Unternehmen sind heute mit kaum mehr berechenbarem multioptionalen Konsumentenverhalten konfrontiert. Es stellt sich daher nicht mehr die Frage, ob "Mono-" oder "Multichannel-Marketing", sondern vielmehr, ob es durch die gewählte Strategie gelingt, die Möglichkeiten des Multichannel-Management optimal auszunutzen. Daher gehört die Gestaltung einer Multichannel-Kommunikation zu den schwierigsten Aufgaben des strategischen Managements. Dies beinhaltet die Konfiguration, Gestaltung und Steuerung von Kommunikationskanalen (klassische Kanäle, Web 2.0-Welt), Medien (TV, Internet, M-Commerce etc.) und Marken (kooperative Markenführung, E-Branding). Die Schwierigkeit besteht vor allem in der ganzheitlichen Abstimmung von Online- und Offline-Kanalen sowie in der zielgruppengenaue Ausrichtung der unternehmerischen Kommunikationsstrategie. Christin Emrich bietet in ihrem Buch wissenschaftlich fundierte Konzepte für Leser, die mehr als Grundlagenwissen suchen.

This volume presents the lithic assemblage from Howburn in South Lanarkshire, Scotland, at present the oldest prehistoric settlement in Scotland (12,700-12,000 BC), and the only Hamburgian settlement in Britain. The book focuses on the Hamburgian finds, which are mainly based on the exploitation of flint from Doggerland.

Twenty years later, in 1956 Miro finally settled into a large white atelier in Palma de Mallorca where he worked unrelentingly until his death in 1985. In this book, the photographs of Jean-Marie del Moral re-create the poetic universe of the grand atelier, crowded with the objets trouvés and household items that fitted Miro's imagination. Juan Teodoro Punyet Miro recalls his grandfather, the old man with large blue eyes, who taught him as a child to listen to silence.

The Wrestler's Body tells the story of a way of life organized in terms of physical self-development. While Indian wrestlers are competitive athletes, they are also moral reformers whose conception of self and society is fundamentally somatic.

Using the insights of anthropology, Joseph Alter writes an ethnography of the wrestler's physique that elucidates the somatic structure of the wrestler's identity and ideology. Young men in North India may choose to join an akhara, or gymnasium, where they subject themselves to a complex program of physical and moral fitness. Alter's first-hand description of each detail of the wrestler's regimen offers a unique perspective on South Asian culture and society.

Wrestlers feel that moral reform of Indian national character is essential and advocate their way of life as an ideology of national health. Everyone is called on to become a wrestler and build collective strength through self-discipline.

A fascinating introduction to Zen principles and learning.
