The cell phone is the fastest-selling consumer electronic in the world. On a global basis, over 800 million cellular telephones are sold yearly. More camera-equipped cell phones are sold each year than stand alone digital cameras. Rapid development of new technologies is leading to ever more versatile, multipurpose mobile devices, including 3G Internet-enabled cell phones and PDAs. Meanwhile, wireless networking and wireless Internet access are developing and expanding on a global basis at a rapid rate. Booming technologies include such 802.11 standards as Wi-Fi and WiMax, as well as Ultra Wide Band (UWB) and Bluetooth. Telematics, intelligent transportation systems (ITS) and satellite radio will soon create an entertainment, navigation and communications revolution within automobiles and trucks. Meanwhile, RFID (radio frequency identification) will revolutionize wireless tracking, inventory and logistics at all levels, from manufacturing to shipping to retailing. These developments are creating challenges for legacy companies and opportunities for nimble marketers and managers. Plunkett's Wireless, Wi-Fi, RFID & Cellular Industry Almanac 2008 covers such sectors. Our coverage includes business trends analysis and industry statistics. We also include a wireless and cellular business glossary and a listing of industry contacts, such as industry associations and government agencies. Next, we profile hundreds of leading companies. Our 350 company profiles include complete

business descriptions and up to 27 executives by name and title.

The first book to help organizations understand and harness the extraordinary workplace learning potential of social media
Cowritten by the CEO of the world's largest workplace learning organization and a consultant and writer with extensive experience on the forefront of workplace learning technology Features case studies showing how organizations around the world have transformed their businesses through social media Most business books on social media have focused on using it as a marketing tool. Many employers see it as simply a workplace distraction. But social media has the potential to revolutionize workplace learning. People have always learned best from one another -- social media enables this to happen unrestricted by physical location and in extraordinarily creative ways. The New Social Learning is the most authoritative guide available to leveraging these powerful new technologies. Tony Bingham and Marcia Conner explain why social media is the ideal solution to some of the most pressing educational challenges organizations face today, such as a widely dispersed workforce and striking differences in learning styles, particularly across generations. They definitively answer common objections to using social media as a training tool and show how to win over even the most resistant employees. Then, using examples from a wide range of organizations -- including Deloitte, IBM, TELUS, and others -- Bingham and Conner help readers sort through the dizzying array of technological options available and decide when and how to use each one to achieve key strategic goals. Social media technologies -- everything from 140-character "microsharing" messages to media-rich online communities to complete virtual environments and more -- enable people to connect, collaborate, and innovate on levels never before dreamed of. They make learning dramatically

more dynamic, stimulating, enjoyable, and effective. This greatly anticipated book helps organizations create a contemporary learning strategy that is as timely as it is transformative.

Indigenous media challenges the power of the state, erodes communication monopolies, and illuminates government threats to indigenous cultural, social, economic, and political sovereignty. Its effectiveness in these areas, however, is hampered by government control of broadcast frequencies, licensing, and legal limitations over content and ownership. *Indigenous Screen Cultures in Canada* explores key questions surrounding the power and suppression of indigenous narrative and representation in contemporary indigenous media. Focussing primarily on the Aboriginal Peoples Television Network, the authors also examine indigenous language broadcasting in radio, television, and film; Aboriginal journalism practices; audience creation within and beyond indigenous communities; the roles of program scheduling and content acquisition policies in the decolonization process; the roles of digital video technologies and co-production agreements in indigenous filmmaking; and the emergence of Aboriginal cyber-communities.

The first novel in the spellbinding Landry family series. The only family Ruby Landry has ever known are her loving grandparents. Although her mother is dead and she has never met her mysterious father, Ruby is grateful for all she has, especially when her attraction for handsome Paul Tate blossoms into a wonderful love. But Paul's wealthy parents forbid him to associate with a poor Landry, and when Ruby's grandmother dies, she is forced to seek out the father she has never known in his vast New Orleans mansion. There, in a house of lies, madness and cruel torment, a shameful deception comes to light, and Ruby must cling to her memories of Paul: for only their love can save her now.

This Canadian province has spectacular mountains, forests, lakes, rivers, and coastline. This guide covers 250 B&B's in the area, providing a wide range of accommodation choices. Broadcasting Policy in Canada, Second Edition University of Toronto Press

With over two million copies in print, "The Complete Guide to Bed & Breakfasts, Inns & Guest-Houses" is truly the premier book of its kind. This indispensable guide from the most recognized name in the bed-and-breakfast industry is perfect for travelers seeking quaint, cozy, one-of-a-kind lodgings worldwide.

Offering a critical perspective, Media Literacy for Citizenship emphasizes the ability to analyze media messages as a fundamental component of engaged citizenship. The ten chapters of this text are divided into two sections: the first six chapters explore the landscape of the media today, and each of the final four chapters examines how the media presents specific issues, all of which are of vital importance to civil society. Each chapter forms a mini-lesson and encompasses three core elements: an essay on a subject area important to critical media literacy; a list of case examples that can be used for assignments; and a list of key terms common to all chapters and cases. The diverse topics of study and the rich pedagogy make this book a perfect resource for courses in communications, journalism, media studies, and education.

Money-saving advice from Canada's leading consumer advocate In this book Ellen Roseman distills the financial advice she gives in her columns and blogs into 81 quick tips that all Canadians can use to help them spend sensibly, save money, and avoid costly consumer traps. By offering the new Service Routing Certification Program, Alcatel-Lucent is extending their reach and knowledge to networking professionals with a comprehensive demonstration of how to build smart, scalable networks. Serving as a course in a book from Alcatel-Lucent—the world leader in designing and developing scalable systems—this resource pinpoints the pitfalls to avoid when building scalable networks, examines the most successful techniques available for engineers who are building and operating IP networks, and provides overviews of the Internet, IP routing and the IP layer, and the practice of opening the shortest path first.

Praise for *The Billion Dollar BET* "In a gripping narrative that is both inspirational and cautionary, Brett Pulley tells us how Robert Johnson built Black Entertainment Television into a billion-dollar media empire. In a remarkable feat of reporting, without Johnson's cooperation, Pulley shows what it really takes to get ahead in America today, and in doing so provides as valuable a cultural as business history." --James B. Stewart Pulitzer Prize-winning journalist and bestselling author of *DisneyWar*, *Den of Thieves*, and *Heart of a Soldier* "Like or dislike? Agree or disagree? Bob Johnson's richly varied and fascinating life presses you

against the window that Brett Pulley opens widely."
--Bernard Shaw retired CNN anchor "Through his BET network, Bob Johnson reached the pinnacle of capitalism, the billionaire boys club, in the spirit of legions of driven, American moguls . . . Veteran business journalist Brett Pulley peels back the layers of this fascinating and complex entrepreneur." --Teri Agins Senior Special Writer, the Wall Street Journal, and author of *The End of Fashion: How Marketing Changed the Clothing Business Forever*

Top-notch advice on adopting DSL DSL is exploding, with fifteen million fast Internet connections in 2001 and probably forty million more by 2003. The editors of *DSL Prime*, the weekly "industry bible," brief you on exactly what you need to know to put the technology to use. The book moves rapidly from the basics of the equipment through security, applications, and network

management. With the authority of the industry's key periodical, Bourne and Burstein provide candid evaluations of the providers and manufacturers and offer technical managers a no-nonsense guide to make sound strategic decisions on DSL, reduce costs, and ensure a system that will run reliably and smoothly. Wiley Tech Briefs Focused on the needs of the corporate IT and business manager, the Tech Briefs series provides in-depth information on a new or emerging technology, solutions, and vendor offerings available in the marketplace. With their accessible approach, these books will help you get quickly up-to-speed on a topic so that you can effectively compete, grow, and better serve your customers.

The electronic age is bringing sweeping changes to entertainment and media of all kinds, including publishing, broadcasting and film. Multimedia, the Internet and other digital media outlets for entertainment and information are being refined at a rapid rate. Media giants are merging and making big acquisitions. This book covers these exciting developments and provides profiles on hundreds of leading firms in film, radio, television, cable, new media, and publishing of all types including books, magazines and newspapers. It contains thousands of contacts for business and industry leaders, industry associations, Internet sites and other resources. You'll get in-depth profiles of nearly 400 of the world's top Entertainment & Media firms: our own unique list of companies that are the leaders in this field. Here you'll find complete profiles of the hot companies that are making news today, the largest, most successful

corporations in all facets of the Entertainment and Media Business, from broadcasters to film production companies, casino operators to theme park companies, publishers of books and magazines to video game designers, and much more. Our corporate profiles include executive contacts, growth plans, financial records, address, phone, fax and much more. This innovative book offers unique information, all indexed and cross-indexed more for each firm! Our industry analysis section provides an exceptional discussion of business and market trends. The book includes statistical tables covering revenues for several industry sectors. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key data.

The second edition of *Broadcasting Policy in Canada* offers a comprehensive overview of the policies that provide the foundation for the Canadian broadcasting system, including discussion of topics such as Canadian content, media regulation, and program financing. Featuring ordinary people, celebrities, game shows, hidden cameras, everyday situations, and humorous or dramatic situations, reality TV is one of the fastest growing and important popular culture trends of the past decade, with roots reaching back to the days of radio. *The Tube Has Spoken* provides an analysis of the growing phenomenon of reality TV, its evolution as a genre, and how it has been shaped by cultural history. This collection of essays looks at a wide spectrum of shows airing from the 1950s to the present, addressing some of the most popular programs including Alan Funt's *Candid Camera*, *Big Brother*, *Wife Swap*, *Kid*

Nation, and The Biggest Loser. It offers both a multidisciplinary approach and a cross-cultural perspective, considering Australian, Canadian, British, and American programs. In addition, the book explores how popular culture shapes modern western values; for example, both *An American Family* and its British counterpart, *The Family*, showcase the decline of the nuclear family in response to materialistic pressures and the modern ethos of individualism. This collection highlights how reality TV has altered the tastes and values of audiences in the twentieth and twenty-first centuries. It analyzes how reality TV programs reflect the tensions between the individual and the community, the transformative power of technology, the creation of the celebrity, and the breakdown of public and private spheres. For investment information you can trust, why go anywhere but the source? And for data on over 14,000 stocks and bonds, the unmatched source is Standard & Poor's, the nation's leading securities information company.
