Nebula Award Finalist: Mankind has been reduced to slavery by technology and surveillance, in this near-future novel from the author of *Stand on Zanzibar*. and hope to avoid. Hugo Award winner (Best Novel, *Stand on Zanzibar*) and British science fiction master John Brunner remains one of the most influential and respected authors of all time, and now many of his classic works are being reintroduced. For readers familiar with his vision, it is a chance to reexamine his thoughtful worlds and words. For new readers, Brunner’s work proves itself the very definition of timeless.
