

The Why Are You Here Cafe A New Way Of Finding Meaning In Your Life And Your Work

For the first time in history, eradicating world poverty is within our reach. Yet around the world, a billion people struggle to live each day on less than many of us pay for bottled water. In *The Life You Can Save*, Peter Singer uses ethical arguments, illuminating examples, and case studies of charitable giving to show that our current response to world poverty is not only insufficient but morally indefensible. *The Life You Can Save* teaches us to be a part of the solution, helping others as we help ourselves.

In *What Got You Here Won't Get You There: How Successful People Become Even More Successful* (2007), Marshall Goldsmith generalizes from his personal experience as a business consultant to explain how successful leaders can diagnose and correct interpersonal problems that are holding them back at work. Your hard work is paying off. You are doing well in your field. But there is something standing between you and the next level of achievement. That something may just be one of your own annoying habits. Perhaps one small flaw - a behaviour you barely even recognise - is the only thing that's keeping you from where you want to be. It may be that the very characteristic that you believe got you where you are - like the drive to win at all costs - is what's holding you back. As this book explains, people often do well in spite of certain habits rather than because of them-and need a "to stop" list rather than one listing what "to do". Marshall Goldsmith's expertise is in helping global leaders overcome their unconscious annoying habits and become more successful. His one-on-one coaching comes with a six-figure price tag - but in this book you get his great advice for much less. Recently named as one of the world's five most-respected executive coaches by Forbes, he has worked with over 100 major CEOs and their management teams at the world's top businesses. His clients include corporations such as Goldman Sachs, Glaxo SmithKline, Johnson and Johnson and GE.

From the author of Call the Nurse, come new tales of a London nurse working to help and heal a community on a remote Scottish island. Lively, touching, engaging reading for fans of Call the Midwife and All Creatures Great and Small. "Julia MacLeod shares unique and enchanting experiences as a nurse in rural Scotland. Her stories will ring true with every nurse—or anyone—who has ever cared for a family or a community, whether in Scotland or America. Call the Nurse is a delightful read." —LeAnn Thieman, author Chicken Soup for the Nurse's Soul Mary J. Macleod and her husband left the London area for an idyllic place to raise their young children in the late sixties, and they found the island of Papavray in the Scottish Hebrides. There they bought a croft house on a "small acre" of land, and Mary J. (also known as Julia) became the district nurse. At the age of eighty, she first recounted her family's adventures in her debut, Call the Nurse, where she introduced readers to the austere beauties of the island and the hardy charm and warmth of the islanders. The anecdotes in this new volume take us to the end of her stay on Papavray, after which the MacLeod family left for California. Once again, we meet the crofters Archie, Mary, and Fergie, and other friends. There are stories of troubles, joy, and tragedy, of children lost and found, the cow that wandered into the kitchen, a distraught young mother who strides into the icy surf with her infant child, the ghostly apparition that returns after death to reveal the will in a sewing box. There are accidents and broken bones, twisters that come in from the sea, and acts of simple courage and uncommon generosity. Here again, a nurse's compassion meets Gaelic fortitude in these true tales of a bygone era.

In *You Are Here*, celebrated astronaut Chris Hadfield gives us the really big picture: this is our home, as seen from space. The millions of us who followed Hadfield's news-making Twitter feed from the International Space Station thought we knew what we were looking at when we first saw his photos. But we may have caught the beauty and missed the full meaning. Now, through photographs – many of which have never been shared – Hadfield unveils a fresh and insightful look at our planet. He sees astonishing detail and importance in these images, not just because he's spent months in space but because his in-depth knowledge of geology, geography and meteorology allows him to reveal the photos' mysteries. Featuring Hadfield's favourite images, *You Are Here* is divided by continent and represents one (idealized) orbit of the ISS. Surprising, thought-provoking and visually delightful, it opens a singular window on our planet, using remarkable photographs to illuminate the history and consequences of human settlement, the magnificence of never-before-noticed landscapes, and the power of the natural forces shaping our world and the future of our species.

"In *You Are Here (For Now)*, artist and author Adam J. Kurtz is vulnerable, wise and hilarious as he doles out advice and comfort to anyone who's really going through it." –BookPage The national bestseller An honest and relatable guide to figuring out where you're headed—and feeling okay in the meantime. "Alex Naranjo and Marlene Vargas, the owners of the biggest metaphysical shop on the West Coast, House of Intuition, have a clear mission: to bring the life-changing experience of magic to a world that needs magic more than ever. *Your Intuition Led You Here* is a practical beginner's guide to magic that helps people achieve healing, transformation, empowerment, and personal growth. It also shares their personal story as LGBTQ Latinx women and their unlikely journey to becoming champions of magic as a tool of self-care and empowerment. With wit, lightness, and accessibility, Alex and Marlene guide you through the process of tapping into your intuition, intention, and self-empowerment. The book contains a Magic 101 primer, an appendix with the symbolism behind key magical ingredients, and rituals that allow you to align with your true self, including: creating an altar making offerings to ancestors and guides working with crystals

and candles with intention securing more love, abundance, and happiness with the help of herbs and essential oils"-- Adaptation in Young Adult Novels argues that adapting classic and canonical literature and historical places engages young adult readers with their cultural past and encourages them to see how that past can be rewritten. The textual afterlives of classic texts raise questions for new readers: What can be changed? What benefits from change? How can you, too, be agents of change? The contributors to this volume draw on a wide range of contemporary novels – from Rick Riordan's Percy Jackson series and Megan Shepherd's Madman's Daughter trilogy to Jesmyn Ward's Salvage the Bones – adapted from mythology, fairy tales, historical places, and the literary classics of Shakespeare, Charles Dickens, Jane Austen, and F. Scott Fitzgerald, among others. Unpacking the new perspectives and critiques of gender, sexuality, and the cultural values of adolescents inherent to each adaptation, the essays in this volume make the case that literary adaptations are just as valuable as original works and demonstrate how the texts studied empower young readers to become more culturally, historically, and socially aware through the lens of literary diversity.

My personal testimony revealing and recovering who I am. During this time in my life, I had to face major problem. Living my life for years before I was confronted with questions that pondered in my mind. These questions revealed that I had begun the path of life without God. The each chapter deal with trials and tribulations encountered during this journey. There's victory in the end because my ending was better than my begin. At the end of each chapter, there's reflection page including scripture and encouraging word.

A zany picture book that will resonate with anyone who's ever been kept waiting. The latest from the creator of the best-selling Scaredy Squirrel series stars a hilariously needy and impatient bunny. This is no ordinary picture-book character, and it will quickly become clear that this is no ordinary picture book ? namely because you, the reader, are on the spot. You're late! At first, this little bunny is deliriously excited by your arrival, but now that you're finally here, he wants to know: where were you? He's been waiting long enough to learn an accordion solo, among other time-consuming pursuits. After he's shown you how it feels to be kept waiting and just when he's finally satisfied that you're a good steady page-turner who's here to stay, something happens to turn the tables. The result is an off-beat ending worth waiting for! How to understand a media environment in crisis, and how to make things better by approaching information ecologically. Our media environment is in crisis. Polarization is rampant. Polluted information floods social media. Even our best efforts to help clean up can backfire, sending toxins roaring across the landscape. In You Are Here, Whitney Phillips and Ryan Milner offer strategies for navigating increasingly treacherous information flows. Using ecological metaphors, they emphasize how our individual me is entwined within a much larger we, and how everyone fits within an ever-shifting network map.

A party in the Hollywood Hills. A perfectly timed smoke break. A chance encounter. From the moment I laid eyes on Judah Colt, I knew I was screwed. He was a whirlwind of emotions, a disastrous tornado of need, while I was only searching for a taste of reckless abandon and a chance to let go. What I got was almost more than I could handle. In the blink of an eye, I was no longer just a fan, a girl with an obsession, but instead I became a necessity--to the music, to the fans, to Judah himself. Together, we were a chaotic mess of feelings, fears, and attitudes, but apart it all got worse. Neither of us were ready for love--especially not the kind we found--but once we started...there was no going back. We are Phoenix and Judah. Nix and Jude. Baby Bird and her Skyscraper. Me and my twin flame. NOTE FROM THE AUTHOR: This is a work of fiction with mature themes such as emotional trauma, drug use, strong language, infidelity, and suicide references. It is not recommended for anyone under the age of 18.

Presents a collection of short works featuring sympathetic protagonists whose inherent sensitivities render them particularly vulnerable to unexpected events.

The corporate world is filled with men and women who have worked hard to reach upper level management. They're intelligent, skilled, and even charismatic. But only a handful of them will ever reach the pinnacle and as executive coach Marshall Goldsmith shows in this book, subtle nuances make all the difference. These are small transactional flaws performed by one person against another that, using Goldsmith's straightforward, jargon-free advice, are easy behaviors to change. EDITORIAL REVIEWS: From Publishers Weekly Goldsmith, an executive coach to the corporate elite, pinpoints 20 bad habits that stifle already successful careers as well as personal goals like succeeding in marriage or as a parent. Most are common behavioral problems, such as speaking when angry, which even the author is prone to do when dealing with a teenage daughter's belly ring. Though Goldsmith deals with touchy-feely material more typical of a self-help book such as learning to listen or letting go of the past his approach to curing self-destructive behavior is much harder-edged. For instance, he does not suggest sensitivity training for those prone to voicing morale-deflating sarcasm. His advice is to stop doing it. To stimulate behavior change, he suggests imposing fines (e.g., \$10 for each infraction), asserting that monetary penalties can yield results by lunchtime. While Goldsmith's advice applies to everyone, the highly successful audience he targets may be the least likely to seek out his book without a direct order from someone higher up. As he points out, they are apt to attribute their success to their bad behavior. Still, that may allow the less

successful to gain ground by improving their people skills first. (Jan. 2) Copyright (c) Reed Business Information, a division of Reed Elsevier Inc. That goes for the executive-recruiter-cum-president-makers. What has yet to be explored--until now--is the celebrity business coach, the individual who helps C-level executives correct flaws, whether invisible or public. A frequent interviewee in major business magazines like Fortune, Goldsmith, with the sage help and advice of his collaborator Reiter, pens a self-help career book, filled with disguised anecdotes and candid dialogue, all soon slated for bestsellerdom. His steps in coaching for success are simple, honest, without artifice: gather feedback from appropriate colleagues and cohorts, determine which behaviors to change (and remember, Goldsmith specifically focuses on behavior, not skills or knowledge), apologize, advertise, listen, thank, follow up, and practice feed-forward. Admittedly, this shrewd organizational psychologist only works with leaders he knows will listen, follow advice, and change--especially considering that he doesn't receive fees until improvements are secure and visible. On the other hand, these are words and processes anyone will benefit from, whether wannabe manager or senior executive. Barbara Jacobs Copyright (c) American Library Association. INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." – Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my

last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be.”
Hans Rosling, February 2017.

NATIONAL BESTSELLER • Provocative and illuminating essays from women at the forefront of the climate movement who are harnessing truth, courage, and solutions to lead humanity forward. “A powerful read that fills one with, dare I say . . . hope?”—The New York Times
NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SMITHSONIAN MAGAZINE There is a renaissance blooming in the climate movement: leadership that is more characteristically feminine and more faithfully feminist, rooted in compassion, connection, creativity, and collaboration. While it's clear that women and girls are vital voices and agents of change for this planet, they are too often missing from the proverbial table. More than a problem of bias, it's a dynamic that sets us up for failure. To change everything, we need everyone. *All We Can Save* illuminates the expertise and insights of dozens of diverse women leading on climate in the United States—scientists, journalists, farmers, lawyers, teachers, activists, innovators, wonks, and designers, across generations, geographies, and race—and aims to advance a more representative, nuanced, and solution-oriented public conversation on the climate crisis. These women offer a spectrum of ideas and insights for how we can rapidly, radically reshape society. Intermixing essays with poetry and art, this book is both a balm and a guide for knowing and holding what has been done to the world, while bolstering our resolve never to give up on one another or our collective future. We must summon truth, courage, and solutions to turn away from the brink and toward life-giving possibility. Curated by two climate leaders, the book is a collection and celebration of visionaries who are leading us on a path toward all we can save. The apostle Peter described faith as “much more precious than gold that perishes.” As gold passes through purifying fire, so Peter says a man's faith must be tried in order that it “might be found unto praise and honour and glory at the appearing of Jesus Christ” (1 Peter 1:7).

While we address the crises in our lives that try our faith, we rarely praise God the way Job did, and we rarely submit ourselves to the purifying fire as Peter suggests. Rather, we often ask ourselves difficult questions like: Does God love or even care about me? Where is God? Why is this happening to me? In *Are You Here?*, Ron Wagley offers true comfort to the hurting by answering these and many more questions in approachable, applicable ways. *Are You Here?* is a great source of hope and comfort during life's most difficult seasons.

Mapmaking fulfills one of our most ancient and deep-seated desires: understanding the world around us and our place in it. But maps need not just show continents and oceans: there are maps to heaven and hell; to happiness and despair; maps of moods, matrimony, and mythological places. There are maps to popular culture, from Gulliver's Island to Gilligan's Island. There are speculative maps of the world before it was known, and maps to secret places known only to the mapmaker. Artists' maps show another kind of uncharted realm: the imagination. What all these maps have in common is their creators' willingness to venture beyond the boundaries of geography or convention. You Are Here is a wide-ranging collection of such superbly inventive maps. These are charts of places you're not expected to find, but a voyage you take in your mind: an exploration of the ideal country estate from a dog's perspective; a guide to buried treasure on Skeleton Island; a trip down the road to success; or the world as imagined by an inmate of a mental institution. With over 100 maps from artists, cartographers, and explorers, You are Here gives the reader a breath-taking view of worlds, both real and imaginary.

World-renowned neuroscientist and author of Healthy Brain, Happy Life explains how to harness the power of anxiety into unexpected gifts. We are living in the age of anxiety, a situation that often makes us feel as if we are locked into an endless cycle of stress, sleeplessness, and worry. But what if we had a way to leverage our anxiety to help us solve problems and fortify our wellbeing? What if, instead of seeing anxiety as a curse, we could recognize it for the unique gift that it is? Dr. Wendy Suzuki has discovered a paradigm-shifting truth about anxiety: yes, it is uncomfortable, but it is also essential for our survival. In fact, anxiety is a key component of our ability to live optimally. Every emotion we experience has an evolutionary purpose, and anxiety is designed to draw our attention to vulnerability. If we simply approach it as something to avoid, get rid of, or dampen, we actually miss an opportunity to improve our lives. Listening to our anxieties from a place of curiosity, and without fear, can actually guide us onto a path that leads to joy. Drawing on her own intimate struggles and based on cutting-edge research, Dr. Suzuki has developed an inspiring guidebook for managing unwarranted anxiety and turning it into a powerful asset. In the tradition of Quiet and Thinking, Fast and Slow, Good Anxiety has the power to permanently change how we understand anxiety and, more importantly, how we can use it to improve our lives for the better.

Cut through the busyness and anxieties of daily life to discover the simple happiness of living in the present moment, as taught by a world-renowned Zen monk In this book, Thich Nhat Hanh—Zen monk, author, and meditation master—distills the essence of Buddhist thought and practice, emphasizing the power of mindfulness to transform our lives. But true mindfulness, Hanh explains, is not an escape. It is being in the present moment, totally alive and free. Based on a retreat that Thich Nhat Hanh led for Westerners, *You Are Here* offers a range of effective practices for cultivating mindfulness and staying in the present moment—including awareness of breathing and walking, deep listening, and skillful speech. These teachings will empower you to witness the wonder of life and transform your suffering, both within and outside you, into compassion, tenderness, and peace. As Thich Nhat Hanh declares, “the energy of mindfulness is the energy of the Buddha, and it can be produced by anybody.” It is as simple as breathing in and breathing out.

"You know when you're looking at someone and you can't help but smile at how oblivious they are to their own charm? That's what was happening to me, and it was making me feel...happy. Euphoric. Something indescribable. It was like we already knew each other, like we had met in a previous life. Memories that didn't exist began exploding in my mind like fireworks."--

Back in the days of Ronald Reagan's America, those far-from-innocent days of nostalgic rot and willful illusion, small-town life was thought to be simple, pure, the source of all decent values, and the home of true hearts and ever helpful neighbors who bear each other's burdens. James McGrath, a church musician who has just destroyed his personal life and his career through an act of catastrophic stupidity, believes this nonsense just long enough to flee a city he loves. Hoping to heal, he goes to live with his father in a tiny town on the Canadian border. He finds what fools have always found: truths more ordinary and more bitter than he wants to accept and a life more impoverished and antagonistic than he imagined. Descending into this bleak reality, like Jesus in the wilderness, James must face and answer the question: what do we live by? He makes some friends, falls in and out of love, rediscovers his art, and eventually finds a way back into his life. But it's

not a smooth journey, and it comes with a price.

When was the last time you listened to someone, or someone really listened to you? "If you're like most people, you don't listen as often or as well as you'd like. There's no one better qualified than a talented journalist to introduce you to the right mindset and skillset—and this book does it with science and humor." -Adam Grant, #1 New York Times bestselling author of *Originals* and *Give and Take* **Hand picked by Malcolm Gladwell, Adam Grant, Susan Cain, and Daniel Pink for Next Big Ideas Club** "An essential book for our times." -Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone* At work, we're taught to lead the conversation. On social media, we shape our personal narratives. At parties, we talk over one another. So do our politicians. We're not listening. And no one is listening to us. Despite living in a world where technology allows constant digital communication and opportunities to connect, it seems no one is really listening or even knows how. And it's making us lonelier, more isolated, and less tolerant than ever before. A listener by trade, New York Times contributor Kate Murphy wanted to know how we got here. In this always illuminating and often humorous deep dive, Murphy explains why we're not listening, what it's doing to us, and how we can reverse the trend. She makes accessible the psychology, neuroscience, and sociology of listening while also introducing us to some of the best listeners out there (including a CIA agent, focus group moderator, bartender, radio producer, and top furniture salesman). Equal parts cultural observation, scientific exploration, and rousing call to action that's full of practical advice, *You're Not Listening* is to listening what Susan Cain's *Quiet* was to introversion. It's time to stop talking and start listening.

"Fascinating . . . memorable . . . revealing . . . perhaps the best of Carl Sagan's books."—The Washington Post Book World (front page review) In *Cosmos*, the late astronomer Carl Sagan cast his gaze over the magnificent mystery of the Universe and made it accessible to millions of people around the world. Now in this stunning sequel, Carl Sagan completes his revolutionary journey through space and time. Future generations will look back on our epoch as the time when the human race finally broke into a radically new frontier—space. In *Pale Blue Dot*, Sagan traces the spellbinding history of our launch into the cosmos and assesses the future that looms before us as we move out into our own solar system and on to distant galaxies beyond. The exploration and eventual settlement of other worlds is neither a fantasy nor luxury, insists Sagan, but rather a necessary condition for the survival of the human race. "Takes readers far beyond *Cosmos* . . . Sagan sees humanity's future in the stars."—Chicago Tribune
