

The 8th Habit From Effectiveness To Greatness

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Hollywood actor, had a heart attack on stage during a production of King Lear. That was the night when a devastating flu pandemic arrived in the city, and within weeks, civilization as we know it came to an end. Twenty years later, Kirsten moves between the settlements of the altered world with a small troupe of actors and musicians. They call themselves The Traveling Symphony, and they have dedicated themselves to keeping the remnants of art and humanity alive. But when they arrive in St. Deborah by the Water, they encounter a violent prophet who will threaten the tiny band's existence. When Simon Majumdar hit forty, he realized there had to be more to life than his stable but uninspiring desk job. As he wondered how to escape his career, he rediscovered a list of goals he had scrawled out years before, the last of which said: Go everywhere, eat everything. With that, he had found his mission -- a yearlong search for the delicious, and curious, and the curiously delicious, which he names *Eat My Globe* and memorably chronicles in these pages. In Majumdar's world, food is everything. Like every member of his family, he has a savant's memory for meals, with instant recall of dishes eaten decades before. Simon's unstoppable wit and passion for all things edible (especially those things that once had eyes, and a face, and a mom and a pop) makes this an armchair traveler's and foodie's delight -- Majumdar does all the heavy lifting, eats the heavy foods (and suffers the weighty consequences), so you don't have to. He jets to thirty countries in just over twelve months, diving mouth-first into local cuisines and cultures as different as those of Japan and Iceland. His journey takes him from

China, where he consumes one of his "Top Ten Worst Eats," stir-fried rat, to the United States, where he glories in our greatest sandwiches: the delectable treasures of Katz's Delicatessen in Manhattan, BBQ in Kansas and Texas, the still-rich po' boys of post-Katrina New Orleans. The meat of the story -- besides the peerless ham in Spain, the celebrated steaks of Argentina, the best of München's wursts as well as their descendants, the famous hot dogs of Chicago -- is the friends that Simon makes as he eats. They are as passionate about food as he is and are eager to welcome him to their homes and tables, share their choicest meals, and reveal their local secrets. Also a poignant memoir, *Eat My Globe* is a life told through food and spiced with Majumdar's remembrances of foods past, including those from his colorful childhood. (Raised in Northern England, he is the son of a fiery Welsh nurse and a distinguished Bengali surgeon.) A captivating look at one man's passion for food, family, and unique life experiences, *Eat My Globe* will make you laugh -- while it makes you hungry. It is sure to satiate any gastronome obsessed with globetrotting -- for now.

It's Not Just About the Money True wealth is not about buckets of cash. True wealth is not about designer clothes. It is not about a new Mercedes. It is not about living in a palatial estate. True wealth, asserts David Gikandi, is about discovering value within yourself and value within other people. It is about a kind of conscious living that incorporates gratitude, a belief in abundance, and the experience of joy. Based on the recent discoveries of theoretical physics and a close reading of inspirational classics of the last century, Gikandi creates a new model for the creation of personal wealth; a new model that shows readers how to create abundance by saving, giving, offering charity,

In the 7 Habits series, international bestselling author Stephen R. Covey showed us how to become as effective as it is possible to be. In his long-awaited new book, *THE 8th HABIT*, he opens up an entirely new dimension of human potential, and shows us

how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we each possess. Covey exhorts us all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE was originally published in 1989. The challenges and complexity we face today are of a different order of magnitude. We enjoy far greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit.

A revolutionary guidebook to achieving peace of mind by seeking the roots of human behavior in character and by learning principles rather than just practices. Covey's method is a pathway to wisdom and power.

The 8th Habit is deserving of all 409 pages in which Steve Covey used to show exactly how an average employee feels. The book captures the struggle that most people

Everything part of this book points to a workplace filled with respect for every single individual.

From Stephen R. Covey comes a profound, compelling, and groundbreaking book of next-level thinking that gives a clear way to finally tap the limitless value-creation promise of the "Knowledge Worker Age." In the more than twenty-five years since its publication, the classic *The 7 Habits of Highly Effective People* has become an international phenomenon with more than twenty-five million copies sold. Tens of millions of people in business, government, schools, and families, and, most importantly, as individuals, have dramatically improved their lives and organizations by applying the principles of Stephen R. Covey's classic book. The world, however, is a vastly changed place. Being effective as individuals and organizations is no longer merely an option—survival in today's world requires it. But in order to thrive, innovate, excel, and lead in what Covey calls the "New Knowledge Worker Age," we must build on and move beyond effectiveness. The call of this new era in human history is for greatness; it's for fulfillment, passionate execution, and significant contribution. Accessing the higher levels of human genius and motivation in today's new reality requires a change in thinking: a new mindset, a new skill-set, a new tool-set—in short, a whole new habit. The crucial challenge of our world today is this: to find our voice and inspire others to find theirs. It is what Covey calls the 8th Habit. So many people feel frustrated, discouraged, unappreciated, and undervalued—with little or no sense of voice or unique contribution. The 8th Habit is the answer to the soul's yearning for greatness, the organization's imperative for significance and superior results, and humanity's search for its "voice." Covey's new book will transform the way we think about ourselves, our purpose in life, our organizations, and about humankind.
