings that help contextualize the work. Thought-provoking ideas for class discussions and research topics, with carefully chosen further reading suggestions enhance this volume as a teaching tool.

The award-winning classic by internationally renowned author Emily Rodda. Pigs can't fly. Can they? 'I wish something would happen!' said Rachel. 'Something interesting!' Afterwards, she would remember what she'd said and how she'd felt, that rainy Saturday morning, and she would think, 'That was really the beginning,' and her stomach would give a little jolt, and the tips of her fingers would tingle. But at the time she didn't know what was in store. All she knew was that she was bored. Bored with having a cold and having to stay in bed. Bored with the rain drumming on the roof. If only something unlikely or unexpected would happen for a change. Something exciting - something wonderful. 'Maybe it will!' her father said, 'And pigs might fly!' Ages: 9+

Hiroshima is the story of six people--a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest--who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima.
