Including the red-winged blackbird, painted bunting, wood duck, great blue heron, ruby-throated hummingbird, purple finch, and blue jay, 46 different species of birds from all parts of the United States are included in this book. The pictures have been faithfully redrawn by Paul E. Kennedy from originals by John James Audubon (1785-1851), the most famous American painter-naturalist. For each species, the caption supplies the modern common and scientific names and the current range (by general region). No distinction is made between breeding range and winter range. Only the area of the United States, exclusive of Alaska and Hawaii, is considered. The birds shown are usually adult males when the caption does not give the information on age and sex. Audubon's original plates, numbered to correspond to the pages of the book, have been reproduced in color on the covers. If you follow them, you will not only have a great deal of coloring pleasure, but you will also learn how to identify many important birds. Learn to identify birds like the Myrtle Warbler and the Ruby-Throated Hummingbird ? as well as better-known species ? as you color these 46 accurate renderings of 50 favorites. Captions provide scientific names, other information. A delightful way to learn about birds you may discover in your own backyard. Full-color versions of all illustrations included on the covers.

Twenty-nine bird species are spotlighted in this carefully rendered collection, where bluebirds frame the letter "B," an ibis stands as high as the letter "I," a curious umbrella bird perches on the letter "U," and an "S" curves around the bodies of three mute swans. Additional varieties include: American Avocet Cardinal Duck (Mallard) Egret Goldfinch Painted Bunting Quetzal Toucan Warbler Xenops . . . and the multi-striped Zebra Finch. As a bonus, a lovely two-page spread features a quartet of winged creatures perched on the branches of a flowering tree. Identifying captions accompany each delightful drawing.
