

Paperino E I Tre Moschettieri E Altre Storie Ispirate A Alexandre Dumas Letteratura A Fumetti Vol 2

Nineteenth-century French writer Marie-Henri Beyle, better known by his pen name Stendhal, is one of the earliest leading practitioners of realism, his stories filled with sharp analyses of his characters' psychology. This translation of Stendhal's *Chroniques italiennes* is a collection of nine tales written between 1829 and 1840, many of which were published only after his death. Together these collected tales reveal a great novelist working with highly dramatic subject matter to forge a vision of life lived at its most intense. The setting for these tales is a romanticized Italy, a place Stendhal viewed as unpolluted by bourgeois inhibitions and conformism. From the hothouse atmosphere of aristocratic convents to the horrors of the Cenci family, the tales in *Italian Chronicles* all feature passionate, transgressive characters engaged in "la chasse au bonheur"—the quest for happiness. Most of the tragic, violent tales are based on historical events, with Stendhal using history to validate his characters' extreme behaviors as they battle literal and figurative oppression and try to break through to freedom. Complete with revenge, bloody daggers, poisonings, and thick-walled nunneries, this new translation of *Italian Chronicles* includes four never-before-translated stories and a fascinating introduction detailing the origins of the book. It is sure to gratify established Stendhal fans as well as readers new to the writer.

'A joy of a book - enriching, illuminating, eclectic and far from a conventional science read' Richard Webb, *New Scientist* Books of the Year 'Carlo Rovelli's imaginative rigour, his lively humour and his beautiful writing are inspiring' Erica Wagner One of the most inspiring thinkers of our age, the bestselling author of *Seven Brief Lessons on Physics* transforms the way we think about the world with his reflections on science, history and humanity In this collection of writings, the logbook of an intelligence always on the move, Carlo Rovelli follows his curiosity and invites us on a voyage through science, history, philosophy and politics. Written with his usual clarity and wit, these pieces range widely across time and space: from Newton's alchemy to Einstein's mistakes, from Nabokov's butterflies to Dante's cosmology, from travels in Africa to the consciousness of an octopus, from mind-altering psychedelic substances to the meaning of atheism. Charming, pithy and elegant, this book is the perfect gateway to the universe of one of the most influential scientists of our age.
