The 30th Anniversary of the ISCIS (International Symposium on Computer and Information Sciences) series of conferences, started by Professor Erol Gelenbe at Bilkent University, Turkey, in 1986, will be held at Imperial College London on September 22-24, 2015. The preceding two ISCIS conferences were held in Krakow, Poland in 2014, and in Paris, France, in 2013. The Proceedings of ISCIS 2015 published by Springer brings together rigorously reviewed contributions from leading international experts. It explores new areas of research and technological development in computer science, computer engineering, and information technology, and presents new applications in fast changing fields such as information science, computer science and bioinformatics. The topics covered include (but are not limited to) advances in networking technologies, software defined networks, distributed systems and the cloud, security in the Internet of Things, sensor systems, and machine learning and large data sets.

What is IBM® Multi-Factor Authentication (MFA)? IBM MFA consists of the following elements: Something that you know, such as a Personal Identification Number (PIN) or a password. Something that you are, such as a finger print or retinal scan. Something that you have, such as a hard token (for example, a key fob or soft token), which is software-based). This IBM Redpaper™ publication helps you install, customize, and configure IBM MFA for z/OS® V1.1.0. It also provides information that is based on our experience in a controlled
