Truth: From over a thousand miles away, I watched on the screen of my phone as two men murdered my wife. And I was helpless to save her. Consumed by hate and rage, I spent four years running from my memories. Until a shattered woman gave me a reason to stop. Cora lived in a nightmare, but through sheer force of will, she'd turned it into something beautiful. She had a smile that could pierce the darkest soul. And with one glance, she shredded mine. Lie: I was only there for a fresh start. Lie: I had no idea what I was getting myself into. Lie: There was nothing I could do to save her, either. But that's the thing about lies-you never know who to believe.

How can you write other people's stories, when you won't admit the truth of your own? An absorbing, moving, ruefully tender, witty and wise novel of marriage, motherhood and the paths we navigate through both, for fans of Ann Patchett and Anne Tyler. 'I loved The Truth About Her. It's an intelligent, compelling, nuanced tale of guilt, culpability, pride, shame and atonement. But most of all, it's a love letter to daughters, from the mothers who raise them. An astoundingly good debut.' Annabel Crabb Journalist and single mother Suzy Hamilton gets a phone call one summer morning, and finds out that the subject of one of her investigative exposes, 25-year-old wellness blogger Tracey Doran, has killed herself overnight. Suzy is horrified by this news but copes in the only way she knows how - through work, mothering, and carrying on with her ill-advised, tandem affairs. The consequences of her actions catch up with Suzy over the course of a sticky Sydney summer. She starts receiving anonymous vindictive letters and is pursued by Tracey's mother wanting her, as a kind of rough justice, to tell Tracey's story, but this time, the right way. A tender, absorbing, intelligent and moving exploration of guilt, shame, female anger, and, in particular, mothering, with all its trouble and treasure, The Truth About Her is mostly though a story about the nature of stories - who owns them, who gets to tell them, and why we need them. An entirely striking, stylish and contemporary novel, from a talented new writer. PRAISE FOR THE TRUTH ABOUT HER 'Heartfelt, funny and will resonate with many readers. Twelve stories by science fiction master Stanisław Lem, nine of them never before published in English. Of these twelve short stories by science fiction master Stanisław Lem, only three have previously appeared in English, making this the first "new" book of fiction by Lem since the late 1980s. The stories display the full range of Lem's intense curiosity about scientific ideas as well as his sardonic approach to human nature, presenting as multifarious a collection of mad scientists as any reader could wish for. Many of these stories feature artificial intelligences or artificial life forms, long a Lem preoccupation; some feature quite insane theories of cosmology or evolution. All are thought provoking and scathingly funny. Written from 1956 to 1993, the stories are arranged in chronological order. In the title story, "The Truth," a scientist in an insane asylum theorizes that the sun is alive; "The Journal" appears to be an account by an omnipotent being describing the creation of infinite universes--until, in a classic Lem twist, it turns out to be no such thing; in "An Enigma," beings debate whether offspring can be created without advanced degrees and design templates. Other stories feature a computer that can predict the future by 137 seconds, matter-destroying spores, a hunt in which the prey is a robot, and an electronic brain eager to go on the lam. These stories are peak Lem, exploring ideas and themes that resonate throughout his writing.

The Emmy Award-winning creator of GASLAND tells his intimate and damning, personal story of our world in crisis. With a foreword by Bill McKibben. The rules have changed. The water has changed. The climate has changed. The truth has changed. We must change. In *The Truth Has Changed*, Josh Fox turns the rapid-fire shocks that are remaking the very fabric of our lives—writing as a first responder, a reporter, a documentarian, and an activist—into art, literature, and at least one answer to the question of what the future holds. Our normal isn't normal anymore. The paradigm shift that global warming represents parallels a paradigm shift in how we process truth. Both deeply affect democracy. Josh Fox has had a front row seat—a first responder after 9/11, filming the Deepwater Horizon spill close up from the air and on the ground, a member of Bernie Sanders's delegation of the Democratic Platform Committee, risking his life to cross a bridge on Thanksgiving Day at Standing Rock, traveling the nation and the world, shooting his films, talking to people everywhere he goes. *The Truth Has Changed* is his first book, the companion to his new one-man show of the

"The truth about Alicia was that she wasn't that stable to begin with. So when she did what she did, no one was very surprised. Still it was shocking, the way she followed them from the hardware store to the woman's house, the way she broke the sliding glass door with the tire jack, the way she found them in bed. It was more than she could take, her being seven months pregnant and all. It only took two shots. . . ." Alicia is not the only woman with problems. In these stories about contemporary and traditional Latinas, Ana Consuelo Matiella uses sensitivity and wit to address issues faced by women of color and women everywhere—issues largely having to do with love: between men and women, mothers and daughters, women and friends. In engaging stories about family myths, gossip, and lies, comadres converse over afternoon *café con leche*. "I'm sure that I was the only wife whose husband was teaching their daughter to do Cheech Marin imitations," remarks one of Matiella's characters. Another sings the praises of the chocolate milkshake diet: "That's one advantage of living on the border. You get to try all the latest gringo inventions as soon as they hit the streets." Through encounters with angels, conversations with dogs, and relationships with men overly concerned with the dimensions of their manhood, Matiella offers a new exploration of the human condition—none showing us that if

**NEW YORK TIMES BESTSELLER** • From the co-author of *The Guernsey Literary and Potato Peel Pie Society* comes a wise, witty, and exuberant novel, perfect for fans of Lee Smith, that illuminates the power of loyalty and forgiveness, memory and truth, and the courage it takes to do what's right. Annie Barrows once again evokes the charm and eccentricity of a small town filled with extraordinary characters. Her new novel, *The Truth According to Us*, brings to life an inquisitive young girl, her beloved aunt, and the alluring visitor who changes the course of their destiny forever. In the summer of 1938, Layla Beck's father, a United States senator, cuts off her allowance and demands that she find employment on the Federal Writers' Project, a New Deal jobs program. Within days, Layla finds herself far from her accustomed social whirl, assigned to cover the history of the remote mill town of Macedonia, West Virginia, and destined, in her opinion, to go completely mad with boredom. But once she secures a room in the home of the unconventional Romeyn family, she is drawn into their complex world and soon discovers that the truth of the town is entangled in the thorny past of the Romeyn dynasty. At the Romeyn house, twelve-year-old Willa is desperate

Layla’s arrival strikes a match to the family veneer, bringing to light buried secrets that will tell a new tale about the Romeyns. As Willa peels back the layers of her family’s past, and Layla delves deeper into town legend, everyone involved is transformed—and their personal histories completely rewritten. Praise for *The Truth According to Us* “As delightfully eccentric as *Guernsey* yet refreshingly different . . . an epic but intimate family novel with richly imagined characters . . . Fearlessly direct and endlessly curious, Katherine’s understanding of Zen was inseparable from her affinity for the arts. From the birth of the Hebrew Bible to the awe-inspiring contributions of Augustine, Dürer, and Milton in bringing Adam and Eve to vivid life, Greenblatt unpacks the story's many interpretations and consequences over time. 1997. This was really happening. Justice had prevailed. Two people were given their lives back because of the journalism by my team, the courage of our reporter and photographer. Now, their family was gathering in front of the building, holding copies of an EXTRA edition of The Herald-Dispatch that declared their freedom, holding signs and crying tears of gratitude. This was why, I was sure, the Founders had created the First Amendment. We had stood up to a foreign government and forced our own to do the right thing. Stories would not always end so elegantly. Justice and good journalism do not always win. There would be decades of frustration between moments of celebration. But this is a moment when journalism won. And it felt amazing.

Mary Roach meets Bill Bryson in this "surefire summer winner" (Janet Maslin, New York Times), an uproarious tour of the basest instincts and biggest mysteries of the animal world. Humans have gone to the Moon and discovered the Higgs boson, but when it comes to understanding animals, we've still got a long way to go. Whether we're seeing a viral video of romping baby pandas or a picture of penguins "holding hands," it's hard for us not to project our own values--innocence, fidelity, temperance, hard work--onto animals. So you've probably never considered if moose get drunk, penguins cheat on their mates, or worker ants lay about. They do--and that's just for starters. In *The Truth About Animals*, Lucy Cooke takes us on a worldwide journey to meet everyone from a Colombian hippo castrator to a Chinese panda porn peddler, all to lay bare the secret--and often hilarious--habits of the animal kingdom. Charming and at times downright weird, this modern bestiary is perfect for anyone who has ever suspected that virtue might be unnatural.

No matter what their station in life, the characters in these wry and moving stories face moments in which the shock of being and becoming comes from within. Of Marburg's work, acclaimed short story writer Richard Bausch says her "characters go through the shifts and Sunderings of life in vivid and lyrically direct prose, and your blood jumps." Antonya Nelson writes "[the] author's capacious heart has room for a vast array of very different characters, each of whom receives the fully serious respect and sympathy in the telling of his or her story. In this way, every reader can find 'me' here, not to mention truth." "These are smart and lovely stories, perceptive, compassionate, and sometimes shocking. Who are these people, so helpless in the currents that surround them? Marburg reveals their cowardice, their flaws, and their deep capacities to engage the heart," says author Roxana Robinson.

Much literary scholarship has been devoted to the flowering of Native American fiction and poetry in the mid-twentieth century. Yet, Robert Warrior argues, nonfiction has been the primary form used by American Indians in developing a relationship with the written word, one that reaches back much further in Native history and culture. Focusing on autobiographical writings and critical essays, as well as communally authored and political documents, *The People and the Word* explores how the Native tradition of nonfiction has both encompassed and

dissected Native experiences. Warrior begins by tracing a history of American Indian writing from the eighteenth century to the late twentieth century, then considers four particular moments: Pequot intellectual William Apess's autobiographical writings from the 1820s and 1830s; the Osage Constitution of 1881; narratives from American Indian student experiences, including accounts of boarding school in the late 1880s; and modern Kiowa writer N. Scott Momaday's essay "The Man Made of Words," penned during the politically charged 1970s. Warrior's discussion of Apess's work looks unflinchingly at his unconventional life and death; he recognizes resistance to assimilation in the products of the student print shop at the Santee Normal Training School; and in the Osage Constitution, as well as in Momaday's writing, Warrior sees reflections of their turbulent times as well as guidance for our own. Taking a cue from Momaday's essay, which gives voice to an imaginary female ancestor, Ko-Sahn, Warrior applies both critical skills and literary imagination to the texts. In doing so, *The People and the Word* provides a rich foundation for Native intellectuals' critical work, deeply entwined with their unique experiences. Robert Warrior is professor of English and Native American studies at the University of Oklahoma. He is author of *Tribal Secrets: Recovering American Indian Intellectual Traditions* (Minnesota, 1994) and coauthor, with Paul Chaat Smith, of

Why do we no longer trust facts, experts and statistics? In this essential guide to the turbulent times in which we live, Marcus Gilroy-Ware investigates our era of post-truths and fake news and answers the question of where we can go from here. We are supposed to have more information at our disposal now than at any time in history. So why, in a world of rising sea levels, populist leaders, resurgent fascism and a global pandemic, do so many people believe bizarre and untrue things about the world we live in? In *After the Fact?*, Marcus Gilroy-Ware shows us what really created the conditions for mis- and disinformation, from fake news and conspiracy theories, to bullshit journalism and the resurgence of the far-right, and why liberal newspaper columnists and centrist politicians are unable to turn back this tide. Spanning politics, culture, psychology, journalism, and much more, *After the Fact?* is a timely wake-up call for those who believe we can simply go "back to normal", and instead argues that, if we are to put an end to "fake news" we must deal with the broader social crises that are responsible for it.

on reading trust cues with humanoid robots has already excited widespread media interest. In *The Truth About Trust*, the renowned psychologist shares his findings and debunks numerous popular beliefs, including Paul Zak's theory that oxytocin is the "moral molecule." Why do you believe what you believe? You've been lied to. Probably a lot. We're always stunned when we realize we've been deceived. We can't believe we were fooled: What was I thinking? How could I have believed that? We always wonder why we believed the lie. But have you ever wondered why you believe the truth? People tell you the truth all the time, and you believe them; and if, at some later point, you're confronted with evidence that the story you believed was indeed true, you never wonder why you believed it in the first place. In this incisive and insightful taxonomy of lies and liars, New York Times bestselling author Aja Raden makes the surprising claim that maybe you should. Buttressed by history, psychology, and science, *The Truth About Lies* is both an eye-opening primer on con-artistry—from pyramid schemes to shell games, forgery to hoaxes—and also a telescopic view of society through the mechanics of

belief: why we lie, why we believe, and how, if at all, the acts differ. Through wild tales of cons and marks, Raden examines not only how lies actually work, but also why they work, from the evolutionary function of deception to what it reveals about our own. In her previous book, *Stoned*, Raden asked, "What makes a thing valuable?" In *The Truth About Lies*, she asks "What makes a thing real?" With cutting wit and a deft touch, Raden untangles the relationship of truth to lie, belief to faith, and deception to propaganda. *The Truth About Lies* will change everything you thought you knew about what you know, and whether you ever really know it.
