

## Plab Medical Mcq Practice Papers

The Diploma of the Royal College of Obstetricians and Gynaecologists (DRCOG) examination consists of 60 multiple choice questions (MCQs) and 22 six minute structured clinical examination stations (OSCEs), of which two are rest stations. This one day examination is designed for General Practice trainees, ideally with six months' experience in obstetrics and gynaecology at the senior house officer grade. This book presents three complete DRCOG MCQ and OSCE circuits and encompasses all the possible MCQ and OSCE topics that can and have been asked in the DRCOG examination. They are presented in an identical way to the exam itself. The author, Mrs Una Coales MD, FRCSEd, DRCOG, trained in medicine in the USA and moved to practise in the UK. She has taken and passed the DRCOG exam herself and has also published popular exam texts for PLAB Parts 1 and 2.

The MRCGP examination MCQ module changed its format in the Spring of 2002. This book is presented in the same format as the new MCQ module with three complete new MRCGP MCQ module exam papers, including a comprehensive selection of single best answers (SBAs), multiple best answers (MBAs), sentence completion, algorithms and extended matching questions (EMQs). The book covers all relevant hot topics, It provides tips on how to pass the MRCGP written paper module, and provides a sample new NPMS paper as an alternative to an audit project for summative assessment. This is an essential revision tool for all GP registrars, newly-appointed general practitioners and candidates for the MRCGP exam. The author trained in medicine in the USA and moved to the UK to practice. She has recently passed the new format MRCGP exam and has written several popular exam texts, including PLAB, DRCOG and MRCP: Part1. Dr Coales also runs her own MRCGP courses in London, to find out more follow this link

MRCS PART B OSCE: ANATOMY is unique in focussing solely on providing the knowledge necessary to pass one of the toughest exam components facing surgical trainees. Offering the most up-to-date coverage of anatomy practice questions and presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of questions and fully descriptive answers, this book provides the essential revision text to maximise chances of exam success. 150 scenario-based anatomy questions, model answers and enhanced with concise revision notes Highly illustrated with diagrams and tables to improve understanding of complicated anatomy Includes practical advice on how to approach the exam and useful tips to achieve the highest marks Familiarizes candidates with the full range of presentations: surface anatomy, prosections and radiological imaging Edited by highly experienced anatomist, Professor Vishy Mahadevan Highly Commended at the BMA Medical Book Awards 2013

A perfect and portable way to succeed on your surgery rotation and the shelf exam Surgery: PreTest Self-Assessment &

Review is a targeted way to prepare for the surgery clerkship. You'll find hundreds of questions that cover the content you'll encounter on the actual shelf exam. The range of question topics covers the clerkship's core competencies and each question includes high yield explanations of both correct and incorrect answers. All questions have been reviewed by students who successfully completed their clerkship to ensure that topics and questions align with directly with today's surgery clerkships.

- Hundreds of questions just like you'll see on the shelf exam
- High yield explanations for right and wrong answers
- Targets what you really need to know for clerkship success
- Updated to include all relevant advances in the surgery field
- Student tested and reviewed

Get Through PLAB Part 1 is an essential revision tool for all candidates preparing for the examination. PLAB Part 1 consists of 70% extended matching questions and 30% single best answer (SBA) questions. As a companion text to the bestselling PLAB: 1000 Extended Matching Questions, this book provides 500 practice SBA questions covering topics that reflect the current PLAB syllabus and presented in a format identical to the exam itself. The author, Una Coales, who has taken and successfully passed the exam herself, offers helpful hints and tips on what to expect and how to negotiate the examination successfully. Get Through PLAB Part 1 is recommended to all candidates sitting the PLAB Part 1 exam, and their trainers.

The Oxford Handbook for the Foundation Programme returns in a new edition to keep junior doctors, as well as their supervisors and senior medical students, up-to-date and give them the information and confidence they need to excel during and beyond the Foundation Programme. This new edition has been fully revised to take in the latest guidelines, the new junior doctors' contract, and the most recent Foundation Programme curriculum. It has new sections to demystify the NHS structure and explore key changes in social care and the interface with the NHS, and revised key information on the medical certificate of the cause of death, the role of the medical examiner, and changes to interactions with the coroner, as well as a new standalone chapter on Psychiatry. The junior doctor's pocket mentor, this handbook distils the knowledge of four authors across multiple NHS environments in an easy access format, covering everything from practical guidance at the patient's bedside to aspects of adapting to day-to-day life as a junior doctor that are rarely covered in medical school. With this indispensable survival guide to the Foundation Programme, you need never be alone on the wards again.

Data interpretation questions based on clinical cases are a popular means of testing medical students both during undergraduate studies and as an element of finals examinations. Written by a small team of authors with extensive teaching experience, 100 Cases in Medical Data Interpretation provides invaluable guidance from lecturers who understand from personal experience that detailed and accurate explanations are the key to successful revision. This

book presents 100 cases arranged by specialty area—radiology, clinical chemistry, haematology and cardiology—as well as a random section of miscellaneous cases. Questions accompanying each case prompt the reader to consider how the data presented might be correctly understood. A clear discussion of how the correct answer was reached, with boxed highlights and bullet lists of key points, makes this book an excellent learning aid during all stages of clinical studies, and particularly while preparing for medical finals.

Intended for undergraduates, this book has been revised to reflect recent advances in medical knowledge, diagnosis and treatment. It includes a rewritten chapter on genetics and immunology, integrating molecular biology and expanded sections on STDs, diagnostic imaging techniques and rheumatology.

Comprising of 400 MCQs, this book provides essential revision content to help you pass the recently introduced MRCPsych Paper A. The most recent guidelines for the new curriculum have been followed in compiling the content. MCQs for the New MRCPsych Paper A with Answers Explained is an invaluable aid for all candidates for the examination of the Royal College of Psychiatrists. Other clinicians and undergraduate students in medicine and health sciences will also find it useful.

The new edition of *So you want to be a brain surgeon?* continues to provide a fun yet informative guide for all medical students and for all those considering a medical degree. An entertaining, authoritative and indispensable guide for all levels, from those thinking of applying to medical school through to medical students and to young doctors. The text has been radically updated, and includes even more chapters.

Offers real MCQ practice examinations at the appropriate level for preparing for your final medical examinations. This book features: four practice papers each containing 60 questions in 'Best of Five' and multiple choice format: this allows you to test your knowledge and prepare for the examination.

**PLAB Medical MCQ Practice Papers**

This book is for part 2 of the PLAB exam, and goes alongside the highly successful PLAB: 1000 Extended Matching Questions, for PLAB part 1, by the same author. The book presents 100 OSCEs and covers the main skills tested in the OSCE examination - communication, history taking, clinical examination, practical skills, and emergency management as defined by the UK General Medical Council (GMC). The format of the questions is identical to those set in the PLAB 2 examination administered by the GMC. The author, Una Coales MD, FRCSEd, DRCOG, trained in medicine in the USA and moved to practise in the UK. She has taken and passed the PLAB exam herself. Recommended to all candidates sitting the new PLAB examination.

This fully updated landmark revision guide is a must-have for all surgical trainees working towards the MRCS Part B OSCE.

Designed to help medical students through their exams. Built around the successful 'Essential Revision Notes for MRCP', this title focuses on what is essential learning for medical undergraduates and gives readers an 'all round' knowledge of medicine at this level.

Ear, Nose and Throat (ENT) surgery has traditionally been a difficult and specialised topic in undergraduate medicine and for junior doctors. Many textbooks are too detailed for undergraduate use, or lack self assessment questions to help those wishing to underpin their learning. This concise and easy-to-read self-assessment guide aims to clarify the topic, and find and fill gaps in understanding. The multiple choice questions (MCQs) contained cover all levels of knowledge and the learning objectives of most of the UK medical school curricula, aiding preparation for end of unit, module and final exams for ENT. This book will be a valuable companion for clinics and teaching sessions and an indispensable revision primer for graduate entry medical curricula. 'An excellent means of preparation for medical undergraduate examinations as gaps in core knowledge are quickly revealed. Further, this text is a good guide for students to identify those subject areas requiring more focused study, especially when time is short.' - From the Foreword by Samir Soma

Features four practice papers offering students exam-like revision of the undergraduate medical syllabus. Each paper contains a section of 'best of five' questions with clinical vignettes. This book includes tips and advice on how to approach the Finals.

With over 350 Single Best Answer questions and many Extended Matching Questions, Oxford Assess and Progress: Clinical Specialties provides top-quality revision material on the core specialties for readers looking for exam success.

This book is an essential purchase for all candidates sitting Part 1 of the PLAB exam administered by the UK General Medical Council. All doctors from non-EC countries who wish to practice in UK must sit the PLAB exam which comprises 200 Extended Matching Questions (EMQs). This book contains 1000 practice EMQs of a similar type to those in the exam. The questions cover all aspects of the new syllabus, which not only includes a range of clinical topics but also requires knowledge of the GMC's Duties of a Doctor, principles and practice of evidence-based medicine, and clinical governance. Recommended to all candidates sitting the new PLAB test.

New extended matching questions and answers closely following the PLAB syllabus.

This book contains five complete MCQ papers in authentic exam format each with 60 questions. Topics covered include medicine, surgery, orthopaedics, paediatrics, obstetrics and gynaecology. Correct answers and detailed teaching notes are given for all questions and there is a list of important exam topics as well as expert advice on revision planning and exam technique.

Contains over 270 single best answer and extended matching questions.

The PLAB examination assesses your ability to work safely in your first appointment as a Senior House Officer in an NHS hospital. Are you ready? Comprehensive and completely up-to-date, the Third Edition of this best-selling guide to passing the PLAB is based on actual questions from previous examinations and enhanced by detailed, explanatory answers from the author's extensive clinical experience. Considering a wide variety of topics, the book suggests techniques to answer the extended matching

questions by providing focused solutions and explanations. It also highlights clues to the correct response within the question itself. It is highly recommended for PLAB candidates, final year medical students and candidates for the MRCGP.

Now in its 25th year, the Oxford Handbook of Clinical Specialties has been fully revised and updated by a trusted author team to bring you practical, up-to-date clinical advice and a unique outlook on the practice of medicine. Twelve books in one, this is the ultimate guide to the core clinical specialties for students, junior doctors, and specialists. Guided by specialists and junior doctors, the ninth edition of this handbook sees fully revised and updated artwork, references, and clinical advice. This edition maintains its unique perspective on patient care, drawing on literature, history, and philosophy to encourage the reader to broaden their definition of medicine. Fully cross-referenced to the Oxford Handbook of Clinical Medicine, this is essential book contains everything needed for training, revision, and clinical practice.

Companion volume to: Mayo Clinic internal medicine board review. 10th ed. c2013.

"This revision builds on the success of 1e: review questions and answers that mimic the EM in-service residency exam and the EM boards. These questions cover a wide range of topics in emergency medicine, dentistry, trauma, obstetrics, pediatrics, toxicology, environmental, radiology, dermatology, EMS, and bioterrorism. Concise rationale for the correct and incorrect answers is discussed. Sources for answer explanations include all currently available authoritative EM textbooks. 1) 1000 questions, randomly divided into 10 tests of 100 questions. 2) topics include all areas of Emergency Medicine, including internal medicine and surgery specialty areas, dentistry, trauma, obstetrics, pediatrics, toxicology, environmental, radiology, dermatology, EMS, and bioterrorism. 3) questions are case-based, and 10% involve interpreting an image"--Provided by publisher.

PLAB Part I in a Box is designed for PLAB candidates and medical students preparing for their finals. Completely up to date with latest developments in the PLAB exam, PLAB Part I in a Box covers a broad range of topics including: Medicine, Surgery, Obstetrics and Gynaecology, Paediatrics, Psychiatry, Orthopaedics, Dermatology, Ophthalmology, Otorhinolaryngology, Behavioural Science, Palliative Care, Ethics, Statistics, Clinical Physiology, Genetics and Clinical Pharmacology. The questions are in the format of EMQs (Extended Matching Questions) and SBAs (Single Best Answers) making this an essential revision aid for all candidates sitting the PLAB exam. The aim of this new card format is to make your exam preparation time as efficient and straightforward as possible. They also lend themselves very well to studying with a partner or colleague. We're sure you will find the In a Box series to be a useful and practical resource in your Royal College exam preparation.

• What causes hypertension in children? • Is it common for epileptic patients to have post-ictal vomiting? If so, how often does this occur? • Why is the incidence of parkinsonism less common in smokers? • What is the role of urine examination in diabetic control? Where do you turn to when you have a difficult medical question that needs answering? The 'Ask the Author' online feature from the best-selling textbook Kumar & Clark's Clinical Medicine has collected a wealth of questions and comments directly from medical students and doctors about topics that are of particular interest or difficulty to them. Kumar and Clark have brought together over 1000 of the questions they have been asked along with their answers. It will appeal to the many fans of

Kumar & Clark, from first-year students to practising doctors, and will provide a useful and interesting sounding board to help ensure best practice. This unique book will provide you with a quick and easy way to discover the answers to your own medical questions...! The writing style is appealing and conversational, designed to entertain as well as instruct. Carries the 'Kumar & Clark' stamp of authority. All questions fully indexed for ease of reference. Covers topics that are easily misunderstood in medicine – good preparation for medical students, senior house officers/interns and specialists in training/residents preparing for written or oral exams.
