This troubadour life is only for the fiercest hearts, only for those vessels that can be broken to smithereens and still keep beating out the rhythm for a new song. Last Chance Texaco is the first ever no-holds-barred account of the life of two-time Grammy Award-winner Rickie Lee Jones in her own words. It is a tale of desperate chances and impossible triumphs, an adventure story of a girl who beat the odds and grew up to become one of the most legendary artists of her time, turning adversity and hopelessness into timeless music. With candor and lyricism, the "Duchess of Coolsville" (Time) takes us on a singular journey through her nomadic childhood, to her years as a teenage runaway, through her legendary love affair with Tom Waits and ultimately her longevity as the hardest working woman in rock and roll. Rickie Lee's stories are rich with the infamous characters of her early songs – "Chuck-E's in Love," "Weasel and the White Boys Cool," "Danny's All-Star Joint," and "Easy Money"— but long before her notoriety in show business, there was a vaudevillian cast of hitchhikers, bank robbers, jail breaks, drug mules, a pimp with a heart of gold and tales of her fabled ancestors. In this tender and intimate memoir by one of the most remarkable, trailblazing, and tenacious women in music are never-before-told stories of the girl in the raspberry beret, a singer-songwriter whose music defied categorization and inspired American pop culture for decades.

Peter Mansbridge invites us to walk the beat with him in this entertaining and revealing look into his life and career, from his early broadcasting days in the remote northern Manitoba community of Churchill to the fast-paced news desk of CBC's flagship show, The National, where he reported on stories from around the world. Today, Peter Mansbridge is often recognized for his distinctive deep voice, which calmly delivered the news for over fifty years. But ironically, he never considered becoming a broadcaster. In some ways, though, Peter was prepared for a life as a newscaster from an early age. Every night around the dinner table, his family would debate the news of the day, from Cold War scandals and Vietnam to Elvis Presley and the Beatles. So in 1968, when by chance a CBC radio manager in Churchill, Manitoba, offered him a spot hosting the local late night music program, Peter embraced the opportunity. Without a teacher, he tuned into broadcasts from across Canada, the US, and the UK to learn the basic skills of a journalist and he eventually parlayed his position into his first news job. Less than twenty years later, he became the chief correspondent and anchor of The National. With humour and heart, Peter shares never-before-told stories from his distinguished career, including reporting on the fall of the Berlin Wall and the horror of 9/11, walking the beaches of Normandy with Tom Brokaw, and talking with Canadian prime ministers from John Diefenbaker to Justin Trudeau. But it's far from all serious. Peter also writes about finding the "cure" for baldness in China and landing the role of Peter Moosebridge in Disney's Zootopia. From the first (and only) time he was late to broadcast to his poignant interview with the late Gord Downie, these are the moments that have stuck with him. After years of interviewing others, Peter turns the lens on himself and takes us behind the scenes of his life on the frontlines of journalism as he reflects on the toll of being in the spotlight, the importance of diversity in the newsroom, the role of the media then and now, and the responsibilities we all bear as citizens in an increasingly global world.

This book chronicles the radio appearances of all prominent classic horror movie stars—Boris Karloff, Bela Lugosi, Peter Lorre, Vincent Price, and two dozen more, including "scream queens" like Fay Wray. It contains script excerpts from radio shows as well as material from narrated albums and music singles. Each star's appearances are listed by show and air date, with descriptions of the subject matter.

A group of kids in the 90s had a dream to make their voice heard - and this book documents their seminal impact on today's pop culture. DJ Target grew up in Bow under the shadow of Canary Wharf, with money looming close on the skyline. The 'Godfather of Grime' Wiley and Dizzee Rascal first met each other in his bedroom. They were all just grime kids on the block back then, and didn't realise they were to become pioneers of an international music revolution. A movement that permeates deep into British culture and beyond. Household names were borne out of those housing estates, and the music industry now jumps to the beat of their gritty reality rather than the tune of glossy aspiration. Grime has shaken the world and Target is revealing its explosive and expansive journey in full, using his own unique insight and drawing on the input of grime's greatest names.

As of May 2013, 93 children previously diagnosed with regressive autism were able to shed their autism diagnosis, their symptoms, and return to an overall state of health and vitality using the protocols revealed in this book. Kerri Rivera has outlined a very complete approach to autism recovery that includes an understanding of the importance of Biofilm theory and protocol. She recommends safe interventions that do no harm, and are helping to confront a growing epidemic. Kerri Rivera's approach includes common sense dietary recommendations, the use of supplements to restore balance to the body and immune system, as well as mild oxidative therapies to address chronic infection and inflammation. She has taken children who were in the throes of autism (meaning chronic illness) to healing. The symptoms being labeled as autism are fading away, the children are talking and socializing, and their ATEC scores prove beyond a shadow of a doubt what their parents are claiming: their children no longer have autism. Kerri Rivera's grasp of a biomedical approach to Autism recovery, paired with her passion for service has allowed families of all socioeconomic backgrounds to have what they might never have otherwise found: a means by which to help their children. This book contains over 120 testimonials from parents (and some of the children themselves) describing their journey and resulting success.

After your faith has fractured, let what takes its place be the real thing . . . at last. Somewhere along the way, the Christianity you knew began to crumble. You began to suspect your faith was misplaced. Disillusionment set in. Churches hurt you. Their people failed you. Christian institutions were exposed as fake. And in it all, God was silent. Is He gone? Or is God really there, waiting for you to find Him instead of the counterfeits? If you're walking this difficult spiritual path, Lina AbuJamra understands you. After experiencing the near deconstruction of her own faith, Lina had to rebuild something more solid when the faith she once knew let her down. With her diagnostic style that comes from her training as an ER doc, Lina helps you grapple with questions like: Where is God in my pain? Is this how Christians are supposed to act? Why did my story end up this way? Is this the normal Christian life? Why is it so hard for Christians to love? Let Fractured Faith help you find your way back to God. You just might discover that the real God has been waiting for you all along.

This account of the renowned composer's neglected wife—including her years in a Soviet prison—is “a story both riveting and wrenching” (Kirkus Reviews, starred review). Serge Prokofiev was one of the twentieth century's most brilliant composers yet is an enigma to historians and his fans. Why did he leave the West and move to the Soviet Union despite Stalin's crimes? Why did his astonishing creativity in the 1930s soon dissolve into a far less inspiring output in his later years? The answers can finally be revealed, thanks to Simon Morrison's unique and unfettered access to the family's voluminous papers and his ability to reconstruct the tragic, riveting life of the composer's wife, Lina. Morrison's portrait of the marriage of Lina and Serge Prokofiev is the story of a remarkable woman who fought for survival in the face of unbearable betrayal and despair and of the irresistibly talented but heartlessly self-absorbed musician she married. Born to a Spanish father and Russian mother in Madrid at the end of the nineteenth century and raised in Brooklyn, Lina fell in love with a rising-star composer—and defied convention to be with him, courting public censure. She devoted her life to Serge and art, training to be an operatic soprano and following her brilliant husband to Stalin's Russia. Just as Serge found initial acclaim—before becoming constricted by the harsh doctrine of socialist-realist music—Lina was at first accepted and later scorned, ending her singing career. Serge abandoned her and took up with another woman. Finally, Lina was arrested and shipped off to the gulag in 1948. She would be held in captivity for eight awful years. Meanwhile, Serge found himself the tool of an evil regime to which he was forced to accommodate himself. The contrast between Lina and Serge is one of strength and perseverance versus utter self-absorption, a remarkable human drama that draws on the forces of art, sacrifice, and the struggle against oppression. Readers will never forget the tragic drama of Lina's life, and never listen to Serge's music in quite the same way again.

"The Wheel Spins" is the novel about young and bright Iris Carr, who is on her way back to England after spending a holiday somewhere in the Balkans. When she wakes up from a short nap, she discovers that her elderly travelling companion seems to have disappeared from the train. After her fellow passengers deny ever having seen the elderly lady, the young woman is on the verge of her nerves. She is helped by a young English traveler, and the two proceed to search the train for clues to the old woman's disappearance. Spanning eight decades and chronicling the wild ride of a Greek-American family through the vicissitudes of the twentieth century, Jeffrey Eugenides' witty, exuberant novel on one level tells a traditional story about three generations of a fantastic, absurd, lovable immigrant family -- blessed and cursed with generous doses of tragedy and high comedy. But there's a provocative twist. Cal, the narrator -- also Callie -- is a hermaphrodite. And the explanation for this takes us spooling back in time, through a breathtaking review of the twentieth century, to 1922, when the Turks sacked Smyrna and Callie's grandparents fled for their lives. Back to a tiny village in Asia Minor where two lovers, and one rare genetic mutation, set our narrator's life in motion. *Middlesex* is a grand, utterly original fable of crossed bloodlines, the intricacies of gender, and the deep, untidy promptings of desire. It's a brilliant exploration of divided people, divided families, divided cities and nations -- the connected halves that make up ourselves and our world.

An amusing account of actor Martin Jarvis's remarkable career. Jarvis populates his tales with deft portraits of the many friends and colleagues with whom he has worked and learned from: his RADA instructors, Alan Badel, Susan Hampshire, Kenneth Moore, Sir John Gielgud and Ralph Richardson.

"Pachico's The Anthill is superb"--KELLY LINK A wildly original blend of social horror and razor sharp satire, *The Anthill* is a searing exploration of privilege, racism, and redemption in the Instagram age. In the end, it's much easier to not look at the screaming feeling. To not examine it. Better to just keep on rushing on... Lina has come home to the country of her childhood. Sent away from Colombia to England after her mother's death twenty years before, she's searching for the one person who can tell her about their shared past. She's never forgotten Matty - her childhood friend and protector who now runs *The Anthill*, a day care refuge for the street kids of Medellín. Lina begins volunteering there, but her reunion with Matty is not what she hoped for. She no longer recognizes Medellín, now rebranded as a tourist destination, nor the person Matty has become: a guarded man uninterested in reliving the past she thought they both cherished. As Lina begins to confront her memories and the country's traumatic history, strange happenings start taking place at *The Anthill*: something is violently scratching at the inside of the closet door, the kids are drawing unsettling pictures, and there are mysterious sightings of a small, dirty boy with pointy teeth. Is this a vision of the boy Lina once knew, or something more sinister? Did she bring these disturbances with her? And what will her search for atonement cost Matty? A visceral, hallucinatory ride by an author who has been called "blunt, fresh, and unsentimental" (*The New York Times Book Review*) and "remarkably inventive" (*The Atlantic*), *The Anthill* is a ghost story unlike any other, a meditation on healing--for both a person and a country--in the wake of horror.

Maybe it's the end of the world, but not for Candace Chen, a millennial, first-generation American and office drone meandering her way into adulthood in Ling Ma's offbeat, wryly funny, apocalyptic satire, *Severance*. With the recent passing of her Chinese immigrant parents, she's had her fill of uncertainty. She's content just to carry on: She goes to work, troubleshoots the teen-targeted *Gemstone Bible*, watches movies in a Greenpoint basement with her boyfriend. So Candace barely notices when a plague of biblical proportions sweeps New York. Then *Shen Fever* spreads. Families flee. Companies cease operations. The subways screech to a halt. Her bosses enlist her as part of a dwindling skeleton crew with a big end-date payoff. Soon entirely alone, still unfevered, she photographs the eerie, abandoned city as the anonymous blogger NY Ghost. Candace won't be able to make it on her own forever, though. Enter a group of survivors, led by the power-hungry IT tech Bob. They're traveling to a place called the Facility, where, Bob promises, they will have everything they need to start society anew. But Candace is carrying a secret she knows Bob will exploit. Should she escape from her rescuers? A send-up and takedown of the rituals, routines, and missed opportunities of contemporary life, Ling Ma's *Severance* is a moving family story, a quirky coming-of-adulthood tale, and a hilarious, deadpan satire. Most important, it's a heartfelt tribute to the connections that drive us to do more than survive.

Grossly ambitious and rooted in scientific scholarship, *The Other Dark Matter* shows how human excrement can be a life-saving, money-making resource—if we make better use of it. The average person produces about four hundred pounds of excrement a year. More than seven billion people live on this planet. Holy crap! Because of the diseases it spreads, we have learned to distance ourselves from our waste, but the long line of engineering marvels we've created to do so—from Roman sewage systems and medieval latrines to the immense, computerized treatment plants we use today—has also done considerable damage to the earth's ecology. Now scientists tell us: we've been wasting our waste. When recycled correctly, this resource, cheap and widely available, can be converted into a sustainable energy source, act as an organic fertilizer, provide effective medicinal therapy for antibiotic-resistant bacterial infection, and much more. In clear and engaging prose that draws on her extensive research and interviews, Lina Zeldovich documents the massive redistribution of nutrients and sanitation inequities across the globe. She profiles the pioneers of poop upcycling, from startups in African villages to innovators in American cities that convert sewage into fertilizer, biogas, crude oil, and even life-saving medicine. She breaks taboos surrounding sewage disposal and shows how hygienic waste repurposing can help battle climate change, reduce acid rain, and eliminate toxic algal blooms. Ultimately, she implores us to use our innate organic power for the greater good. Don't just sit there and let it go to waste.

The *Butthole Surfers* remain one of the most enigmatic bands in the history of rock music. Most of their records have no information of any kind, and often with the suggestion that you play them at 69 rpm.... They lived like nomads through much of the 1980s, and built their reputation upon tours that never ended, and shows that resembled hedonistic acid tests. They left a heap of former band members in their wake, and have often alienated as many fans as they've attracted. Here for the first time is the complete story of one of the most controversial and dangerous bands to have emerged from the ashes of the punk rock movement. 'Let's Go to Hell' compiles the scattered memories into the first comprehensive overview of the band. Featuring exclusive interviews, tons of rare and unpublished photographs, and analysis of the band's vast recorded (and unrecorded) efforts, 'Let's Go to Hell' finally tells the story that was thought (and often hoped) would never be told...

A group biography of four beloved women who fought sexism, covered decades of American news, and whose voices defined NPR In the years after the Civil Rights Act of 1964, women in the workplace still found themselves relegated to secretarial positions or locked out of jobs entirely. This was especially true in the news business, a backwater of male chauvinism where a woman might be lucky to get a foothold on the "women's pages." But when a pioneering nonprofit called National Public Radio came along in the 1970s, and the door to serious journalism opened a crack, four remarkable women came along and blew it off the hinges. Susan, Linda, Nina, and Cokie is journalist Lisa Napoli's captivating account of these four women, their deep and enduring friendships, and the trail they blazed to becoming icons. They had radically different stories. Cokie Roberts was born into a political dynasty, roamed the halls of Congress as a child, and felt a tug toward public service. Susan Stamberg, who had lived in India with her husband who worked for the State Department, was the first woman to anchor a nightly news program and pressed for accommodations to balance work and home life. Linda Wertheimer, the daughter of shopkeepers in New Mexico, fought her way to a scholarship and a spot on-air. And Nina Totenberg, the network's legal affairs

correspondent, invented a new way to cover the Supreme Court. Based on extensive interviews and calling on the author's deep connections in news and public radio, Susan, Linda, Nina, and Cokie will be as beguiling and sharp as its formidable subjects.

Jan Swafford's biographies of Charles Ives and Johannes Brahms have established him as a revered music historian, capable of bringing his subjects vibrantly to life. His magnificent new biography of Ludwig van Beethoven peels away layers of legend to get to the living, breathing human being who composed some of the world's most iconic music. Swafford mines sources never before used in English-language biographies to reanimate the revolutionary ferment of Enlightenment-era Bonn, where Beethoven grew up and imbibed the ideas that would shape all of his future work. Swafford then tracks his subject to Vienna, capital of European music, where Beethoven built his career in the face of critical incomprehension, crippling ill health, romantic rejection, and "fate's hammer," his ever-encroaching deafness. Throughout, Swafford offers insightful readings of Beethoven's key works. More than a decade in the making, this will be the standard Beethoven biography for years to come.

Monolithic Undertow alights a crooked path across musical, religious and subcultural frontiers. It traces the line from ancient traditions to the modern underground, navigating archaeoacoustics, ringing feedback, chest plate sub-bass, avant-garde eccentricity, sound weaponry and fervent spiritualism. From Neolithic beginnings to bawdy medieval troubadours, Sufi mystics to Indian raga masters, cone shattering dubwise bass, Hawkwind's Ladbroke Grove to the outer reaches of Faust and Ash Ra Temple; the hash-fueled fug of The Theatre of Eternal Music to the cough syrup reverse hardcore of Melvins, seedy VHS hinterland of Electric Wizard, ritual amp worship of Earth and Sunn O))) and the many touch points in between, Monolithic Undertow explores the power of the drone - an audio carrier vessel capable of evoking womb like warmth or cavernous dread alike. In 1977 Sniffin' Glue verbalised the musical zeitgeist with their infamous 'this is a chord; this is another; now form a band' illustration. The drone requires neither chord nor band, representing - via its infinite pliability and accessibility - the ultimate folk music: a potent audio tool of personal liberation. Immersion in hypnotic and repetitive sounds allows us to step outside of ourselves, be it chant, a 120dB beasting from Sunn O))), standing front of the system as Jah Shaka drops a fresh dub or going full headphone immersion with Hawkwind. These experiences are akin to an audio portal - a sound Tardis to silence the hum and fizz of the unceasing inner voice. The drone exists outside of us, but also - paradoxically - within us all; an aural expression of a universal hum we can only hope to fleetingly channel...

'La-La Land' might be the capital of conspicuous consumption, but the other cliché about LA - that it's a cultural wasteland - couldn't be further from the truth. It's well-worn drinking holes are full of history, stiff drinks, loose atmosphere and keep-it-real regulars. Filled over 100 of the city's liveliest lowlife 'n' liquor-soaked landmarks, this essential booze bible has the lowdown on free bar food, great karaoke, bars in well-known movies and more including friendly spots, a filthy, blackened cave, a gentrified hole specked with hipsters or a dusty relic.

Mexico is a country that exudes sensuality. Its long tradition of extraordinary architecture both vernacular and contemporary, its exuberance, colours, scales and proportions, is apparent in the exceptional buildings and homes that can be found throughout the country. The wealth of Mexico's indigenous and colonial heritage, as well as the design legacy of leading figures such as Barrag and Legorreta have been passed down from generation to generation. The result is apparent in the work of the many talented architects and designers in this country today. Casa Mexicana embraces architecture of enormous diversity, from the lush coastlines of the Pacific Ocean, to the arid planes of Yucatan, the jungles of Campeche, the colonial streets of San Miguel de Allende, the centennial haciendas of Colima, and the modern skyline of Mexico City.

Rough Water tells the incredible stories of men and women battling the elements, and sometimes each other, to stay alive. Sailors confront storms, rogue waves, icebergs, sharks, starvation and their own fear and suffering. In these stories, at least, the sea often helps those who help themselves.
